DEPÔTS AND AGENCIES.

INDIAN DEPÔTS.

BOMBAY	CALCUTTA	NEW DELHI
Esplanade Road.	41, Chowringhee.	Connaught Circus.

The Society's Indian Depôts are fully equipped to meet all requirements. Information as to the stock carried by them and of the services available to Customers travelling to and from India, will be found immediately following the Index and on the back of the cover of the General Price List.

PLYMOUTH DEPÔT.

173 & 174, Union Street, Plymouth.

Telegrams: Army, Plymouth. **Telephone Nos. 710 and 711.**

The Depôt offers every facility to Customers living in the West of England to obtain their requirements locally, at the Stores' London prices.

There is a Bonded Warehouse for Wines and Spirits, etc., required for ships' stores and, in addition to the Depôt's other activities, arrangements exist for the storage, shipment and clearance of baggage.

Further information is given on page lxvi.

ALDERSHOT AGENCY.

Beechnut Road, Aldershot.

Telegrams: Army, Aldershot. **Telephone No. 867.**

No stock is held at this agency, but orders may be given and enquiries made either personally or by telephone. Current price lists are available, and seats for London Theatres may be booked.

Particulars of the Motor service to Aldershot and the surrounding district will be found on pages x to xiii.

PORTSMOUTH (SOUTHSEA) AGENCY.

109, Palmerston Road, Southsea.

Telegrams: Army, Portsmouth. **Telephone No. 73532.**

The Agency maintains a representative stock of Groceries, Tobacco, Cigars, Cigarettes, Wines and Spirits, Stationery and Drugs.

Any goods not stocked are readily obtainable through the Agency, as are also tickets for the London Theatres.

CHATHAM AGENCY.

21, High Street, Brompton.

Telegrams: Army, Chatham. **Telephone No. 2550.**

A representative stock of Groceries, Tobacco, Cigarettes and Confectionery is maintained and a similar service to that offered by the other Agencies is available.

Particulars of the Motor Delivery service in Chatham and the surrounding district will be found on pages x to xiii.

Customers desiring to purchase any article which they cannot trace from the Index as being in the List are requested to forward particulars of their requirements to the Secretary.

Customers are advised to

CONSULT THIS LIST BEFORE MAKING PURCHASES.

It will be found that

PRICES ARE GENERALLY LOWER

than those charged elsewhere, the Society's policy of selling at the lowest remunerative rate of profit enabling Customers to

EFFECT APPRECIABLE SAVINGS.

This does not apply to proprietary articles, which have to be sold at fixed prices.

Prices in this List are those current at the date of publication. Customers will receive the benefit of any reductions it may be possible to effect from time to time.

Telephone No. Victoria 8500

GENERAL RULES AND NOTICES.

Telegrams. Army Sowest London.

Rule 10. ORDERS.

(a) TELEPHONE ORDERS.

Customers having Accounts may give their orders by ringing up Victoria 8500, and asking for Order Office.

Arrangements are also made to ring up daily, or at longer intervals, as desired, the houses of Cust mers who wish to give regular orders by telephone. In no circumstances will goods ordered by telephone be delivered at other than Customers' recorded addresses, nor can they be handed to Messengers or sent to Cloak Rooms.

(b) WRITTEN ORDERS.

Orders should, if possible, be written on the Society's Order Form, and not embodied in letters, thereby avoiding the possibility of any questions in the latter requiring a reply escaping attention.

(c) BOOKS OF ORDER FORMS.

Customers will be supplied free, on application, with books of Order Forms, Reference No. A. 58, see p. xvi. Society's Publications, etc. This form has the Customer's Name, Address and Membership Number stencilled on it.

The Order Form, which is in duplicate, can be used for any number of Departments and can be sent through the Post without an envelope under ½d. stamp.

Special Order Forms for requirements in Fresh Provisions are supplied free, on application, Reference No. A. 39. These may be had in duplicate if required.

(d) ENVELOPES.

Envelopes, for Orders, addressed to the Society are supplied on application. The unstamped Envelope, Reference No. A. 74, which can be sent through the Post for a ½d., is supplied free; the stamped envelope, Reference No. A. 54, which bears a ½d. stamp, is supplied at 6d. a dozen.

(e) COLLECTION OF ORDERS.

Delivery Porters have instructions to receive orders for conveyance to the Stores, provided no detention of the Vans is involved, and the orders are given on an Account.

Boxes for the receipt of orders are placed throughout the Stores and are cleared at frequent intervals.

(f) ENCLOSURE OF GOODS—COUNTRY ORDERS.

Customers making several purchases in one or more Departments who wish the goods to be sent together, should ask the Assistant first serving them for an Enclosure Card. This should be presented wherever a purchase is made for the signature of the counterman and the insertion of the amount of the bill. In the case of cash payment, the Card, with the bills attached, should be handed in at the Chief Cashier's Office. Customers having Accounts should hand in the Card at the Deposit Office in the Bureau.

If owing to an oversight a Card, with bills attached, is taken away from the Stores, it should be returned at once, as in its absence the order cannot be executed.

(g) STANDING ORDERS FOR FRESH PROVISIONS.

Customers having Accounts are recommended to give *Standing Orders* for supplies on certain days, as these orders receive first attention.

Any fresh instructions with regard to a Standing Order must be received by the Society the day before the required alteration is to be made.

Any order received by post or otherwise will be treated as a separate and distinct order, unless instructions are clearly given to the effect that it is in place of, or an alteration in, the existing Standing Order.

(h) EXECUTION OF ORDERS.

Orders are executed as quickly as possible, but pressure of work at times leads to delay. The delivery of goods within any definite time cannot be guaranteed, and the countermen have no authority to make any promises on the subject without reference to a foreman.

(j) INVOICES.

Unless instructions are given to the contrary invoices are forwarded with the goods in sealed envelopes, except from the Fresh Provision Departments

(k) SUPPLEMENTARY ORDERS.

These cannot be executed as such, but only as separate orders.

(l) EXPORT ORDERS.

The Society devotes special attention to the supply and shipping of all classes of goods to Customers abroad. Export prices and special rules will be found on pages 1105 to 1124. Special Cards are issued for Export Orders, which should be left at the Export Office, Ground Floor, where all enquiries relating to Export should be made.

Telephone No.:
Victoria 8500

GENERAL RULES AND NOTICES.

Telegrams:
Army Sowest London

Rule 11. PAYMENT.

(a) GENERAL TERMS.

In the absence of an Account, every order must be *prepaid.*

Cheques, Postal Orders, etc., should be made payable to " A. & N.S.L." and crossed " & Co."

Cheques, Money Orders and Postal Orders remitted to the Plymouth Depot, should be crossed " Lloyds Bank."

(b) PAYMENTS AT THE CHIEF CASHIER'S OFFICE.

Customers purchasing goods in more than one Department may collect the bills and pay the amounts in one sum at the Chief Cashier's Office. The Departmental Cashiers are not allowed to leave their desks or authorised to accept Cheques, so that those Customers who wish to pay their bills by Cheque must do so at the Chief Cashier's Office.

(c) DEDUCTIONS FOR EMPTIES, ETC.

Unless Credit Notes are enclosed, deductions for Empties returned, or to be returned, or for sums otherwise due from the Society, should not be made from remittances.

(d) REMITTANCES IN EXCESS.

When a remittance exceeds the amount of the order accompanying it, a Credit Note will not be sent for the difference (unless specially applied for on the order), but the surplus cash will be held over towards the cost of future orders. It will be of assistance to the Society if the statement of account showing the balance to credit be returned with the next order.

(e) MONEY SENT BY POST, ETC.

Letters containing Coin, Treasury Notes, Bank Notes or Coupons should be sent by Registered Post in the regulation Registered Letter Envelope, procurable at any Post Office. Remittances should not be enclosed in parcels sent by Van or Rail.

(f) TELEGRAPHIC MONEY ORDERS.

These should be made payable at the South-Western District Post Office. When money is remitted under this system, the Secretary should be advised, as no intimation is given to the payee by the Postal Authorities.

(g) GOODS SENT ON APPROVAL.

Goods are sent out on approval at the discretion of the Management. In such cases the Society only accepts responsibility for the goods until their arrival at Customers' addresses. Customers are responsible for the safe return of such goods to the Society. In the case of goods returned by Post it is advisable to obtain a certificate of posting, which is issued by the Post Office on application, as the production of such a certificate facilitates inquiries should a parcel miscarry.

It will save trouble if such goods are returned within nine days if not suitable for Customers' requirements.

(h) HIRE PURCHASE SYSTEM.

Certain classes of goods may be obtained on these terms Further information will be given on application to the Secretary, and in this connection see page xvii.

Rule 12. DEPOSIT ORDER ACCOUNT.

(a) ADVANTAGES OF A DEPOSIT ORDER ACCOUNT.

Deposit Order Accounts may be opened with a nominal amount. They save the trouble of having to send money when placing orders through the Post and of having to pay at Cash Desks when ordering personally Customers are invited to use the Order Form and Envelopes mentioned in Rule 10 (c) and (d). Special forms for remitting cash are supplied, with the book of Order Forms, or can be had free upon application.

The accounts are debited with the amount of each order, and credited with empties and other sums due, the return and cashing of Credit Notes being thus avoided. Dividends and Deposit Interests are credited to these accounts in the absence of instructions to the contrary.

Pass Books are issued, and by forwarding these to the Secretary Customers can have their accounts balanced, any amount due being returned on application. If desired Detailed Periodical Statements will be sent in lieu of Pass Books and a cover for filing these statements for easy reference will be supplied free on application.

(b) TO OPEN A DEPOSIT ORDER ACCOUNT.

Customers on opening a Deposit Order Account are requested to give their full Name and Address, usual Signature and Membership Number. Orders given on Deposit Order Account must be signed by the Customer or by one authorized to draw on the account. The words " Deposit Order Account " should be written on all correspondence relating to these accounts.

Deposit Order Accounts do not bear interest and should not be overdrawn; if there is an insufficient sum to the credit of an account, orders are liable to be treated as unpaid and therefore delayed in execution.

(c) CHEQUE BOOKS.

Customers who wish to pay from their Deposit Order Accounts with the Society for purchases made elsewhere, or to make withdrawals for personal use, can, at the discretion of the Management, obtain Cheque Books at the Chief Cashier's Office containing 25 stamped cheques, which may be cleared through any Banker.

RULE 18. FREE TOWN DELIVERY.

(For EXCEPTIONS TO FREE DELIVERY see Rule 16 on page ix.)

Five Deliveries Daily to :

Belgravia — Pimlico — Victoria — Westminster

leaving the Stores at 9.0, 11.0, 12.0, 2.0, and 4.0 o'clock.

Note.—Orders received by the 1st Post for Provisions should be on the Society's Special Order Forms **if wanted by the 1st Delivery** *and any order* **required by a particular delivery** *should be so marked*

RULE 19. FREE SUBURBAN DELIVERY.

(For EXCEPTIONS TO FREE DELIVERY see Rule 16 on page ix.)

(*a*) BY THE SOCIETY'S OWN MOTOR VANS.

EXTENT OF DELIVERY SERVICE.

In certain instances **this Delivery Service does not extend to all the addresses that are included in the Postal Area.** Further information will be forwarded on application, but generally speaking the area of delivery is within a Mile of the local Railway Station.

WHEN ORDERS SHOULD REACH THE STORES.

Orders for goods in stock should reach the Stores not later than **4 p.m. (Saturdays, 11 a.m.) on the afternoon previous to the day of delivery,** and should state "Send by Motor on . . ."

NOTE.—The initials M. T. W. Th. F. and S. indicate respectively Monday, Tuesday, Wednesday, Thursday, Friday and Saturday as the days of Delivery.

* Monday excepted.

‡ To places marked thus Free Delivery can be made by Carrier on days other than those on which a delivery is made by the Society.

Rule 21. COUNTRY CARRIAGE ARRANGEMENTS—GENERAL CONDITIONS.

(For EXCEPTIONS TO FREE DELIVERY see Rule 16 on page ix.)

(a) GENERAL GOODS, FURNITURE, CARPETS, ETC., BY GOODS TRAIN.

These goods are sent to the nearest *Railway Goods Station or Port with Steamer communication*. If sent by Passenger Train at Customer's request the Society will allow the Goods Train Rate in part payment, if the order is entitled to Free Carriage.

(b) ORDERS AS ONE CONSIGNMENT.

To obtain the advantages of the carriage allowances, goods to the amount of the value as mentioned must be sent as one consignment, to one consignee, and the ticket number must be distinctly quoted.

(c) INCLUSION OF PERISHABLE GOODS IN GENERAL ORDERS.

Perishable goods from the Fresh Provision Sections cannot be included in Grocery or General Orders for the purpose of making up the specified values entitling such orders to Free Carriage. It is not desirable in any case to include items of Perishable Goods in General Orders which are sent by Goods Train.

(d) FRESH PROVISIONS BY PASSENGER TRAIN.

These goods are sent by Passenger Train (or by Goods Train where practicable) to any *Railway Station*. Under present regulations carriage must be *prepaid*, and where an order is not entitled to Free Carriage, Customers not having an Account should include an amount to cover the cost of carriage with the order.

(e) SUBSEQUENT CONSIGNMENTS OF GOODS.

To be entitled to Free Carriage, orders must be confined exclusively to such goods as are usually kept in stock, and not to those which have to be specially made or procured. Should any of the latter be included in an order, they will follow as a subsequent consignment at the Customer's expense, *unless instructions are received that the order is to be kept back until all are ready.*

(f) FRESH PROVISIONS ORDERED WITH GENERAL GOODS.

It is not advisable to order other goods to be sent with Fresh Provisions, as should the Society prove unable to get them delivered in time, the only alternative is to delay the Provisions or to send them separately at an increased cost of carriage.

COUNTRY CARRIAGE ARRANGEMENTS.

(*g*) PARCEL POST.

When Customers have Accounts, Parcels which are not entitled to Free Postage will be sent by Parcel Post when the rates are to the advantage of the Purchaser, and the Account debited with the postage. *Customers not having Accounts who require such parcels to be sent by Parcel Post, must enclose the cost of postage with the order and instructions to that effect.* For the transit of Fresh Provisions this route is not recommended, and can only be employed at Customer's risk.

When it is desired that goods exceeding the limit of 15 lbs. in weight (when packed) be sent in several parcels within the United Kingdom (Irish Free State 11 lbs.), the postage of one parcel only will be defrayed by the Society, if the order is entitled to Free Carriage.

(*h*) GOODS DAMAGED BY PARCEL POST.

Customers are respectfully requested to note the following postal regulation, as its non-observance often prevents the Society's obtaining compensation for loss and damage incurred whilst goods are in the post.

> "In the case of damage or loss of contents the packet should be retained for inspection as nearly as possible in the state in which it was delivered."

Should a postal packet bear signs of injury on delivery, the receiver should call attention to the injury at the time of delivery and, if possible, open the packet in the presence of an official of the Post Office.

(*j*) IRISH FREE STATE.

Any Customs, Clearance or Duty chargeable in Ireland will be payable by Consignees.

(*k*) GOODS DAMAGED IN TRANSIT.

Should it be discovered that goods have been damaged or stolen from packages during transit, *Customers are advised to inform the Station Master or Agent from whom the goods are received, within three days of the date of delivery*, otherwise the Railway Company or Carrier may refuse to acknowledge liability. The Society should also be informed without delay. The Society is not responsible for any damage or loss sustained after the goods have been delivered to the Railway Company, Post Office or Carrier. In signing for goods from Railway Companies or Carriers, it is advisable to make the reservation "*Not Examined*" in all cases where the condition of the contents is unknown.

(*l*) CLAIMS FOR CARRIAGE.

No claim with reference to a charge for carriage of goods can be entertained after the expiration of three months from the date of dispatch. Should carriage be demanded on goods entitled to Free Carriage, *Customers are requested to pay the amount and forward the receipt to the Society, when the sum will be refunded.*

COUNTRY CARRIAGE ALLOWANCES.

(For EXCEPTIONS TO FREE DELIVERY see Rule 16 on page ix.)

——	Within 30 Miles of London.	Within 50 Miles of London	Within 100 Miles of London.	England (over 100 Miles from London) and Wales.	Scotland, N. Ireland, and Channel Isles.	Irish Free State.

A Price List and particulars of collection and delivery within the Laundry Company's area will be sent on application to the Secretary of the Laundry Company, or on personal application at the Enquiry Office, Ground Floor, Victoria Street Block.

7½ PER CENT. DISCOUNT OFF CURRENT PRICES.

GENERAL INDEX

*** Denotes Goods Manufactured by or for the Society and Recommended.**

HOW TO USE THE INDEX

1. The Index has been carefully revised with the object of making it simpler for reference.

2. **The goods of certain Departments, viz., Grocery, Drugs, and Books, are listed in the Catalogue in alphabetical order. Many items appertaining to these Departments are entered in the Index. Those of lesser importance are not indexed, but will be readily found on referring to the section of the Catalogue devoted to the Department concerned.**

3. Articles are now indexed under the noun or name of the article, and not under the adjective or adjectival noun descriptive of its composition or use. For example:—"Brass Oil Lamp" will be found in the Index by turning to "Lamps," not to "Oil" or "Brass."

4. Materials of which goods are made are mentioned in the Index only when it is thought desirable to describe an article more precisely, but they do not appear as MAIN index entries except in cases where it is considered that reference will be facilitated thereby.

5. National names which specifically define articles appear in the Index as main entries, in addition to the names of the articles themselves. Examples are: "American Cloth," "India Ink," "Scotch Whisky"—all having two entries.

6. Where an adjectival noun is used in conjunction with a noun to describe an article, both are indexed. In this category are: "Hat Brush," "Golf Club," "Stamp Album," etc. Such articles can be found by reference to either of the words comprised in the name.

7. Compound names such as "Barley-Sugar," "Cocoa-Nibs," etc., form a somewhat special class, and are indexed under the distinguishing word only. "Barley-Sugar" should therefore be looked for under "Barley," not under "Sugar," and "Cocoa-Nibs" under "Cocoa." Trade descriptions such as "Bath Chaps," etc., are indexed in accordance with both the name and nature of the commodity —*e.g.*, "Bath Chaps" under "Bath" and "Bacon"; "Bombay Duck" under "Bombay" and under "Fish."

8. When several kinds of the same article are shown on one page, or on consecutive pages of the Catalogue, they are not detailed in the Index—*e.g.*, "Cigarettes, Various," pages 82–84, and "Sprayers, Various," pages 964–967.

9. The position in the Catalogue of each Department is shown by the summary on p. ii.

ON ARRIVAL IN THE EAST

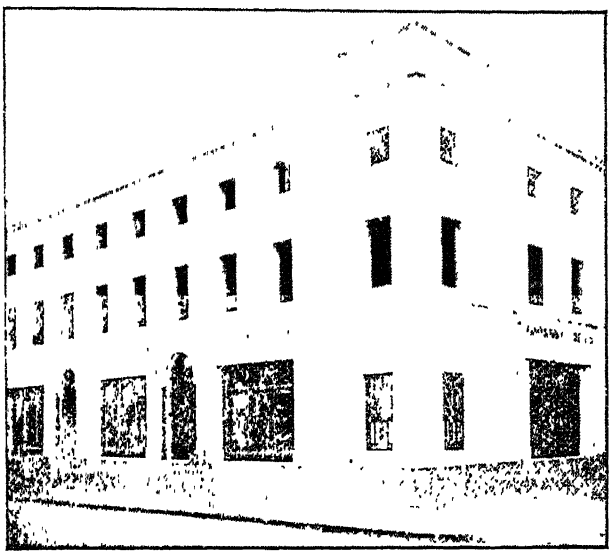

ARRIVALS at Bombay will find a representative from the Army and Navy Stores to meet them, ready to make arrangements for travellers and do everything possible to assist with their baggage, railway tickets, and accommodation. This is the first service that the Stores can render to those arriving in India, but one that is of immense assistance to all new-comers to the East.

LONDON'S LEADING

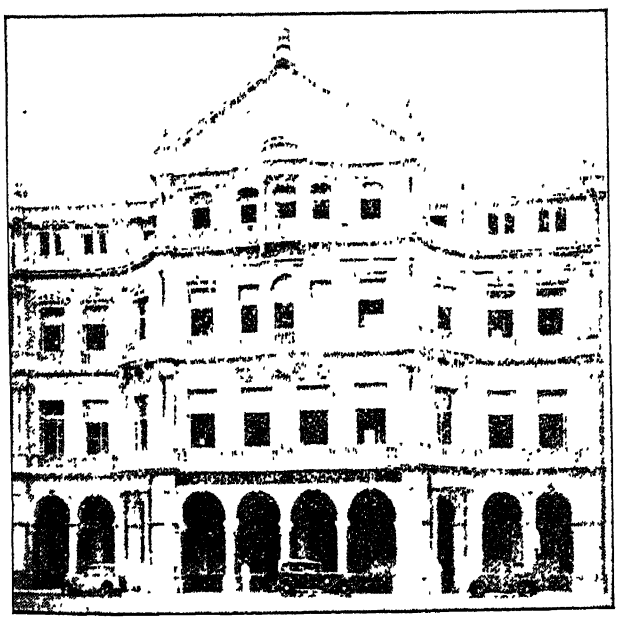

THE Indian Depôts of the Army and Navy Stores always maintain a comprehensive stock of most of the commodities which are obtainable in London, while the latest fashions are sent out from England almost every week. The Bombay, Calcutta and New Delhi Depôts are looked upon to an ever-increasing extent as the meeting-place and shopping headquarters of residents and travellers in India and the East.

STORES IN INDIA

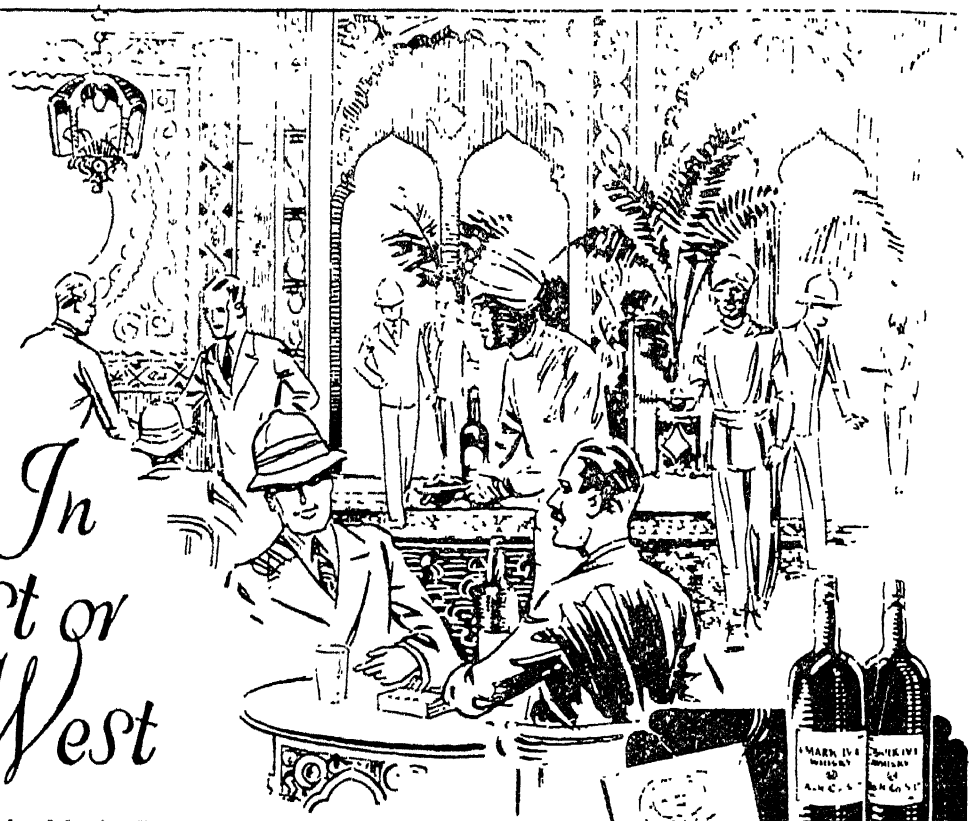

NEW DELHI, Connaught Circus.

BOMBAY, Esplanade Road.

CALCUTTA, 41 Chowringhee.

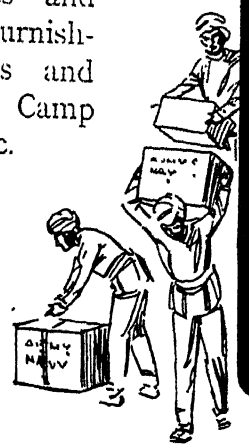

In East or West

GOODS obtainable in London at the Army & Navy Stores are also available at the Indian depôts, including Groceries, Fresh Provisions, Confectionery, Tobacco, Cigars, Cigarettes, Wines and Spirits, Ironmongery and Turnery, Food Refrigerators, Stationery and Printing, Medicines, Perfumes and Toilet Requisites, Photographic Materials, Jewellery and Electro-plate, Shooting and Fishing Requisites, Boats, Boots and Shoes, Ladies' and Gentlemen's Outfitting, Furniture and Furnishing Fabrics, China and Glass, Bags and Trunks, Sports and Games Requisites, Camp Equipment and Saddlery, etc., etc.

ILLUSTRATED CATALOGUES.

Comprehensive Price Lists of Goods kept in stock in Bombay, Calcutta and New Delhi are obtainable from the Managers of the respective depôts.

WHISKY

Residents in the East can now obtain three

FOUR FAMOUS BRANDS

known as:

Mark IV.—Pure malt special blend. Of this it is almost unnecessary to speak as this Whisky has a world-wide reputation, and has always been the greatest output of any of the very best pure Pot Still Whiskies now being offered.

13/2 Per bottle **Rs. 8–12**

No. 1.—A blend of fine old vatted Highland Malts and old-grain Whiskies, fully matured, and incomparable with any of the advertised brands now on the market

12/2 Per bottle **Rs. 8–2**

Vat. A.—A similar Whisky, but has rather more of the old Highland Pot Still Whisky, which imparts to it a softness and roundness rarely met with.

12/9 Per bottle **Rs. 8–8**

Club Special.—A blend of choice old Whiskies, and very popular in India.

11/8 Per bottle **Rs 7–12**

From the Depôts in

BOMBAY, CALCUTTA, AND NEW DELHI.

GROCERIES

CONFECTIONERY BEERS CIDERS HOUSEHOLD AND TOILET SOAPS

Prices of Groceries in this List are subject to Market fluctuations: all prices are correct at the time of going to press: additions and alterations, as far as practicable, are notified in the Fortnightly Food List, which will be forwarded on application.

All previous Grocery Lists are cancelled.

CANDLES.

In ordering, please state size required. If size is not stated 6's will be sent.

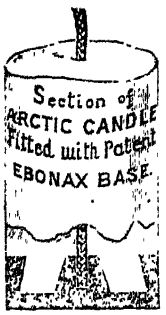

Candle sizes 3's, 4's, 6's, 8's, 12's, indicate the number of candles to the pound. Sizes 3's, 4's, and 6's, in packets about 6 lb.; sizes 8's and 12's, in packets about 3 lb. Self-fitting, in 3 lb. boxes.

Shade Holder Candles. The following are specially recommended:

Planet Sperm, Parastrine Shade, and Whitehall Sperm, sizes 4's and 6's.

Arctic Lights (Green's Patent).

These Candles are specially made for burning in the Arctic and other spring candle lamps. They are fitted with a new patent base (as illustrated), which prevents the surplus wax, after a candle has burned out, from running down the inside of the tube, causing constant cleaning and attention.

(Highly Recommended.)

GRO[illegible]

COFFEE.

Roasted, Whole, or Ground. Unless otherwise stated, quantities over 2 lbs. will be sent whole.

For making good Coffee the following method is recommended:

Place **freshly ground Coffee** in an earthenware jug, pour on boiling water, stir well, and allow 2 to 3 minutes to settle, repeat stirring and allow the same interval; the Coffee is then ready for use.

When Epicures are Dining

SERVE SAN JOSÉ FRUITS

Your most critical guest will surrender with delight to the ecstasy of San José Fruits. Here is a lusciousness fit for the feasting of kings . . . Peaches, Pears, Apricots and gorgeous Hawaiian Pineapple of superb ripeness, delicious flavour and glorious texture. Big, beautifully coloured, translucent fruit at the very peak of perfection, their sun-ripened tenderness quickly sealed away so that they come to your table with all the fragrant freshness of sunny orchards.

Look for the famous Trade Mark when you want the world's finest fruits. Also in the same class San José Asparagus, especially selected from picked varieties, recognised as the finest asparagus in the world.

Always insist on

SAN JOSÉ

CANNED FRUITS AND ASPARAGUS

SAN JOSÉ APRICOTS PEARS PEACHES *and* **HAWAIIAN PINEAPPLE**

The same infinite care in growing and packing that characterises San José Fruits applies equally to

SAN JOSÉ ASPARAGUS

This choice variety comes from specially selected spots of California, which experts agree, produce the finest Asparagus grown.

Oh! the JOY of HEINZ PERFECT SOUPS

20 Varieties **5d.** & **7d.**
all ready to serve

Heinz Perfect Soups. A Heinz Soup is always exactly what it is labelled. If it is a cream soup the basis is rich, thick cream; if a meat soup, it is made from the most nutritious cuts of meat obtainable. For every soup the vegetables are specially grown. Each soup is prepared from its own special ingredients—not made up from one common stock with thickening and flavouring added. That's why they all taste so good—and add so much to the Joy of Living.

CREAM SOUPS. Asparagus. Celery. Green Pea. Spinach. Tomato. Mushroom. Chicken. Onion.
MEAT SOUPS. Mock Turtle. Oxtail. Vegetable. Kidney. Chicken Noodle. Clear Chicken Broth with Rice. Chicken Consommé. Julienne. Mulligatawny. Scotch Broth. Beef Broth. Also Genuine Turtle with Vegetables (8½d.)

BY APPOINTMENT

VINOLIA SOAPS are supplied regularly to the Royal Palaces and to famous homes throughout the land. There could be no surer proof of high quality, consistently maintained. You are sure of quality when you ask for Vinolia—sure, too, of value, for although Vinolia quality cannot be surpassed, Vinolia prices are by no means high.

(Vinolia products are listed on pages 37 and 44)

VICHY-CÉLESTINS

THE WORLD-RENOWNED NATURAL MINERAL WATER

Bottled as it flows from the Spring.

In order to ward off attacks of RHEUMATISM and its attendant troubles, always drink this famous NATURAL Mineral Water, which is Nature's own antidote for this painful affection.

Drink Vichy-Célestins regularly at Meals. You'll like it and will derive great benefit from its use.

CAUTION :—Each bottle from the State Springs bears a Neck Label with the words "VICHY-ETAT," and the name of the Sole Agents :

INGRAM & ROYLE, Ltd., London, Liverpool, and Bristol

To prevent the formation of Uric Acid in the System drink

CONTREXÉVILLE-PAVILLON

Largely prescribed by the leading medical practitioners, and used regularly in the Hospitals.

The Natural Alkaline Table Water

EVIAN-CACHAT

Free from both natural and artificial carbonic gas.

Highly recommended by the leading medical authorities, and is essentially the Table Water of the aristocracy.

HUNYADI JÁNOS

THE FAMOUS

NATURAL APERIENT WATER

All the above-mentioned Natural Mineral Waters can be obtained in the GROCERY DEPT.

Ayrshire Rolled Bacon .. .. per lb. 1/10

BOWYER'S WILTSHIRE BACON

If you are an epicure you will appreciate the fact that Bowyer's Wiltshire Bacon is still cured to-day by the good old-fashioned process that made it famous over one hundred years ago.

New methods may be quicker—even cheaper, but Bowyers are proud of their Bacon—and they have a tradition for quality and flavour that can only be maintained by adhering to the old Wiltshire plan of curing in dry salt, smoking with wood smoke and allowing each "side" its proper time to mature.

It is the same regard for quality which gives Bowyer's Sausages and Pork Pies their peculiar richness and fine flavour.

Bowyers (Wiltshire Bacon) Ltd

NEW ZEALAND

BUTTER AND CHEESE

Two delicious dairy products from Britain's sunny Dominion

WE RECOMMEND THEM

Sunshine for your Home!

Why are Australian Products so delicious and so good for you? It is because they come from a ***sunny*** country.

Fruit in Australia—fresh, canned or dried, has all ripened to perfection. It is full of energising fruit sugar and precious health-giving minerals.

The butter is creamy and delicious and rich in sunshine vitamins because the cows are fed in sunny pastures.

For your health and for your enjoyment ask your grocer for these products from Australia—they cost no more.

AUSTRALIAN

SULTANAS, CURRANTS and RAISINS, CANNED PEACHES, PEARS, APRICOTS & PINEAPPLES, BUTTER, Choice (Kangaroo Grade), BREAKFAST EGGS (Sept. to Feb.).

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS

HAVANA CIGARS.

(THE SOCIETY HOLDS THE LARGEST STOCK OF ANY RETAIL HOUSE IN THE UNITED KINGDOM

Everybody knows that Havana produces the finest Cigars in the world, but it is not generally known that Havana also produces some of the most inferior. That being so, the name of a brand is not of itself a sufficient guarantee of quality. It requires expert knowledge and care in the selection. The Society's stock of Cigars comprises the finest selection of all the leading brands.

The Society is unable to guarantee the supply of any given size which may be quoted in this Price List. It will, however, be understood that where the supply of any size has become exhausted, the nearest in stock to it will be substituted. Customers are also informed that the prices of Havana Cigars are liable to fluctuation.

CABINET CIGARS.

THE SOCIETY HOLDS THE LARGEST AND FINEST STOCK IN THE KINGDOM OF "CABINET CIGARS" OF ALL SIZES IN THE LEADING BRANDS, WHICH ARE CAREFULLY SELECTED FROM THE CHOICEST TOBACCOS GROWN IN HAVANA.

NOTE.—No additional charge is made for light-coloured Cigars.
An allowance of 2½% will be made on orders for 500, or 5% on orders for 1,000 or more Havana Cigars and La Corona Brand.
All other Cigars 2½% on orders for 1,000 or more.

TOBACCOS.

All Tobaccos are of the specified weight when first made up, but owing to evaporation of moisture afterwards they lose weight more or less according to the time they are kept.

NOTICE.—Loose Tobacco should be unpacked as soon as possible, and kept in a cool, dry place.

	Per 2 oz.	Per 4 oz.	Per 8 oz.	Per lb.

14	Very Fine, Rare Old	76/–	—
126	Rare Old Tawny, Very Choice, Taylor	88/–	—
C	**WHITE PORT** Medium Rich ..	56/–	26/–

VINTAGE PORT, Old in bottle.

The Society holds what is probably the largest stock of Vintage Ports under one roof, ranging from the 1890's to the 1935's. Old Wines are now extremely rare, and it is not found practicable to give details here, as stocks of the older Vintages necessarily become exhausted from time to time, but current quotations will gladly be furnished on application.

British Empire Wines, see Departmental Wine List.

SPANISH WINES

No.	Description.	Per doz. bots.	Per doz. ½ bots.

All previous Lists cancelled.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

WINES AND SPIRITS.

A complete List is circulated bi-annually to Customers. Should this by any chance be undelivered the Secretary will feel grateful for a notification to this effect.

Owing to the considerable sale of Vintage Clarets, and consequent variations, it is impracticable to quote particulars here of the Wines held in stock by the Society, but full details of the Wines available are shown in the Departmental Price List.

CLARETS

No.	Description.	Vintage.	Per doz. bots.	Per doz. ½ bots.

HARDWARE

PARTICULAR attention is drawn to the modernising of this Section. Extensive displays of all modern kitchen equipment will be found in this Department and from time to time special exhibits will be made. Space will not permit the listing of every requirement stocked in the Section, but in the following pages endeavours have been made to compile a list of articles that are in common demand. Customers will no doubt realize that improvements and additions are constantly taking place, and a visit to the Section is strongly advised, where a comprehensive display of the following can always be seen :—

TURNERY AND IRONMONGERY APPLIANCES.
STAINLESS STEEL COOKING UTENSILS.
ELECTRICAL APPLIANCES.
OIL HEATING APPLIANCES.
HEARTH FURNITURE.
ANTHRACITE STOVES.
PAINTS.
TOOLS.
SANITARY EQUIPMENT.
WALLPAPER.
ORIENTAL SECTION.

SPECIAL NOTICE.—Attention is drawn to Rules No. 7 and 8, Page V, relating to goods sent for repair and to estimates desired.

Ewbank CARPET SWEEPERS.

BEING the first British Carpet Sweeper the EWBANK has behind it a long experience which is responsible for the practical improvements made to its design. The constant experimenting with new ideas maintains for the EWBANK the proud position of the most popular Carpet Sweeper. Those responsible for its design avoid anything that is not practical, and every component is of the finest quality.

Long service is one of the principal features of the EWBANK. Compare the price with the term of service obtained and you will find that the cost is about one penny per month.

EWBANK Carpet Sweepers are chosen for Government Departments, British Steamships, the principal Hotels and Theatres, as well as by nearly all British Housewives.

PRICE LIST

Ewbank Success: (T.G. 327). World famous with ample reason. Highly efficient. With superb wearing qualities. Ball-bearing and Self-cleaning Brush of warranted bristle; Seven Anchored Safety Cushions on Case, Bail and Handle. A full-size Sweeper suitable for any home. Japanned Fittings **30/-**

Ewbank Conquest: (T.G. 328). A Success de Luxe. Mechanically the same machine, but more highly finished for presentation. Chromeplate fittings and electro-copper dustpans **36/-**

Ewbank Empire: (T.G. 329). An efficient, long-wearing Sweeper, built of the same material as the famous Ewbank Success but carrying only the four protective cushions on the corners of its case. Japanned Fittings **28/-**

Ewbank Merit: (T.G. 330). An inexpensive modification of the Empire. A useful Carpet Sweeper for the housewife of restricted means. Japanned Fittings **23/6**

Ewbank Magnum: (T.G. 331). A Ewbank Success enlarged to the width of 16½ in. for service in Hotels, Cafés, Passenger Liners, Showrooms and other places of public resort. Japanned Fittings **40/-**

MINIATURE PATTERNS for Houses and Flats of cramped dimensions.

Ewbank Minor: (T.G. 332). A compact machine of the same quality as Ewbank Success and Conquest, but reduced in width to 12 ins. to meet the requirements of the smaller modern home. An extremely handy and powerful Carpet Sweeper for a lady's personal use. Chromeplate Fittings **26/6**

Ewbank Albion: (T.G. 333). An inexpensive but serviceable pattern of the same dimensions. Japanned Fittings **21/-**

As every component part has been standardised throughout the past 40 years, the Ewbank Carpet Sweepers can always be repaired, or new parts may be obtained without difficulty for home renovation.

VACUUM CLEANERS—ELECTRIC AND HAND POWER.

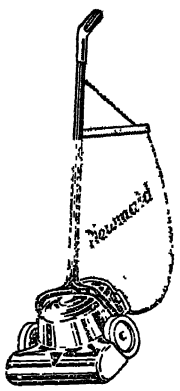

THE NEW NEWMAID

NON-ELECTRIC VACUUM CLEANER

T.G. 339.

Features of the "Newmaid."

The polished aluminium body is exceptionally strong and light, and is instantly adjusted for every thickness of carpet and for lino. Specially designed to clean under low furniture and beds, etc. The specially designed, soft, non-clogging brush in the nozzle gently agitates the pile of the carpet. The high-speed, worm-driven fan is silent, runs in ball bearings, and gives tremendous suction at every easy stroke—the secret of its success. The dust bag is of ample size, traps the dirt and is emptied quickly, cleanly and easily.

"Standard" Model 45/-

The Newmaid de-luxe is even better than the successful Newmaid Standard Model. Certain refinements have been added to make the new product worth far more than the extra cost.

De-luxe price 55/-

For stairs and other places very awkward to clear, there is nothing so handy or efficient as the new Newmaid Stair Cleaner 25/-

(Not illustrated.)

The NEW WHIRLWIND MODEL 50 REGD.

THE MODERN CLEANER that makes housework easier WITHOUT USING ELECTRICITY

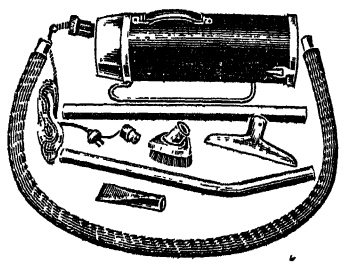

The easy, speedy way it thoroughly cleans carpets, rugs and other floor coverings will amaze you!

"ROL-A-DOR." THE SPACE-SAVING WARDROBE. PORTABLE. DUSTPROOF.

T G 511

The "Rol-a-Dor" is an all-the year round necessity it gives more "extra" space and holds equally as many clothes as the standard type (The roll-top door saves the space required by the usual swing door.) A great asset to every home, because the small cost is saved by keeping clothes in perfect condition all the year round

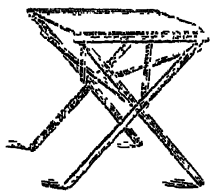

Construction The "Rol-a-Dor" is made of special fibre board and selected hard-wood frame, has a fine wax finish to prevent dampness, and gives lasting wear

Size, 5 ft. × 1 ft. 9 in. × 1 ft. 9 in. .. price 16/9

Refills 2/6

"PUREAU" HOUSEHOLD WATER SOFTENER
T.G. 578.
Simply place the "Pureau" Household Water Softener in the cold water supply tank and forget it, it will operate automatically and effectively day and night for six months, for a large house use two "Pureau" Household Water Softeners.
Price 10/- complete.

"CLENSOL" HOUSEHOLD WATER PURIFIERS.
T.G. 581.
These provide pure, soft, fresh, healthy water, suitable for drinking, cooking and washing, in the simplest manner possible.
It is only necessary to place a "Purifier" in the cold water tank every week for the first four weeks, then one every fourteen days—for an ordinary size 4 to 6 bedroomed house—to obtain all the luxuries of soft water and to be assured that your boiler and pipe lines will be kept free from scale and corrosion. The sanitary system is automatically cleansed. The cost of the "Purifiers" is only 12/- per box of 12 bricks, and a box will last a household of four persons for six to ten months.
Zinc Containers for above, each 9d.

THE CLENSOL MAINS ATTACHMENT WATER SOFTENER.—T.G 582.

SOFT water from any or every tap at less than **one penny** per day.
CONVENIENT and permanent service with a minimum of attention.
INSTANT adaptability to water of any degree of hardness.
INSTANT and reliable control for any desired degree of softness
Also supplied Horizontal Fitting
The Clensol Mains Attachment Water Softener has been designed, as the outcome of three years' experiment, to produce the cheapest, simplest and most reliable supply of soft water. Remember that its initial cost is its final cost. And, most important, remember that it does not embody any new and untried principles.
PRICE with box of 6 bricks. £8 10 0
Refills Sufficient to soften approximately 1,500 gallons of London water—1/- each. (To order)

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

ALUMINIUM COOKING UTENSILS:

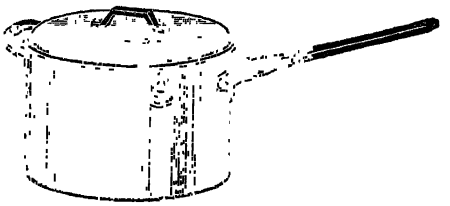

FOR USE ON ELECTRIC STOVES.

THESE Aluminium Utensils are specially manufactured with ¼ in. thick bottoms, and are scientifically ground by a special process giving an even thickness and a dead flat surface, and so constructed that distortion is practically impossible. The patent reinforced Bakelite handles are fully insulated and heat-resisting, and have no screws to come off; no rubber washers to wear out; no wood to crack and warp.

THE VOLCANO KETTLE.
T.G.I, 181

Ideal for Picnickers and Campers.

This unique kettle burns wood, paper, or weeds. It consists of an outer cylinder and inner cone of aluminium, sealed together at the top and bottom, forming a water space between them, which can be filled through the large spout in the top shoulder —a wall of water surrounding a conical flue. A stand is supplied, packed inside the bottom of the kettle, the whole being very light and compact. To boil the water, the "Volcano" kettle is placed upon its stand with the aperture in the latter pointed towards the wind. A piece of paper is lighted in the stand and immediately further balls of crunched newspaper or twigs or leaves are dropped through the funnel, keeping the flame burning up the walls of the inner cone. One copy of an ordinary newspaper is sufficient fuel to boil this kettle in 4½ to 6 minutes. Twigs, etc., are even quicker
Size, 7 in. diameter by 14 in high (packed).
Capacity, 3 pints. Boils in 6 minutes
Price 17/6 Spare Container 3/6

"CASTEN-WARE" CAST IRON VITREOUS ENAMELLED. (Foreign.)

Housewives appreciate "Casten Ware" utensils because it is so easy to thoroughly cook in them without burning. Not only do they keep food hot for a very long time, but are most attractive for use on the table. The machined base is essential for electric or range top, but is equally suitable on gas ring or fire.

WOOD BLOCK WINE BINS.
Bins made to special sizes, extra.

T.G.I. 316 Single Bins, depth, 9 in.

Safety and strength are the chief points that commend this bin, which consists of Wood Blocks fastened together with Iron Hoops, the Wood only coming into contact with the bottle—preventing breakage. They will safely hold pints or half-bottles, as well as quarts, Champagne, etc.

Prices and Sizes :

THE MELIOR patent COFFEE POT.
T G I. 337.

Make your coffee in the Melior pot itself as though you were making tea. Then put on the lid with the filter drawn up inside it, and, after allowing a few minutes for the coffee to infuse, press the filter down on to the coffee grounds, as shown in the illustration. Your coffee can then be poured out hot, clear and fragrant. The filter parts are strong and easy to keep scrupulously clean. In silver-plate and Silicon China.

THE NEW GRAPE FRUIT CORER.

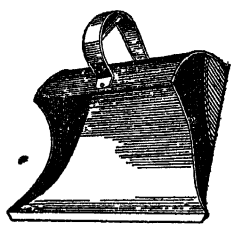

T.G.I. 543.

The New "Junior Adjustable" Grape Fruit Corer Is adaptable to any size Grape Fruit, it is simple in construction and easy to use. The Corer is pressed into the centre of the fruit with a slight backward and forward twist, and then by opening the handles the core is cut through and can be lifted out, removing the pips at the same time. The fruit is then ready for preparing.

T.G.I. 566

Combined Housemaid's Box and Ash Collector.

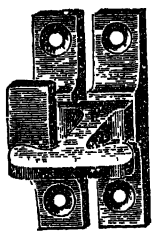

The "Ashbox" is fitted with a swing door, which automatically closes as the shovel is withdrawn after ashes, etc., have been deposited, so preventing dust from rising and flying about the room. The front chute fits an ordinary household shovel. A Tray is provided to hold dusters, brushes, etc. Colour: japanned mottled green. Size Height 13½ × 12 ins. wide × 9 ins. deep . 7/6

THE SUPER SHREDDER. Foreign.

T.G.I. 567

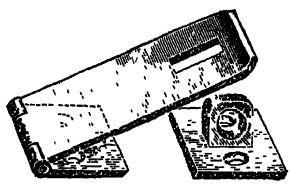

For kitchen use eclipses all its forerunners for versatility, besides being a sheer joy to handle. Ingeniously designed, this handy tool not only grates a range of substances from nutmegs to cheese but produces fine or coarse shreds, straws and slices for use in garnishing, or for salads, soups and other culinary purposes. No other machine will be found to do this work in such a pleasing and efficient style and with such ease and rapidity. The machine is extremely well made, is very strong and will not rust. Its frame is of iron, covered with a double coating of pure acid-resisting tin, whilst the shredding and cutting discs are of stainless steel with chromium spindles. The machine will slice, chip, chop, grate, grind, mash, shred and press. Price, complete with cutter 29/6

FIRE EXTINGUISHERS, BUCKETS AND LADDERS FOR COUNTRY HOUSES, FLATS, GARAGES, Etc.

The "Davy" fixed in position and in use.

THE WORLD'S MOST COMPLETELY AUTOMATIC FIRE ESCAPE.

THE "DAVY"

T.G.I. 621

PLACES EVERY BEDROOM ON THE GROUND FLOOR

To all intents and purposes, every bedroom in the house is as easy to escape from as though it were only a few feet from the ground provided it has

THE "DAVY."

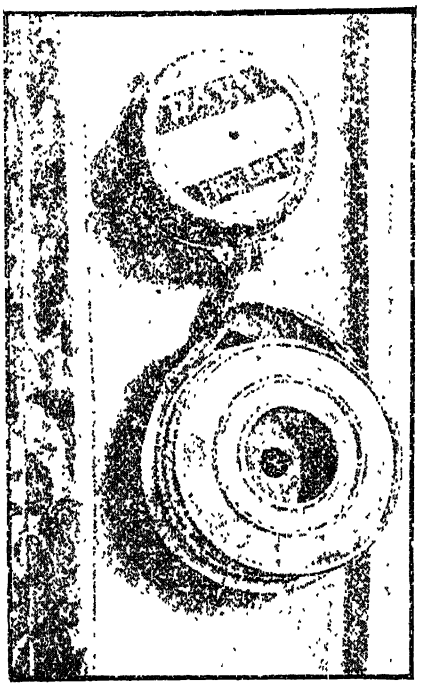

It is known that out of every one hundred major outbreaks of fire seventy-five have the staircase either wholly or partially burned up before the fire starts.

The "Davy" Automatic Fire-escape, unobtrusively fixed behind the window curtain, gives complete protection, and to any children, the unconscious without limit to their number. Accepted by H.M. Home Office, the R.A.C., the A.A., Government Departments, 500 Fire Brigades.

Price £7 17 6

Plus 1/3 per foot for the covered Steel Cable

THE "NEST-HILL" BANTHAM BUCKET HAND PUMP

T.G.I. 622

A new fire appliance for private houses, schools, public buildings, etc.

The "Nest-Hill" pump is not a chemical extinguisher, which is less likely to ... carry, indeed it is ... can fed with it. It ... of water, and can easily be re-filled whilst in use. The pump is arranged to give an absolutely steady stream so that no water is lost due to pulsation, and there is no drop in pressure. In addition to these advantages, should the fire be very small, when it is out the pump is stopped. A chemical plays on until it is exhausted and often causes serious damage.

Holds 2½ gallons of water. Throws a continuous stream of water 30 to 40 ft. with ease. Red Cellulose finish.

Price 86/3

Collapsible Canvas Buckets for use with the pump for refilling purposes

Extra . each 5/6

THE "KYL-FYRE" FIRE EXTINGUISHER.

T.G.I. 621

A most reliable and efficient Fire Appliance. The best protection for home, office or workshop. "Kyl-Fyre" being a non-conductor, can be used with perfect safety on all electrical outbreaks, being harmless to operate and causing no damage to cyanides or cables.

"Kyl-Fyre" is a dry powder, contained in a handsome cylindrical tube as illustrated, and should be suspended from a strong hook about 6 ft. 6 in. from the ground. When required for use, take a firm grip of the tube and pull down (thus leaving cap on hook), and throw contents with force into the flames.

OIL HEATING STOVES.

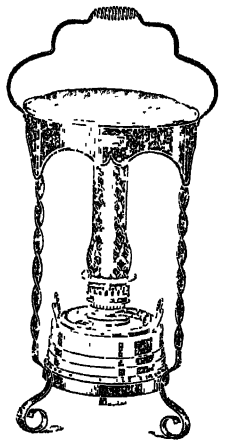

T.G.I. 684.

THE "ARDENT DE LUXE"

The handsome and ornamental appearance of these models, coupled with their great heat, makes them the oil stoves de luxe for large rooms, offices, studios, halls, parish rooms, etc. They can be fitted to a flue, if desired, and so are very useful in sick rooms where an even temperature and heat all night are essential. The silvered reflector combined with the ruby chimney throws out a genial glow. Height 32 ins. Diameter 12 ins. Container holds 5¼ pints. Oil consumption 3½ pints in 13 hours.

Price 75/-

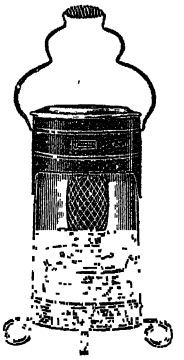

T.G.I. 687.

THE "BIJOU ARDENT"

The "Bijou Ardent," which will provide a perfect heating system for a room as large as 20 feet by 12 feet, yet occupying very little space. An ideal stove for that cold bedroom and very popular in the nursery for its cosy, red glow. Height 25½ ins. Diameter 14 ins. Container holds 5¼ pints. Oil consumption 5½ pints in 13 hours when full on.

Price, complete 60/-

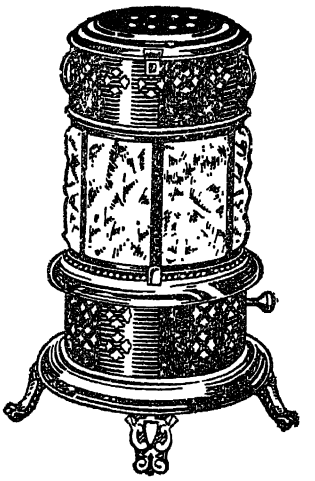

T.G.I. 689.

BLUE FLAME HEATER.

This Stove burns with a pale bluish flame similar to the Bunsen gas flame, consuming a very large proportion of air. It is a popular model on account of its easy portability, extreme economy in the consumption of oil. The wick needs renewing only at rare intervals. Small model. Height 21½ ins. Diameter 10 ins. Container holds 2½ pints. Oil consumption 2½ pints in 11½ hours when full on.

Price, complete with wired ruby chimney 45/-

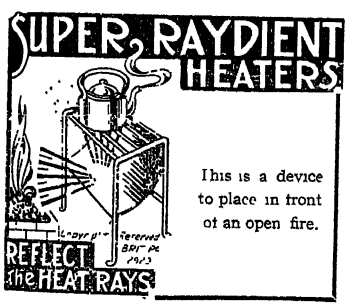

A masterpiece in Oil Heaters. This stove is fitted with special Glass Slabs forming a cylinder from which, when the stove is alight, emanates a perfect reproduction of the rays from a glowing coal fire. The entire absence of smell and the warm fire-like glow make it indeed the most perfect Oil Stove ever offered.

MORRIS "CENTRAL" OIL RADIATORS

T.G.I. 693.

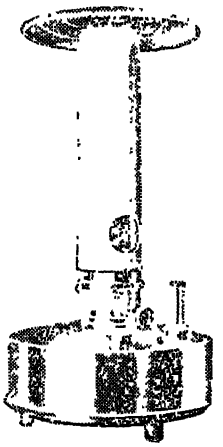

These radiators give all the convenience and regular warmth of Central Heating without the heavy installation costs. They are economical in fuel, clean to use, safe and with the enclosed blue-flame burner. All models are constructed of pressed iron sections and, being mounted on ball-bearing castors, may be wheeled from room to room with ease and safety. Finished in Antique Gold colour.

Made in 5 sizes:

	To heat a room approx.	
"S. Junior"	12ft. × 10ft. × 9ft.	£5 19 6
Type "SA"	14ft. × 12ft. × 9ft.	£7 19 6
,, "SB"	20ft. × 14ft. × 9ft.	£9 17 6
,, "SC"	20ft. × 12ft. × 9ft.	£8 19 6
,, "SD"	22ft. × 15ft. × 9ft.	£11 17 6

THE "UNIVERSAL" HEATER

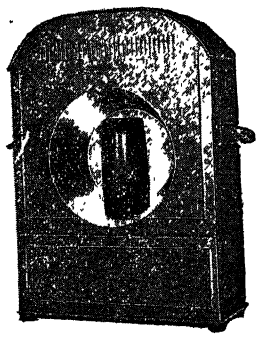

T.G.I. 694.

This Heater is ideal for use in greenhouses. Strongly constructed with solid copper container, oil-gauge and float of brass, vitreous enamelled chimney and canopy, it is non-rustable.

Made in 3 sizes:

	To heat a greenhouse approx.	
Type "GA"	9ft. × 8½ft. × 8ft.	31/6
,, "GB"	12½ft. × 9ft. × 8ft.	32/6
,, "GD"	15ft. × 10ft. × 8ft.	55/-

THE "KWICKHEATER"

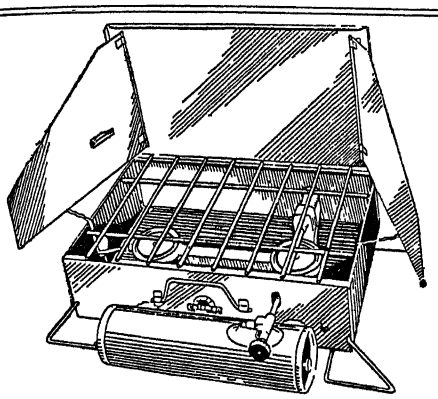

T.G.I. 695.

This, the latest addition to the range of Morris Heating Appliances, is designed to give maximum heating results quickly, with a minimum oil consumption. Heat from a lamp surrounded by a specially-shaped heat-resisting chimney is intensified and reflected out into the room by a copper parabolic reflector, a large proportion going on to the floor and neutralising cold floor draughts. Fitted with two handles for carrying.

The "Kwickheater" will heat a room 20ft. × 11ft. × 9ft. or approximately 2,000 cu. ft. 97/6

WATER SOFTENERS.

"PERMUTIT"

A LUXURIOUS ECONOMY

T.G.I. 702.

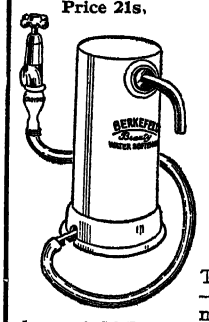

Every home can now enjoy the many advantages of soft water—for baths, shampoos, washing-up, rheumatic complaints; and the expenses of every home can be reduced by the same pleasant means—less soap and soda needed, less tea, less gas used, less frequent plumber's bills. One of these United Water Softener's household models will meet your need exactly.

Type L supplies sufficient water for the whole house. Easily fitted to the ordinary water supply—simple operation—constant softened water ensured.

From £20 0 0

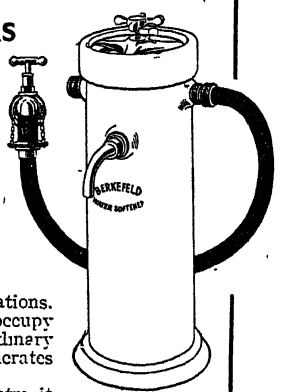

"Permo" Water Softener, as illustrated; the portable water softener; can be connected to any tap in the house in a moment. £6 6 0 and £4 4 0

The "BEAUTY" Price 21s.

BERKEFELD WATER SOFTENERS

S.O. MODEL Price 47/6
BABY MODEL 30/-

T.G.I. 703.

Made in white earthenware.

Fittings chromium-plated.

Clean and non-Corrosive.

The "BEAUTY"—Berkefeld's latest model gives 10 gallons of SOFT water between regenerations. The S. G. Model gives 50 gallons. Both occupy little space, are easily attached to the ordinary tap, and a handful of common salt regenerates them.

Ladies appreciate SOFT water, the lustre it gives the hair, the silky softness the skin acquires: better still the benefit it has on general health for it alleviates Constipation, Rheumatism, Neuritis, etc.

Many other sizes for attachment to tap or connection with the house water main.

THE "BULLDOG" LOCKING LATCH.
T.G.X. 8.
The "Bulldog" Locking Latch definitely combines absolute security with simplicity. It is a decided advance on the ordinary padlock and locking bar.
It is simple to fix, only requiring six screws, which are completely concealed when the latch is in the locked position. Moreover, unlike the padlock, the latch is permanently secured to the door, and cannot therefore be mislaid.
The latch is reversible and can therefore be adapted to either right or left-hand opening door. It has a strong, two-lever lock, which ensures security and strength.
Especially suitable for garages, lock-up sheds, seaside huts, greenhouses, warehouses, etc.

DOOR CHECKS, SPRINGS, BELLS, Etc.

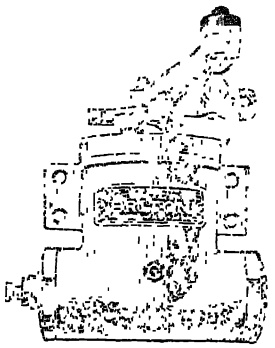

The "Briton" Hydraulic Door Check, British made throughout, is noiseless in action and perfect in use. The door cannot slam, the same Check suits both right and left-hand doors without any change whatever.

All working parts are interchangeable, and are made of steel or malleable iron.

Its checking power is regulated with a small thumb screw, which can be adjusted to close the door at any required speed, and without disarranging any other part of the Check.

Springs cannot be overwound or wound up the wrong way.

Doors exposed to strong draught, or doors with metal frames or heavy glass panels, require a Door Check at least one size larger than ordinary circumstances indicate.

T.G.X. 20

Bronze Gold only stocked. Other finishes obtained promptly to order.

Prices and particulars.

No.			Bronze Gold.	Statuary Bronzed or Antique Coppered.	Nickel-plated
No. Junior	each		17/6	21/–	22/6

DOOR SPRING.

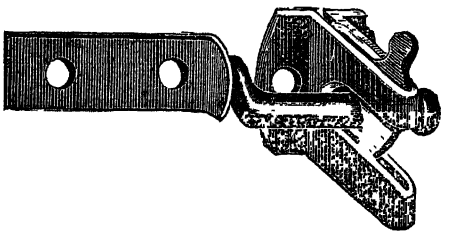

T.G.X. 21. Japanned Iron, 7 in. long each 3/6
T.G.X. 22. Polished Brass „ „ 5/3

This Door Spring is constructed so that the greatest force is applied when the door is closed, and the leverage decreases as the door is pushed open. The advantage of being able to turn the spring out of use when not required is obvious.

STOP THAT SLAM.
Fit a "Dictator" Door Check.
T G.X. 89.
Cheap and most efficient, silent in action, simple to fix, no arms, no adjustments, suitable for almost any door. First it checks, then it closes. The Silencer that is really suitable for either home or office. Damps out all noise and prevents damage. One pattern only for left or right-hand and light or heavy doors. Fool-proof.
Most attractive design. First class make and finish. Actual fixing is very simple, a matter of a few minutes only; no adjustments to make, but once fixed it works perfectly, is absolutely silent and closes the door right home.

DUCK OVENS

T.G.H. 15.

OVENS. MODELS A.O. AND A.L.

Both models increase the utility of your ordinary gas stove without costing a penny more for gas. Model A.O. can also be used with a wickless oil stove or an ordinary gas ring and in either case will prove highly efficient; while baking is in progress a utensil may be kept simmering on the top with the surplus oven heat.

Model A.O. Oven only	Overall	Space	Price
Height	10½ in.	7 in.	
Width	10 in.	8½ in.	12/9
Depth	10 in.	10 in.

FOR WARMTH

"COZY" STOVES

FOR CHEERFULNESS

The "COZY" Stoves have all the cheerfulness of an open Coal Fire without the inconvenience of cleaning and relighting, or of dust or the need for continual stoking. All the conveniences of the anthracite stove without its closed-up fire and need of special fuel which is often difficult to obtain in country places. All the instant warmth of a gas fire without its higher cost of running. **The "COZY" Stove** is Easy to install—Easy to light—Easy to operate—Easy to clean. It is constructed for continuous burning, day and night, either as an open grate or a slow combustion stove, and is instantly responsive to regulation devices, which are easy to work. Gives radiant as well as convected heats, so that a minimum of heat value of the fuel is lost. Efficient, economical, clean and safe.

Black Vitreous Enamel ..	£11 0 0
Steelo	£12 5 0
Majolica Enamel	£12 17 6

A RANGE OF MODELS ON VIEW IN DEPT. ALL STOVES ARE SENT DIRECT FROM MAKERS. CARRIAGE PAID TO NEAREST RAILWAY STATION.

Stove parts are sent direct from makers carriage forward.

FOOTSTAND.

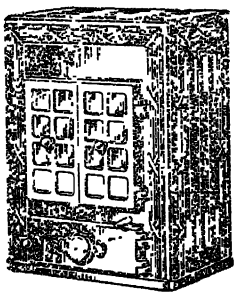

When these stoves are fixed in front of certain fireplaces which have a 3 in. high fixed tiled curb, it is sometimes impossible to swing the ash-door fully open. To obviate this difficulty a 4 in. high footstand can be supplied which raises the stove sufficiently to allow the ash-door to swing free of the curb.

"COURTIER" STOVES

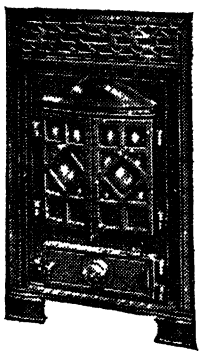

The "COURTIER" Stove burns continuously day and night using ordinary coal or smokeless fuel. It can be used as an open fire during the day or a closed slow combustion stove overnight. Fuel costs only 5d per 24 hours.

Model "C" Courtier, of the standing out type, is easily fitted to existing fireplaces.

Model "H" of the set-back type, is specially suited where new fireplaces are being fixed. By preparing the correct size of opening, this stove can be set back into a tile or brick fireplace, thus saving space.

Model "C"
(with doors open).

Model "H"
(set-back type).

*Colours of enamel: Blue, Grey, Green, Teapot Brown.

CELEBRATED PATENT "ESSE" STOVES FOR ANTHRACITE, COKE OR COALITE.

To warm the House efficiently with the least trouble install one of these stoves in the entrance hall or in the dining-room, leaving the door of that room open between meals and at night. Once lit, the fire need never go out. The cost of working averages 3d. per 24 hours. This amazing economy is the result of the insertion of encircling flues.

B. J. ESSE.

The colours at present available in Majolica Enamel finish are Teapot Brown, Moss Green, French Grey, Royal Blue, and Ruby Red. "Armesse" Finish is a new finish of bright metallic surface. Practically no cleaning required.

The letter "s" after the size number denotes that the stove is fitted with a "surround," that is, the ornamental extension fixed to the back of the Stove, to conceal the flue pipe and enhances the appearance of the stove.

The best fuel is anthracite coal, produced by the Amalgamated Anthracite Collieries, the size of walnuts. Broken coke, or Small Coalite can be used but requires more attention.

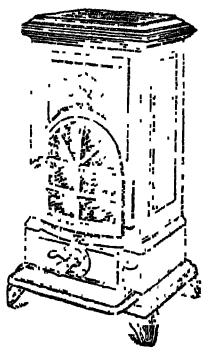

CHAUDESSE.

The "**Chaudesse**" illustrated on the left is constructed to burn pea size anthracite continuously with a bright glowing fire, having no mica in front of it.

The "**Bontesse**" and "**Solesse**" are popular in rooms where fireplaces do not exist, the flue pipe being invariably carried through the wall and up outside in the form of asbestos cement pipe, but both these stoves are nevertheless quite suitable for fixing in front of existing fireplaces. There are no encircling flues.

T.G.M.32. **MITRE BOX.**

The frame of this box is made of laminated wood dowelled for strength. The saw guide is designed so that either a back or panel saw can be used.

The saw guide is mounted on a steel post and can be adjusted freely for various angles and heights It is provided with three screws for adjustment to the thickness of the saw blade used.

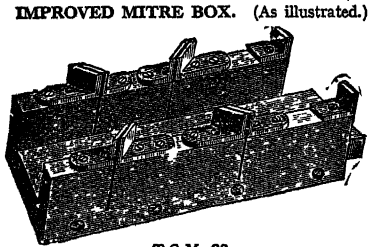

A steel index plate, [illegible] for the six commonly used angles, 0, 9, 22½, 30, 36 and 45 degrees, right or left, is fixed to the saw guide. To set the guide at any one of these angles the steel slide key in the frame of the box is lifted and the guide swung until the proper notch in the index plate is opposite the key. The key is then pushed down until it seats firmly in the notch.

Any intermediate angles can be obtained by using the thumb screw at the back of the saw guide. This thumb screw is also used for setting the guide at any desired height.

When a back saw is used exact depths can be sawn by raising the saw guide on its post to the proper height so that the shoulders provided prevent the saw going below the desired point.

THE "HAYBAR" COMBINATION TOOL.

T.C.M. 37.

A New combination for mitre and square cutting and shuting board including an improved quick acting corner cramp.

Nothing spoils a job more than a badly mitred joint; the "Haybar" Mitre Tool eradicates all difficulties. The upper illustration represents the standard board 26 in. × 10 in. made to take mouldings and the like up to 3 in. wide, the work being fixed in an instant by sliding the clamp blocks and inserting a wedge.

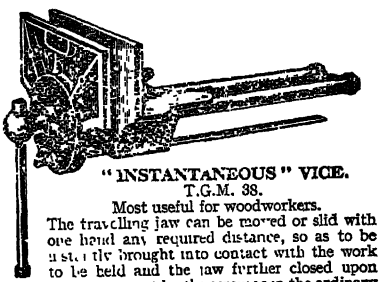

Picture-frames, etc. can be mitred, glued, pinned and finished with one handling. Note the easy and free access to the mitres for pluning, etc.

Mouldings, etc., are cut lengthways of the board, leaving a shaving or so to be taken off with the plane, thus giving a perfect mitre Either side of the board may be used, making it a right and left handed Tool.

The lower illustrations show the method of square and vertical corner mitreing By the lifting of two pins in the centre block, the mitre blocks will slide right and left as desired and work up to 6 in. wide can be dealt with. For wider work lift out the mitre blocks and substitute the square blocks, which will take in work up to 16 in.

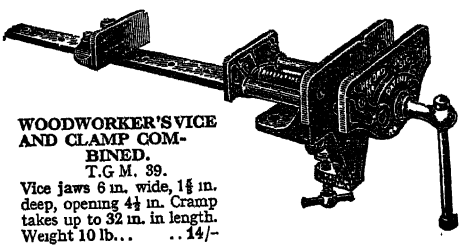

Two vertical mitre blocks are provided for corner mitreing. The work is securely held under each operation by the wedging system, and the Tool also makes a very useful cramp for all kinds of jobs that cannot be held in the bench vice.

A tool that will soon pay for itself and is simply invaluable to the Craftsman and amateur alike. Price 21/-

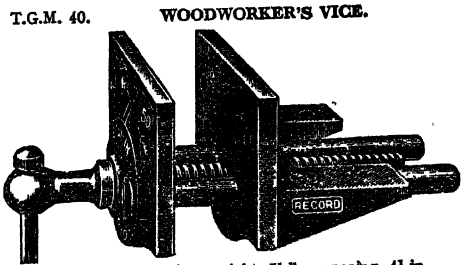

"INSTANTANEOUS" VICE.
T.G.M. 38.
Most useful for woodworkers.
The travelling jaw can be moved or slid with one hand any required distance, so as to be instantly brought into contact with the work to be held and the jaw further closed upon it to any extent by the screw as in the ordinary vice.

ALL BRITISH.

HOWKINS PLANES.

(British.)

T.G.M. 49.

It is a Plane of extraordinary scope and adaptability.

Dado, Fillister, Rabbeting, Ploughing, Chamfering, Moulding, Inlaying, Dovetailing. Elliptical and Tee Grooves, Circular and Elliptical work, etc. etc.

Grooves may be cut, any way of the grain, right through or to a self-formed stop at either or both ends. The Tools are held in the Toolholder—which is practically a slide rest working vertically—they are then fed down into the work by the Feed Screw. Any adjustment of Ferrels, etc., is simple and easily made. The largest Dado tools supplied with the outfit are 11/32 in. wide with a maximum depth of cut of 7/16 in.

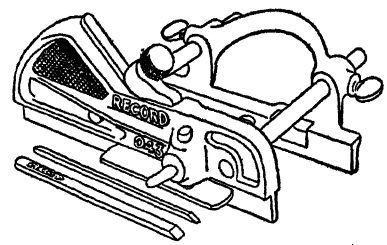

Price £5 0 0

Model B Plane, is a simpler form of Model C. It has a very great capacity, but will not cut Dovetails, Elliptical or Tee Slots.

Price 37/6

An illustrated booklet will be supplied on request which gives full particulars, including some of the exceedingly varied and unusual work.

Maximum depth cut is $\frac{7}{16}$ in.

RECORD PLOUGH PLANES.

T.G.M. 50. With three Tungsten Steel Cutters Rustless Steel.

This Plane is suitable for Plywood Panels, etc. It is fitted with Adjustable Depth Gauge and Double Arm Bridged Fence, and will cut grooves ¼ in. deep up to 4 in. from edge.

Three Plough Cutters are supplied with each plane, viz., ⅛ in., $\frac{3}{16}$ in.; and ¼ in. 5½ ins. long. Weight, 1¼lb.

Price complete 9/6

Lighter Pattern, with cutters as above, 6/6

T.G.M. 51.

Rustless Plated.

Plough Plane with 8 Tungsten Steel Cutters. This Plane is fitted with Adjustable Depth Gauge, Double Arm Bridged Fence and 2 pairs of Fence Arms, and will cut grooves ¼ in. deep up to 5 in. from edge.

Eight Plough Cutters are supplied with each Plane. Size of Cutters, ⅛ to $\frac{1}{16}$ in. Price 17/6

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

HOBBIES

BRITISH FRETWORK OUTFITS

Among the wide range of Outfits here illustrated is one to suit every purse. And whichever is bought one can be sure the tools are reliable and serviceable. Each Outfit has some special feature to recommend it. Hobbies have years of practical experience in manufacture, and these Outfits represent the outcome of that experience. You can be sure of the best if you insist on Hobbies.

CARD SETS.

Two sets for those who want something a little cheaper than the standard HOBBIES Outfits. By eliminating some of the high finish found in our other sets, we are able to offer these Outfits at amazingly low prices. Each contains a useful assortment of tools held to an attractive display card 16 in. × 11 in. Printed instructions and a fretwork design are also provided.

THE H1 OUTFIT.
T.G.M. 54.

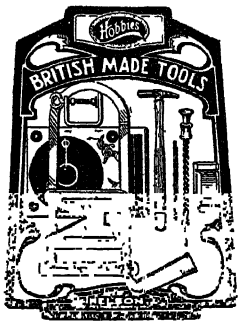

Contains 12 in. Handframe, Cutting Table, Cramp, ½ dozen Fretsaw Blades. A simple Design and instructions.

1/6

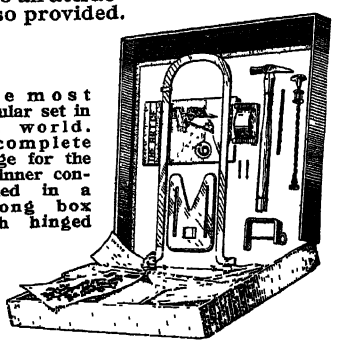

THE H3 OUTFIT
T.G.M 52

Comprises: 12in. Handframe, 1 dozen Sawblades, a Drill with one Drill Point, Cutting Table, 6in. Rule a Design with necessary wood and working instructions. **3/9**

THE NELSON
T.G.M. 53.

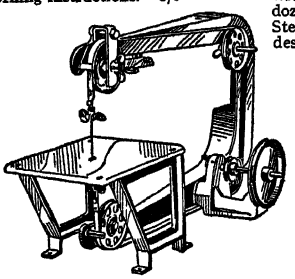

Contains the new "Truhold" Handframe with special handle, Metal Cutting Table, an Archimedean Drill with Bit, a Glasspaper Block, two dozen Hobbies Saws, Hammer, 6 in. Steel Rule, and wood and coloured design. **7/6**

The most popular set in the world. A complete range for the beginner contained in a strong box with hinged lid.

THE A1 OUTFIT.
T.G.M. 59.

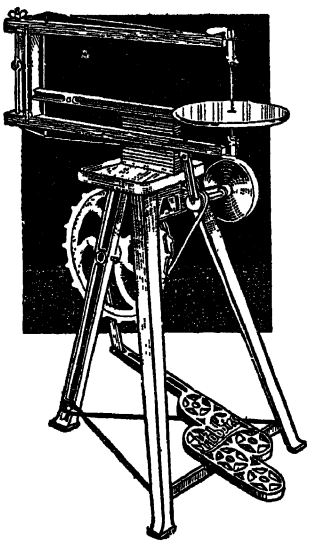

Contains Hobbies 14 in. Handframe. Drill with two Bits, Cutting Table, one dozen Saw-blades, Fretwork Hammer, Glasspaper Block. Illustrated Handbook of Instructions and fretwood with designs for making 6 simple articles. **12/6**

AN ELECTRIC BENCH MACHINE
ANCHOR MINOR.
T.G.M. 55.

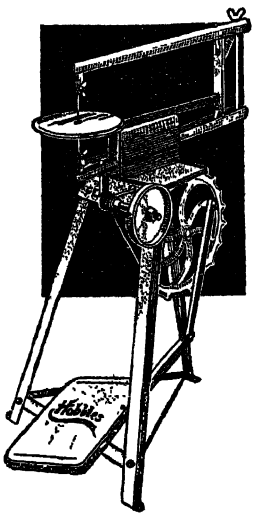

Built for high speed, with ball bearing movements. The latest and best machine at a reasonable price. Write for special leaflet giving all the advantages.
To order only. **95/-**

HOBBIES FRET MACHINES

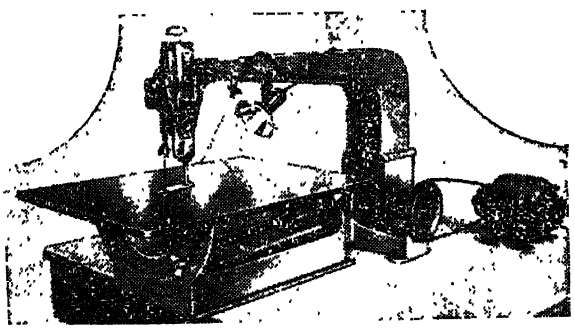

THE A1 TREADLE.
T.G.M. 57

The most popular machine. Built of cast metal, rigid easy running, with simple saw adjustment. Used all over the world. Wonderful value **52/6**

THE GEM TREADLE.
T.G.M. 58.

Marvellous value. A reliable machine with all-steel frame and arms. Simple adjustment of the saw. Cannot get out of alignment.
35/-

THE ANCHOR MAJOR POWER MACHINE
T.G.M. 56.

This rigid commercial machine is specially built for cabinet work, woodwork and cutting such materials as cloth in many layers, leather, felt, etc., etc. Built on very substantial lines and is amazingly smooth-running. Driven from ¼ h.p. motor or direct from countershaft, as required. Fast and loose pulleys are provided, and balance wheel grooved to take the special V-belt which we supply suitable for motor drive. No fewer than eleven ball-bearings are used in the various moving parts. The machine works with a true vertical stroke produced by a substantial band ⅛ in. wide working over suitable ball-bearing pulleys which are made to oscillate by means of the anchor movement. To Order **15 gns.** Carriage forward. Motor extra.

SAW BENCHES—HAND, TREADLE OR POWER.

TO ORDER.

Special Features:
- Spindle bored to take bits.
- Rising and Falling Table.
- Free wheel action.
- Adjustable Fence.
- Saw spindle geared 8 to 1.
- Takes Saws up to 10 in.

T.G.M. 214.
"NEW ERA" HIGH SPEED TREADLE SAW BENCH.
A most up-to-date Saw Bench having many additional features. Soundly constructed and very rigid. An ideal tool for the handy-man. Note the special features.

To eliminate dead centres we incorporate a free wheel action, and by adding a second motion shaft, a high speed is obtained.

A Spiral Spring ensures a quick return of the treadle, and the fly wheel conserves all the energy given by the user.

The introduction of Ball Bearings on every bearing shaft, together with cycle chain connections, has revolutionised, and again popularised the use of the treadle saw bench, by reducing frictional loss to a minimum.

Speeds of 1,300 to 1,500 revolutions per minute can be obtained, and we recommend an 8 inch diameter saw, which is included in the price of machine.

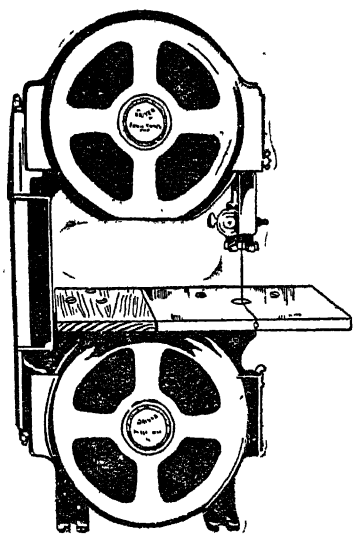

The Combined Mitre Fence and Dead Length Gauge is charged extra, but a small mitre fence is included with machine.

Unique Features not found in other machines:

1. All Working Parts kept inside frame.
2. Large Table surface, 22 in. × 20 in. [wheels.
3. Underneath combined Sawguard and Dust Outlet for throwing dust clear of chain
4. Six sets of Ball Bearings.
5. Each bearing adjustable to take up wear and stretch of chain.
6. Rigid Cast Frame. To Order.
7. Size of Table, 22 in. × 10 in. (Model on view in Department).

Price, complete (Carriage forward from makers) £15 6 0

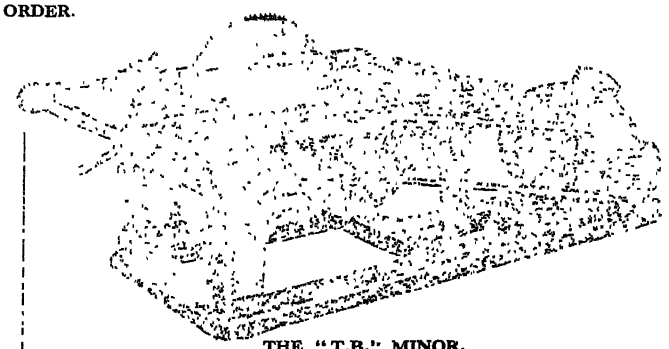

DRIVER 10 in. BAND SAW.

T.G.M. 225.

A really capable and practical machine at a moderate price. Has 10 in. well balanced disc wheels, rubber faced with full protection guards. Table tilts to 45 in. and is of machined cast iron. Size, 10 × 10 in. Ball Bearing Guide roller, Precision cushion type saw tensioner. 4 in. clearance between saw guide and table. Distance from blade to frame 10 in. Height overall, 26½ in. Weight, 72 lbs.

Price (less Motor)	£7 18 6
Extra saws, ¼, 3/8, ½ in.	each 8/9
Motor suitable for above. ¼ h.p. A.C. 230 volts, 50 cycles	£6 9 6

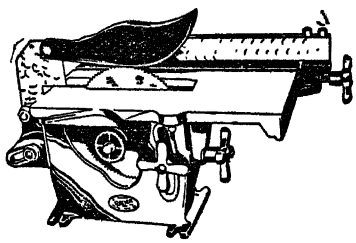

THE "T.B." MINOR.

T.G.M. 226.
(To Order.)

A new design in Saw Bench and motor combined. It is rigidly constructed and of high-class finish, having ¾ in. diam. spindle, ball bearings, rising table, etc. Supplied complete with saw, fast and loose pulley, striking gear, mitre fence, and swing-over ripping fence.

Size of Table, 20 in. × 14 in. Takes Blades 10 in.	£6 10 0
Ditto, with Base Plate for Motor. Takes Blades 10 in.	£8 12 6

Complete as shown above, with Motor for AC or DC. Prices on application.

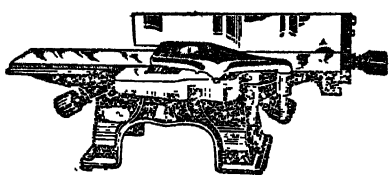

DRIVER 7 in. BENCH SAW.

T.G.M. 227.

The Driver Bench Saw does first class work. Angle sawing, mitreing and dadoing are done as accurately as straight work. The table is 14 in. × 10 in. machined grey iron. It tilts to 45° with stop screws at the 90° and 45° positions. The arbor saw raises and lowers. The 7 in. blade has a cutting capacity up to 2¼ in. A high grade safety guard is provided with the latest approved type splitter. It has a removable throat for dadoing, and a heavy machined steel ripping guide.

Price complete with Belt (less Motor) £5 0 0

1/3 h.p. Motor, suitable for driving above Saw Bench, A/C supply. 230 volts, 50 cycle. Complete with pulley £6 9 6

DRIVER 4 in. PLANER.

T.G.M. 228.

The Driver Planer is designed to provide the utmost in efficiency at a price well within the reach of all. Note its sturdy construction and modern design. This planer will compare favourably with more expensive machines. Here are a few of its many advantages. Three high speed knives give smoother work with less sharpening. A balanced cutter-head that is made integral with the shaft. Self-lubricating bronze bearings. A new type guard that folds out of the way when rabbeting. The guide is strongly reinforced and has a graduated quadrant. Both tables adjustable. Length overall 23 in. Planes 4 in. wide.

Price (less Motor)	£5 18 6
1/3 h.p. Motor, suitable for driving above	£6 9 6

Models of all Saw Benches illustrated here can be seen in the Tool Section.

This Machine will cut trunks of any size. Demonstrations arranged in London at short notice. (Not illustrated).
Price complete with Motor £47 6 0

POLISHING HEAD.

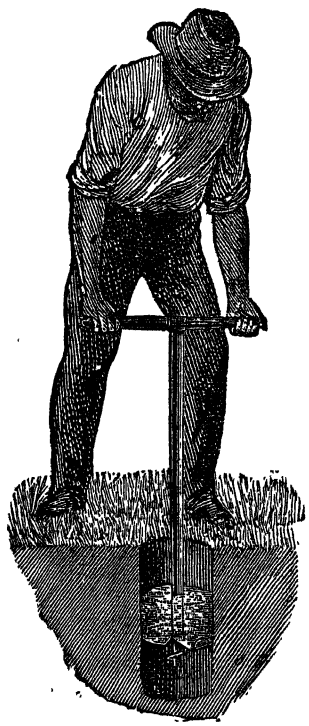

A Big Value in a Small Machine. The ½ in. spindle is equipped with 2 sets of flanges for holding wheels up to ½ in. wide with ½ in. hole, also a 3-jaw chuck for holding round shanks up ½ in. in diameter. Pulley with one groove for V Belt 1 diameter.

(Foreign) .. .. Price 8/6

T.G.M. 233.

THE MONKEY POST HOLE BORER.

T.G.M. 230.

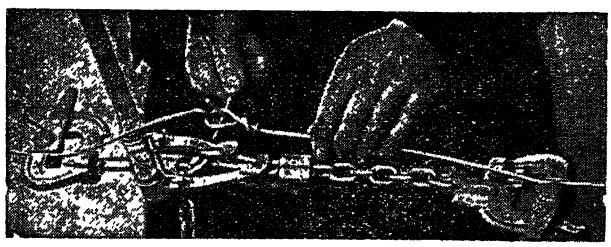

Hundreds of users find the Monkey Borer a very profitable investment. It is extremely simple to use, and reduces fencing costs to a fraction. The blade is a solid steel casting with two sharp edges that cut the soil cleanly and rapidly. The two hinged flaps allow stones to pass through the blade and close like a valve when the borer is lifted so that no earth is left in the hole.

The Monkey Borer deals equally effectively with all soils from stiff clay to gravel, anything short of extremely rocky ground. It makes a clean, round, flat-bottomed hole in a fraction of the usual time.

6 in. stocked, other sizes and extensions to order.

Prices, 6 in., 27/–, 9 in., 32/–, 12 in., 37/–.
Extra 3 ft. Extension length for above with coupling, 6 in., 2/9, 9 and 12 in., 3/6, can be supplied if required.

THE MONKEY WIRE STRAINER.

T.G.M. 234.

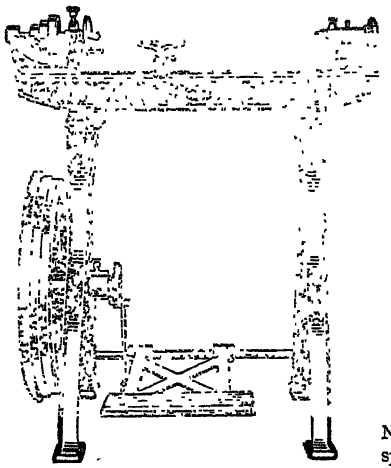

The ideal tool for straining fencing wire, barbed, plain or strand. Fully automatic, wonderfully quick and powerful. The catches alternately pull in the chain like a man pulling a rope. There is 5 feet of chain so that one pull finishes the job.

The tool is all in one piece so that it is impossible to put it together wrongly. It works equally well at the straining post or anywhere on the fence. The picture shows two ends of wire being fastened, the strainer holding the strain, leaving both hands free.

A simple, practical tool which every fencer should have.
Price 20/9.

ALL OVER THE HOUSE YOU NEED RAWLPLUG PRODUCTS

RAWLPLUGS

T.G.M. 248.

Anyone can carry out neat, reliable fixing jobs, quickly and easily with Rawlplugs. In brick, stone, concrete, tiles, glass, etc., the Rawlplug method is the only way of making firm fixtures without the necessity of "making good" afterwards. Millions of Rawlplugs are used annually by the Admiralty, War Office, G.P.O., Municipal Authorities and builders, electricians and plumbers everywhere. Rawlplug Outfits contain sufficient equipment to carry out dozens of fixing jobs. Complete Outfits are sold at 1/6, 3/6 and 5/6.

RAWLPLUG HEATLESS SOLDER.

T.G.M. 244.

A scientific preparation in paste form which can be applied in a few seconds and dries in a few minutes.
per tube -/6

KOMPOSILL.

T.G.M. 245.

Komposill removes all marks, dirt, grease, stains, surface scratches, etc., from the article to be treated and puts back a filling which is immediately given a highly polished effect by the action of rubbing. Gives a finish equal to that of French Polish. per tube -/6

RAWLPLUG ELECTRIC SOLDERING IRON.

T.G.M. 249.

Electric Soldering is quick, clean and convenient. The Rawlplug Electric Soldering Iron is economical too. It uses only 80 watts which represents about ¼d. an hour! It gets hot quickly and retains its heat.

This inexpensive tool is a fine investment for everyone who wants to save money on repairs and replacements. It is a tool which will last for years and even if eventually any part wears out, it can be replaced cheaply and immediately.

Be sure you buy a Rawlplug Electric Soldering Iron. It is the tool which definitely retains its heat in use and does not get cold during the progress of the job. Price complete 9/6 British made.

Supplied in Standard Voltages, 100/110, 200/210, 220/230, 240/250. A.C. or D.C.
Please mention voltage when ordering.

RAWLPLUG DUROFIX

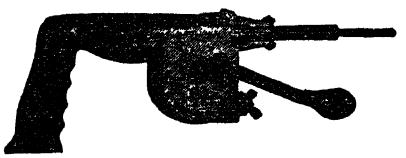

T.G.M. 246.

Durofix resists heat and water, and is ready for instant use without first warming as is necessary with most cements. It is colourless, and joins made with Durofix are almost invisible. There are hundreds of uses for Durofix in every home for repairing china, glass, crockery, etc. Sports enthusiasts find Durofix invaluable for repairing sporting goods, such as the binding of Tennis Rackets, Golf Clubs, etc. Sold in tubes at -/6 and 1/- each.

RAWLPLUG MECHANICAL HAMMER

T.G.M. 247.

30/-

COMPLETE

Two Tools in One—a Percussion Hammer and Slow Rotating Drill. Makes Hole Jumping Quick and Easy. The Rawlplug Mechanical Hammer is entirely British Made. With the aid of this hammer holes of a diameter, size ⅛ in. to ⅜ in. to accommodate Rawlplugs Nos. 3 to 20, can be made easily by merely rotating the handle. The Hammer is light in weight but extremely strong in construction, and will give long and satisfactory service. Price, complete with two Rawldrills, sizes 8 and 14 and an ejector.. .. .. .. 30/-

RAWLPLUG PLASTIC WOOD

T.G.M. 250.

Rawlplug Plastic Wood is a pliable material which can be moulded and fashioned into any shape desired. Hardens when dry and becomes exactly like real wood when it can be cut, stained, planed or painted. Waterproof and weatherproof. Tubes at -/6 and 1/-, and in Tins, 1/3, 1/9, 2/9. Available in Natural, Oak, Mahogany and Walnut shades.

BRUSHING BELCO

T.G.M. 251.

Brushing Belco is famous as the ideal product for refinishing all kinds of articles in the home. You can enjoy the freshness of newly painted furniture—the charm of unusually decorated ornaments—the beauty of bright, colourful garden furniture—simply by giving these articles a coat of Brushing Belco.

This wonderful product dries quickly, leaving no brush marks, and the brilliant surface defies really hard wear and moisture. Anyone can apply it. There is a range of 16 attractive colours. Tins from 1/4½ each.

New Improved Quality for all Home painting jobs. Motor Quality (Cellulose) for refinishing cars, cycles, etc.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

Synthacold

A Preparation for Treating Gravel and other paths.

Why not give your paths a perfect surface? "Synthacold" is one of the simplest and cheapest ways of converting dirty and troublesome paths, etc., into first-class surfaces. This modern process keeps down weeds and dust. The method of treating the paths is quite simple. Well sweep the paths and fill in pot-holes, water and roll. Pour on "Synthacold" and brush then cover with clean ¼ in. chippings, thoroughly roll. Full illustrated brochure on request.
Price, per 5 gall. drum 8/9
To order only, carriage extra.

By Appointment to the late King George V.

THE "HANDYMAN" PAINT SPRAYER

This Sprayer meets a long felt want for the Handyman. Neat in design, most efficient in use, and a joy to work. Its outfit comprises a powerful 2½ in. diameter Brass Foot Pump (which is far easier to work than a hand pump), an attractively painted air receiver having Non-return Valve fitted to air inlet to obviate the risk of any loss of air pressure through pump, pressure gauge, six feet of good, strong rubber hose, aluminium spray pistol with trigger control for the air. Two extra paint containers are supplied with each outfit. They are filled with special airtight lids which enable you to store paint in them when not in use. Full directions sent with each machine.

Price Complete (including 2 spare containers) **49/6**

Extra containers 10½d. each.

CARSON'S

Paints, Distempers Enamels & Varnishes

Combine the utmost protective qualities with a beautiful and lasting finish

We cannot too strongly emphasize the economy of using the highest quality paints. Their covering power and lasting properties far exceed those of inferior paints, whilst the cost of application — ALWAYS FOUR OR FIVE TIMES THE COST OF THE PAINT ITSELF — is the same in both cases.

WATER PAINTS, DISTEMPERS, Etc.

WATER PAINTS. These offer a very inexpensive and simple method of decorating any interior surface. The colours are varied and effective, if required for outside use the addition of a Petrifying Liquid is essential. For the convenience of members a selection has been made of the leading Brands and such are sold on their merits.

"WALPAMUR" is the Perfection of Water Paint. When applied in accordance with directions it gives the most beautiful decorative effect. It dries in a few hours and sets hard in a few weeks' time. It is non-absorbent.

"WALPAMUR" is made in a large number of beautiful tints. **Thirty-three** of those most in demand for interior decorative work are stocked in 4 lb. and 7 lb. tins. Tint card sent by return post on application. An amateur can apply this water paint, and, with ordinary care, turn out a highly satisfactory job. For new work **two coats** will usually produce a satisfactory result. The most permanent work is obtained by thinning "Walpamur" with the Special Petrifying Liquid, which is damp resisting; but water can be used to thin with. **For First Coat** mix three parts of body colour to one of petrifying liquid, or water. **For Finishing Coat** use four parts of body colour to one of petrifying liquid, or water. Do not overthin, as good work will not be produced in this way. Allow 24 hours for drying between each coat. "WALPAMUR" can be applied over wallpaper if sound and thoroughly fast to walls. **1 cwt will cover 350 square yards (two coats).**

"KOVERFLOR," LIQUID FLOOR COVERING.

Is excellent for Surrounds, Floors, Stair-Treads, etc., whether of wood, stone, tiles or cement. Also especially suitable for Walls of Bathroom, Kitchen and Scullery; Dressers, Doors, Shelves, etc.

KOVERFLOR can be used on Linoleum.

As the covering capacity of KOVERFLOR depends upon the porosity of the surface and the method of application, only approximate figures can be quoted, namely: on wood, 600 square feet to the gallon; on cement and concrete, 500 square feet to the gallon, two coats.

For very hard wood and cement floors, and linoleum, the addition of more Turpentine is required in order to make the KOVERFLOR penetrate. 1 gallon, 25/–; ½ gallon, 13/–; ¼ gallon, 7/6; to order only, and in smaller tins, 2/3 and 4/– each.

Full Directions on each Tin.

Colours: White, Grey, Dust, Green, Dark Oak, Dutch Blue, Mahogany, Linoleum Brown, Tile Red, Russet, Stone, Black, and Clear.

ANCOS WOOD PRESERVATIVE

This wood Preservative renders woodwork proof against vermin, dry rot, and all weather conditions. It imparts a brown colour to wood and is used successfully for fences, gates, sheds, etc. The cost of treatment is very small—1 gallon will cover from 250 to 350 square feet of surface, according to the condition of the wood. It penetrates the wood, driving out the moisture and considerably lengthening the life of the structure. Give Joists and Sleepers 2 coats.

Protect Wooden Structures while they are sound and dry.

All packages free.	*1 quart.	1 gallon.	* 5 gallons.	*10 gallons.
Prices	2/2	5/9	19/6	37/–

*To order only.

Cask of about 40 gallons at 2/10 per gallon.

Only quarts, 1 gallon, from London stock delivered within the Society's delivery limits. Five-gallon drum and upwards sent Carriage Paid from Works to any Station in Great Britain.

THE "AUSTRAL" AUTO-FLUSH CABINET SANITARY INSTALLATION FOR NON-SEWERED DISTRICTS. T.G.R. 31.

The Austral Auto-Flush Cabinet.—A self-contained automatic-flushing sanitary unit for non-sewered areas, for use in camps, caravans, country houses, air raid shelters, and public conveniences where main drainage is not available.

With three distinct designs to suit individual needs, there can be no excuse for the continued use of insanitary bucket or partial systems. With Austral, carrying, burning and burying of excreta is a thing of the past. By the use of the eliminant, "Austranal," the contents are at once liquefied, sterilised and deodorised and are easily discharged into a small soak-away by simply removing a long-handled plug. Charging is equally easy and is only necessary at infrequent intervals.

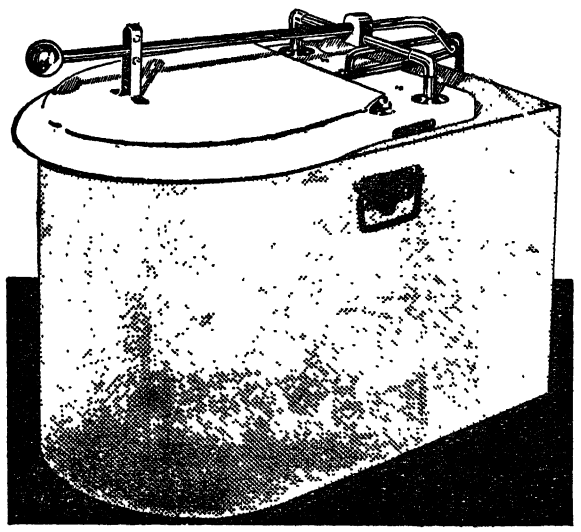

Models "A" and "B" require twelve gallons of water and eighteen pounds of "Austranol." This charge suffices for approximately 260 uses, thus serving three or four people for about two months without attention. Model "C" requires only six gallons of water and nine pounds of "Austranol" which is sufficient for about 130 uses.

The special air raid shelter model has been evolved to meet the ever-increasing demand for such equipment, and no soak-away is necessary for this purpose.

Model "A"	£15 15 0
Model "B"	£15 15 0
Model "C" white stoved	£8 8 0
Model "C G," green vitreous	£8 8 0
Special Air Raid Shelter Model of similar construction to Model "C" but with plain deal seat, dull finish fittings. Finished with one coat enamel on tank	£6 6 0
Special Discount for 5 to 19 models	5%
„ „ „ 20 models and over	10%
"Austranol" Eliminant Chemical.. per 18 lb. tin	11/9
„ „ per case of six 18 lb. tins	£3 7 6

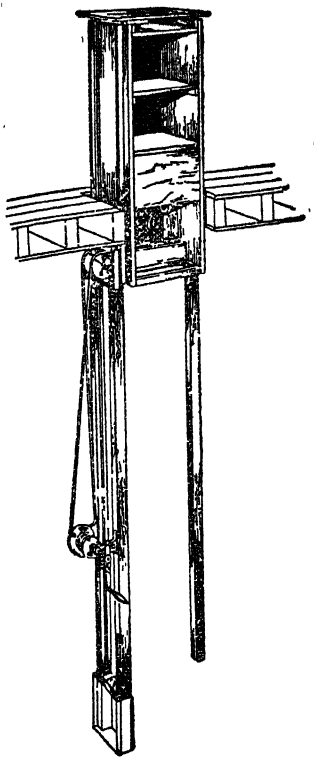

The Austral Auto flush A.R.P. Model provides the advantages of complete sanitation, operating without constant water supply. It creates no objectional odour but renders the contents completely sterile and dissolves all soluble matter. It provides essential sanitary service for emergency shelters, adapted underground floors, etc., where main drainage sanitary conveniences are not available.

Fully Descriptive Pamphlet supplied on request.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

SAFETY HAND-POWER LIFTS

Type E.
Maximum load 56 lbs.

T.G.R. 32.

Type E. SPECIAL DISAPPEARING DINING-ROOM LIFT (Self-Sustaining.)

Maximum load 56 lbs.

The most convenient and inexpensive form of lift for Private Houses.

The cage serves through a hole in the floor, which is automatically closed as the lift descends. The advantages of this type of lift are that there are no overhead wheels and no enclosures are required. The cost of installation is therefore lower in comparison with that of most types.

The lift is worked by means of a winding handle below. An additional winding handle can be fitted on the upper floor, if required.

The cage can measure any size up to a maximum of 2 ft. wide × 1 ft. 8 in. deep × 2 ft. 9 in. high, outside dimensions. Price £26, fixed complete, including cutting through wooden floor and making good the ceiling.

T.G.R. 33.

PASSENGER LIFT. (Self-Sustaining.)

These lifts are the outcome of many years' experience and can be arranged so that they can be worked either from inside or outside the cage. The reduction gear is accurately machine-cut and mounted on turned steel shafts. Ball bearings are fitted to all journals, and the whole is carried on machined cast iron brackets, incorporating the self-sustaining gear.

These gears are remarkable for extremely easy working.

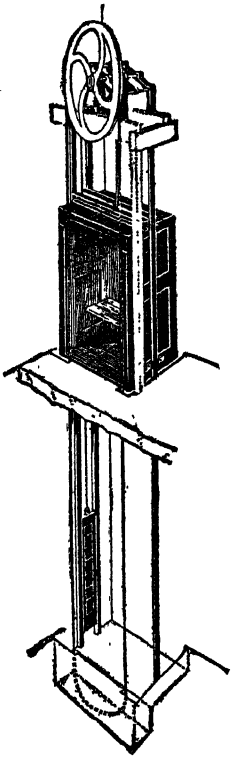

Our special self-sustaining gear ensures both immunity from danger and highest efficiency. Immediately the passenger or operator releases the hauling rope, the cage is automatically locked, and can run neither up nor down until the rope is again pulled.

An independent safety device is also included which, in the unlikely event of the steel lifting rope breaking, will automatically lock the cage to the guides.

Where cost is not the first consideration, bright steel guides and spring-loaded gunmetal guide shoes can be fitted, further increasing the sweet running of the lift.

Special Note.—This lift can be designed to project not more than 6 in. from the wall at the ground floor when not in use, and so can be fitted in a narrow passage or other confined space.

Cost of installation varies with circumstances and individual requirements, but the approximate cost of a lift of this type to raise one passenger one floor, fixed in London is about £80 (exclusive of builders' work).

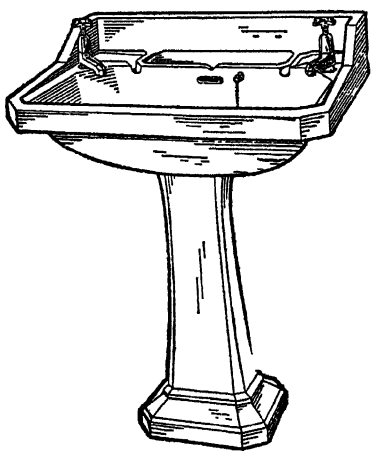

Safety Passenger Lift.

A skilled Lift engineer is always available to advise on awkward installations, free of charge. The benefit of long experience is placed unreservedly at your disposal.

PREMIER ESSE COOKERS .. .. from £70 ex works
Auxiliary Oven £15 extra.
ESSE MINOR COOKER .. from £49 10s. ex works
Water Heater from £17 10 0 extra. „ „
ESSE FAIRY COOKER .. .. from £32 carr. paid
Water Heater £13 10 0 extra.

saves 80% FUEL COSTS

T.G.R. 52

ESSE Heat Storage Cookers operate at from one fifth to one twentieth the cost of coal, electricity or gas. The "PREMIER ESSE" burns anthracite or coke continuously—no daily lighting. It has three extra-large fume-free ovens, a toasting radiant and a big hot-plate that can boil water at the rate of a pint a minute! The Auxiliary Oven gives extra cooking space as well as ample "hot-cupboard" room.

Water Heaters with separate fire for domestic hot water supply can be provided at either side of ESSE Cookers.

AUTOMATIC HEAT CONTROL

The "ESSE MINOR" and "ESSE FAIRY" Cookers have two large ovens.

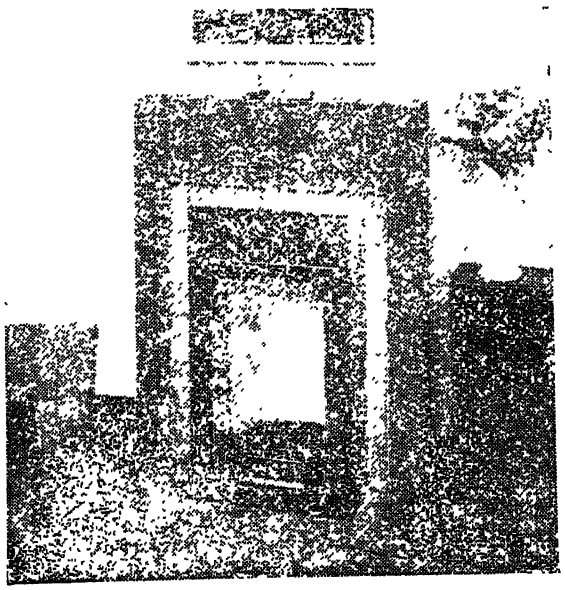

FULLY ILLUSTRATED CATALOGUE ON REQUEST

The "ESSE MAJOR" Cookers are still larger and are specially constructed for big establishments.

THE ESSE COOKER

BEESTON BOILERS AND NEW ROYAL RADIATORS.

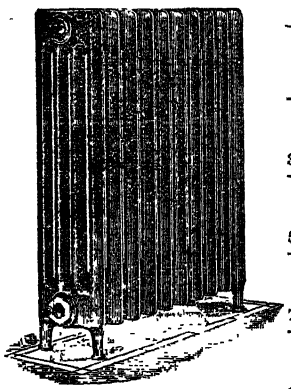

Beeston Boilers for Domestic Hot Water Supply, also for Central Heating Installations are made with special grade cast iron in a very wide range of heating capacities to meet all requirements and are strongly recommended.

Beeston New Royal Radiators are of cast iron made in sections of 2, 3, 4 and 5-column styles and in heights of 18 in., 24 in., 30 in. and 36 in., any number of these sections being joined together to form a radiator of the size and heating power required. The price of radiators varies from **2/1** a section up to **8/1** a section in the largest size. One or two Beeston New Royal Radiators can be operated by the domestic supply boiler if the latter is of sufficient heating power. For small combined systems of central heating and domestic hot water supply it is advisable to use an indirect heating cylinder for hot water storage; but for larger installations a separate boiler for the central heating is recommended and this could be placed in a kitchen-range-recess beside the domestic hot water boiler if space is available, or in the scullery, basement, or an outside boiler house. For small installations, where a boiler of neat appearance is desired, the Robin Hood Royal Boiler is recommended. These boilers are supplied with open fire front, also with closed front and either enclosed in enamelled steel jacket or uncased, the prices of which range from **£8 14 6** up to **£23 14 0**.

Robin Hood Boilers for central heating are available in a large number of sizes, ranging from 400 sq. ft. radiation up to nearly 10,000 sq. ft. radiation. They are well designed and made with infinite care and may be relied upon to give thoroughly efficient service.

Pamphlets which contain full information of Beeston products will be forwarded on request. When writing for pamphlets the fullest details of the proposed installation should be stated. Specimens of Beeston Boilers and Radiators can be seen in the department.

GALVANIZED TANKS AND CYLINDERS.

All Cisterns and Tanks are Galvanized after manufacture and are tested at works, but as damage may occur in transit, another test should be made before fixing.

Capacities are approximate, not guaranteed.

Tanks of ⅛th plate are mostly in demand, and for reasonable Durability should be used.

The full list contains alternate sizes, also other sizes up to 1000 gallons capacity. Prices of standard or special sizes on request.

For Hot-Water Tanks of 80 to 100 gallons ⅛th plate is recommended, even though the pressure be less than 10 lbs. per square inch.

Screwed Flanges riveted to Tanks or Cisterns in any desired position: ¼ in., 1/8; ⅜ in., 2/0; 1 in., 2/4, 1¼ in., 2/11; 1½ in., 3/4; 2 in., 4/8; 2½ in., 5/1; 2½ in., 8/4; 3 in., 14/3; 3½ in., 16/9, 4 in., 19/3 each extra.

T.G.R. 75. Galvanized Riveted Rectangular open-top. Despatched from works promptly. Carriage paid on £5 value.

Prices are for bent-over top and corner plates. Angle iron at top extra.

WALLPAPERS. BRITISH MANUFACTURE.

Papers cut, trimmed, or damaged, or papers which have been specially made, cannot be returned for credit.

The new productions may be seen in the Builders' Merchandise Department, and comprise a variety of plain and embossed papers, semi-plain and fancy prints, Poly-chromes, stippled papers, and Stucco grounds, at prices to suit all classes of decorations. The utmost attention has been given to the selection of patterns, and Customers may be assured that every care has been exercised to obtain quality and design in keeping with present-day style.

English Wallpapers are made: 21 ins. wide by about 11¼ yards long, covering about 6 sq. yards.

Borders are cut from the piece to the length required, but such cut lengths are not returnable.

Pattern Books will be sent on application, and in view of the cost of their production, Customers are desired to return them as soon as possible.

"TILEONITE" WALL DECORATION ENAMELLED ZINC TILING

T.G.R. 111 (British Manufacture).

For walls and ceilings of kitchens, bath-rooms, pantries, etc., is a realistic, highly-decorative substitute for tiling. Sold in sheets measuring 24×18 in. Samples can be seen in the Building Materials Showroom. Samples and lithographed sheets of designs sent by return post on application. Prices from 3/10 a sheet.

Special waterproof paste must be used for fixing "Tileonite" to walls and ceilings (charged extra).

Special stiff paste for fixing "Tileonite" –/8 a lb. Gold size for thinning the paste for use, small tin 1/–, ½ pint, 1/5, pint 2/4, quart 4/2 ½ gallon 7/9, 1 gallon 14/3.

Kegs and cases charged and credit allowed on their return to Stores, carriage paid.

Do not fix Tileonite to damp walls nor to new Portland Cement.

For fixing to plaster, metal or stonework use the special paste. To fix to woodwork, coat wood first with paste and leave to dry for 24 hours before applying "Tileonite."

7 lbs. Paste is sufficient for 14 sheets. Full directions for fixing on request.

WALLPAPER ILLUSTRATED.

Chintz 1/6 a piece. Cream Ground.
Chintz 2/- „ White Ground.

WINDOLITE,

Windolite, the British glass substitute, easily cut with scissors. Flexible. Will transmit the ultra-violet rays. 36 in. wide. Price per yard 4/6

Hand-block papers, whether stocked or not, can be printed to any desired colour, at little extra cost. These special designs can be inspected in the showroom.

Wallpapers are sold on the distinct understanding that no responsibility can be accepted for any defect or variation of shade, pattern or colour discovered after the paper is trimmed or hung.

Customers are requested to arrange for the wallpaper to be examined by the paper-hanger before hanging.

Machine-printed papers cannot be guaranteed to be all of standard length, or colours free from fading

Orders for Stock Wallpapers will be executed subject to ordinary rules as to carriage. Wallpapers which are specially procured will be sent carriage forward from suppliers. When required urgently, wallpaper can be sent by post or passenger train and cost charged extra.

GREEN'S ARCTIC LAMPS FOR CANDLES

IMPROVED PATENT.

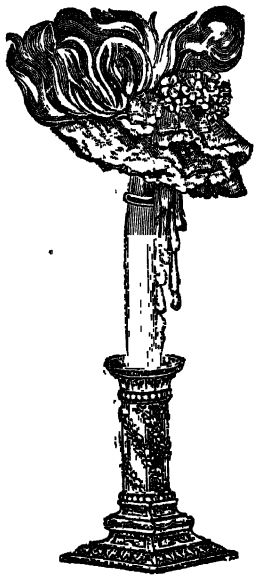

In the Arctic Lamps the shade support is stronger, having three arms instead of two. The extinguisher is not so upright, and will not fall down if the lamp is [illegible] fitting for candlesticks is simpler, and obviates any difficulty in removing the plug from the candlestick nozzle. A tapering adjustable rubber end is now made which will fit in any size nozzle; it does not scratch the silver, and is especially suitable for china or brass candelabra.

The Arctic Lamp is constructed on the same principle as a carriage or reading lamp, in which the candle, enclosed in a metal tube, is forced up as it burns by means of a spiral spring inside. It fits in any candlestick, and is made to exactly resemble a wax candle when in use. For dinner table decoration it is particularly useful, as the candles remain the same height, yet are burnt to the very end without the slightest waste.

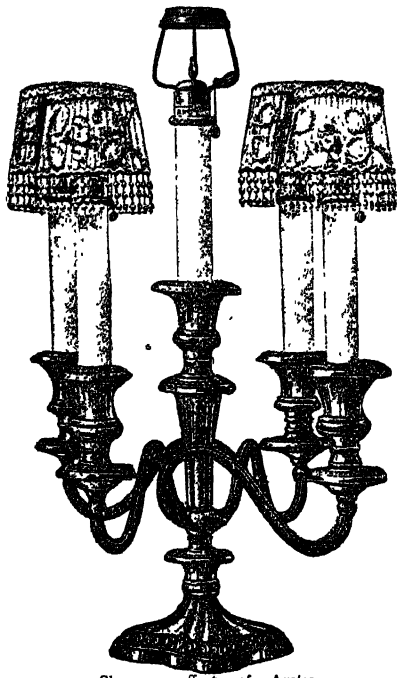

No more guttering candles ; no more candle shades taking fire ; no smoke or smell when extinguished.

The Arctic Lamp, with adjustable rubber end.

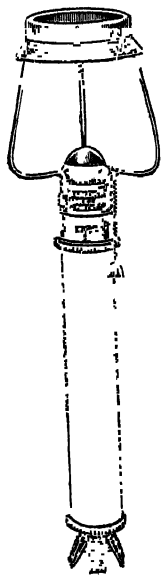

Result of using ordinary candle shade support.

Showing effect of Arctic Lamp in use, fitted in candelabra.

Effect of draught on unprotected candle.

The Arctic Lamp, with adjustable spring end.

ORIENTAL GOODS.

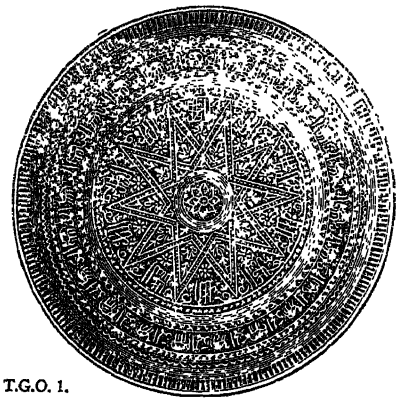

In compiling this List every endeavour has been made to illustrate articles representative of the Orient. It is only found possible to include a very small portion of Oriental goods, which are constantly arriving, and an occasional visit to the Department is therefore recommended.

In this Department will be found a very large selection of Oriental Curios, Ivory Carvings, Necklaces, Cloisonne Vases, Brass and Lacquer Trays, Draught Screens, Gongs and Stands, Cane Wickerwork Baskets, etc. Suitable for presents.

MORADABAD BRASSWARE.

Moradabad Brassware is noted for its high-class engraving and beautiful coloured inlay. It is serviceable and is easily cleaned. These articles make ideal gifts and very attractive prizes for sports and whist drives, etc.

Devices for Displaying Flowers to best Advantage.

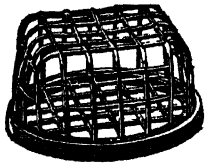

THE 'DAZEY' FLOWER HOLDERS.

As will be seen the above Flower Holders are constructed in such a way that the stems of flowers can be placed in almost any position for display and at the same time allow perfect circulation of water at the base and around the stems of flowers, etc. They are made in sizes to suit almost any size or shape bowls, etc. The Dazey flower supports are cast from a special alloy with a silver finish. They will not rust or corrode and cannot mar or scratch the finest ware, whilst their weight and design prevent any upsetting. Finished in two colours, silver or green.

BUILDING, DECORATING AND ENGINEERING DEPARTMENT.

The Department undertakes all kinds of Building and Decorating Work, Domestic and Electrical Engineering including:—

New Buildings.
Structural Alterations and Additions.
General Repairs and Jobbing Work.
Decorations and Painting, Internal and External.
Central Heating.
Domestic Hot Water Supply.
Sanitary Work and Sewage Disposal.
Plumbing Work of All Kinds.
Gasfitting—Stoves and Cooking Apparatus.
Water Supplies and Water Softening Apparatus.
Well-boring or Sinking and Pumping Plants.
Lifts for Service, Luggage or Passengers.
Electrical Installations for Light or Power.

SURVEYING AND ARCHITECTURAL WORK.

DILAPIDATION, SANITARY AND STRUCTURAL SURVEYS.

The Department, through its staff of competent qualified Surveyors, carries out:—

(a) Surveys of dilapidations including the preparation of the necessary schedules and valuations, and the settlement of dilapidation claims in the interest of either lessee or lessor.

The fee charged is 5 guineas per cent. upon the agreed sum, with a minimum charge of 5 guineas.

(b) Surveys of properties as to their sanitary or structural condition for intending purchasers or lessees.

The fees charged for these surveys are as follows:—

Rental value of Property.	*Town* Within 5 miles of Stores.	*Suburban.* Beyond 5 and within 15 miles of the Stores.
	gns.	gns.
Not exceeding £75	2	2½ plus travelling expenses.
„ 150	3	3½ „ „ „
„ 250	4	4½ „ „ „
„ 400	5	5½ „ „ „

Special fees will be quoted for rental values above £400 and also for flats.

COUNTRY SURVEYS.—For properties situated beyond 15 miles from the Stores, fees are based on the time occupied in travelling, inspecting and preparing the report, and are calculated at the rate of 4 guineas per day. Travelling and hotel expenses (if any) are charged in addition.

In the case of a sanitary survey, the fee includes testing the soundness of the drains and soil pipes, examining carefully the drainage and sanitary fittings, water supplies, etc., reporting upon them and advising as to the means to be adopted to render the premises sanitarily perfect. It does not include analysis of the water supply, but arrangements can be made for Quantitative or Bacteriological analyses of samples by a first class analyst if desired.

Note.—The Surveyor requires the assistance of a workman in every survey and a charge is made for the workman's time and expenses (when he is provided by the Society) in addition to the fee. It is also necessary that water be laid on to the premises.

ANNUAL SURVEYS.—The attention of customers is drawn to the necessity of an annual inspection of drains and sanitary fittings. The Society undertakes such annual surveys of premises which have been previously reported upon by its Surveyors, and furnishes a report and recommendations.

The fees for such surveys, in the case of Town and Suburban houses, will be half those for the original survey with a minimum of 1½ guineas, and for country properties will be as laid down above for Country surveys.

MISCELLANEOUS.—In addition to the ordinary sanitary or structural survey, the Society will, if desired, extend the investigation to the testing of gas pipes, examining the ventilation of houses and rooms, the domestic hot water and central heating system, and the electrical system, etc. Fees will be quoted on application.

SUPERVISION OF WORK.—When it is desired to obtain tenders for work recommended in the survey reports, it is advised that a proper detailed specification be prepared by the Society's Surveyor: if the contract is given to any firm (other than the Stores) it is further advised that the form of contract be drawn up by the Surveyor, the work supervised during its progress and certified by him on completion, so as to ensure that his recommendations are properly carried out.

The charges for these services vary with the location and size of the works to be carried out, and special quotations will be given for each individual case.

ARCHITECTURAL WORK.—The Department gives professional advice and service in all matters included in the ordinary business of an architect.

These services include inspection of site, preliminary sketches, preparation of drawings, supervision of work and examination of accounts.

The fees charged vary with the nature and extent of the work; particulars will be given on application.

No charge is made for a preliminary consultation in the Department's Office, or the Architect will, if desired, call upon customers in which case if nothing further is done a nominal fee and travelling expenses only will be charged.

FOR GENERAL CONDITIONS OF BUILDING AND DECORATING WORK SEE NEXT PAGE.

GENERAL RULES FOR BUILDING, DECORATING AND ENGINEERING WORK.

1. Estimates for work within a ten-mile radius of the Stores are given free of charge, but for distances beyond this radius, travelling expenses are charged if the estimate is not accepted.

If the Society is required to tender for work in competition with other firms, a specification, common to all competitors, should be provided. The Society's surveyors can, without prejudice to the competition, prepare this specification, for which no charge will be made if the Society's tender is accepted.

Estimates are NOT given for patching and small repairs to roofs, to old plastering, old floors, or in similar cases where the value of the work to be done cannot be properly ascertained, but in these cases an account based on the actual cost will be rendered after the completion of the work, which will be charged for as "day work." (*See* paragraph 10 below.)

Estimates provide for the employment of the best workmanship and materials only unless otherwise specified, and include the use of all necessary scaffolding, plant, tools, cover cloths, etc., except where otherwise stated.

They are based on the understanding that the Society is afforded the usual facilities for its workmen, such as the use of water, gas, stove and firing, where requisite, and convenient spaces for temporary storing and preparing material for the works.

All workmen in the Society's employ provide their own food, and the Society cannot therefore undertake to refund the value of any meals supplied to its employees by customers.

2. Estimates include credit for the value of any old materials of marketable value which have to be pulled down, or otherwise removed during the work, less the necessary expenses attached to the removal and disposal of such materials.

3. In the case of painting and decorative work, estimates provide for removing, where necessary, and afterwards refixing all door plates, handles, sash lifts and fastenings, etc., also for clearing up and carting away all dust, dirt, debris and refuse accruing from the works, and wiping off all accidental splashes upon paintwork, glass, etc.

4 Estimates do NOT, unless specially mentioned, provide for the cleaning, repairing or relacquering of the fittings mentioned in paragraph 3, or for scrubbing floors, cleaning painted work and walls, cleaning windows or sweeping flues, but such work can be arranged for if required and a separate estimate submitted.

5. Where the work entails disturbance of existing work, decorations, etc., the cost of making good the decorations is NOT included in estimates unless specifically stated.

6. Estimates do NOT provide for dismantling rooms, taking up carpets, taking down curtains, pictures, wall fittings and removing valuables and afterwards remantling, refixing and rehanging same.

Cover cloths are provided, but the Society cannot be answerable for unavoidable damage to delicate articles improperly exposed.

The work of dismantling and re-establishing rooms can be undertaken by the Society and a separate estimate will be submitted if desired.

7. Wall and ceiling papers, when included at a provisional price per piece, are, unless otherwise specified, intended to be those of standard English sizes, and estimates provide for hanging on this understanding, but should French or other smaller-sized papers be selected, the difference in cost (if any) will be afterwards adjusted and the extra cost of hanging the additional number of pieces necessary will be charged.

So also with dadoes, friezes, etc., when not specially provided for in estimates and which may involve more material and labour.

8. Damage by fire will, in all cases, be at the customer's own risk whether to the old or new works in progress, and whether caused by negligence of the Society or its workmen or not, as it is always presumed in the Society's estimates that the customer, owner, or lessee has already covered such risk by insurance.

Caretakers are NOT provided by the Society and, therefore, in the case of unoccupied buildings, customers are advised to employ a caretaker as the Society cannot be responsible for the acts of burglars, incendiaries and others.

Insurance to cover any risk can be effected through the Stores on receipt of written instructions.

9. Estimates are framed on existing rates for conveyance, labour and charges incidental to the work. Should any increase arise, the amount quoted will be proportionately increased.

The Society accepts no responsibility for delay arising out of strikes or lock-outs, and any additional expense consequent thereon will involve an extra charge.

10. If after the acceptance of an estimate any additional work is found to be necessary, the order for same should be given in writing and can only be accepted on the same conditions as those on which the estimate is given. Foremen are provided with the necessary order books for this purpose.

When time permits it is desirable that any additional work should be estimated for, as in the absence of an agreed estimate,

GENERAL RULES FOR BUILDING, DECORATING AND ENGINEERING WORK—*continued.*

the work will be charged for as "day work," and based on the cost of labour employed, materials provided and expenses incurred on the work. In "day work" the time charged is that of the actual labour on, or for, the job, plus the time spent in journeying to and fro from the Stores: in the case of country jobs (*i.e.*, beyond 15 miles from the Stores) the cost of lodgings and expenses are also included in the charge.

11. Should any failure or defects appear in the new work within six months from execution of same, they will, if attributable to defective workmanship or materials, be made good by the Society free of charge; but where such defects are in consequence of defect or unsuitability of old or previously existing work, or other causes beyond the Society's control, no responsibility can be accepted.

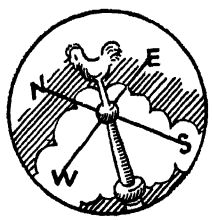

12. Payment for the work detailed in estimates is required in accordance with the general rule of the Society that work is to be paid for in advance, but, in the case of large jobs, arrangements will be made to suit the convenience of customers on the principle of a deposit on putting the work in hand and payment by instalments as the work proceeds.

In all cases where an architect is employed by a customer, the usual arrangements for payments on his periodical certificates will be accepted.

NOTE.

Customers are advised to read the details of work described in estimates, and to point out anything which does not accord with their instructions as the Society can only be responsible for what is actually specified.

NO MATTER WHERE YOU LIVE...

YOU CAN HAVE YOUR OWN ELECTRICITY

A Lister plant can be installed quickly anywhere to provide electric light and power in buildings of any size. Running costs are low; no skilled attention and very little supervision being required. A Lister Advisory Engineer will call on request and submit a report on the most suitable plant to meet any requirement, without obligation.

PUMP YOUR OWN WATER SUPPLIES

A Lister pump, electrically or engine powered, will raise water from wells, streams or ponds to provide a supply "on tap" in houses, outbuildings, yards and fields. The Lister free Advisory Service is available. Full particulars from the Army and Navy Stores.

R. A. LISTER & CO. LTD., GLOUCESTERSHIRE AND LONDON.

Largest manufacturers of small Diesel Engines in the World

NOTES ON ELECTRICAL WORK.

The advantages of Electric Lighting over other forms of illuminant are now so universally known that it is unnecessary to point out its—

SAFETY, CLEANLINESS, ECONOMY AND SIMPLICITY.

The Society's Engineer can be consulted free of charge and will give advice or information as to probable costs.

An Electrical Generating Plant of a modern type properly laid down may be worked by a Gardener, Coachman or Handy Man, and does not demand the services of an experienced Engineer.

On deciding upon a proposed Electrical Installation, the main points to be considered are—

1.—*The best form of motive power.*

2.—*That the work should be thoroughly well done and only the best materials used.*

3.—*That the installation be carefully laid out, and that the generating and storage plant be of ample size for its requirements.*

Each Installation should be considered carefully before advice is given, as to the best motive power to be used, whether Water, Steam, Gas, or Oil, and to this end it is important that the Engineer is permitted to inspect the premises in question.

It is not possible to lay down a universal rule to govern the choice of plant and details, but the following may be stated:—

Electrical Plant.

THE DYNAMO.—The Engineer carrying out the work would advise as to the machine most suitable.

THE STORAGE CELLS.—A Battery of Accumulators is practically a necessity in a modern installation, although in exceptional cases it is possible to dispense with it. The number and variety of types of Accumulators are so great that it is essential that the best advice on the subject be obtained before purchasing a new Battery or replacing an old one.

The Stores is not interested in the manufacture of any particular type of Accumulator, and is therefore in a good position to advise customers as to the best to be used for the purposes required.

To obtain the best results from any type of Accumulators, it is essential that they have proper attention in order to avoid what would otherwise become a constant source of trouble and expense.

Testing and Inspection of Electrical Works.

Periodical Inspections are strongly recommended by all Fire Insurance Companies.

To enable customers to have the best advice, from time to time, as to the condition of their installations, a system of periodical inspections at fixed fees has been established, for which experienced Electrical Engineers are employed. The advantage of this system of inspection enables customers to keep in touch with the Society's Engineer, and so to have the best practical advice on any small or other matters which may accrue between the visits; and where customers have their own plant, a great deal of annoyance and expense may often be saved by the Engineer being in a position to point out small defects—especially in the Storage Batteries—which if not noticed in time get beyond repair.

The fees charged are as under:—

For a Single or First Inspection.		Subsequent Inspections.	
Town installation within 4 mile radius, where current is obtained from a Supply Company.	Country installation where current is generated by Customer's own plant.	Town (Supply Company).	Country (Plant).
Up to 20 lights 15/6	18/6	11/6	16/–

ESTIMATES FORWARDED ON APPLICATION.

DISTINCTIVE STATIONERY

Papyrus Regia

THE Society supplies many distinctive and high-class Notepapers but **Papyrus Regia** is probably the most popular. It is made in **Azure** and **Cream** shades in both **Thick** and **Thin** Qualities, with **Smooth** and **Rough** surfaces to suit all pens.
Papyrus Regia Writing Tablets are in all sizes, and in the **Thin Azure** quality a **Thin Opaque Envelope** can be supplied to match. This combination is most useful for **Foreign Correspondence.**
Correspondence Cards are stocked in two sizes :—$4\frac{1}{2}'' \times 3\frac{1}{2}''$ and $5\frac{1}{2}'' \times 3\frac{1}{2}''$.
Papyrus Regia is now supplied in boxes and dressings of a new design but every assurance is given that the quality of the paper still maintains that high standard which has made it so popular.

For prices see pages 298 and 299. For prices of Correspondence Cards see page 307.

SAMPLES FORWARDED ON APPLICATION.

Bellingham Bond

(FACSIMILE OF WATERMARK)

THE MOST RECENT ADDITION TO THE SOCIETY'S COMPREHENSIVE RANGE OF HIGH-CLASS NOTEPAPERS

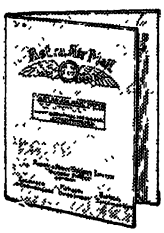

Made from carefully selected materials, at a mill with a universal reputation for High-Grade Papers, its pleasing Azure shade and even texture presents an excellent writing surface which gives complete satisfaction.

BELLINGHAM BOND has already jumped into the front rank of Notepapers, and can be strongly recommended.

For prices see page 300.

"ASTRA" AIR MAIL STATIONERY

In view of the increasing popularity of sending correspondence by Air Mail the Society announces that

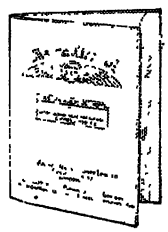

ASTRA AIR MAIL PAPER

has been expressly designed to provide the

MAXIMUM WRITING SURFACE FOR THE MINIMUM AMOUNT OF POSTAGE

The paper is sufficiently opaque to enable both sides to be used, making the paper

MOST ECONOMICAL FOR AIR MAIL CORRESPONDENCE

For Prices see Page 300. *Samples on application.*

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

WRITING PAPERS, WRITING TABLETS AND ENVELOPES.

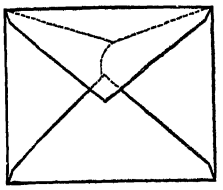

(Samples forwarded upon application.)

Writing Papers are not sold in less quantities than a packet of 5 quires. In ordering special papers a sample sheet should be forwarded bearing the maker's name, or the address should be quoted where it can be procured, as from small patterns it is very difficult to obtain, and cause great delay. If the Society has a similar paper to the pattern forwarded it will be supplied (unless special instructions are given to the contrary), as better value can always be given in using the Society paper. Papers manufactured exclusively for the Society are printed in blacker type in the undermentioned List, and can be specially recommended.

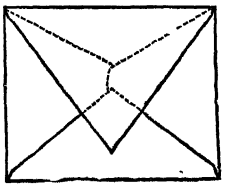

GUMMING OF ENVELOPES.—Modern papers, to withstand the strong chemical inks now in general use, have to be made with a very hard finish; this gives the paper a springy character, and the flap of an envelope made of these papers has, consequently, a natural tendency to spring up; the gum on the flap should, therefore, be well moistened, and allowed to remain a few seconds to allow the moisture to penetrate the gum before attempting to seal. With this little extra care in sealing the utmost security can be obtained.

Customers are requested, when ordering envelopes of a particular pattern, to send a separate sample, as the envelope enclosing letter is invariably destroyed.

ALL ENVELOPES ARE KEPT IN STOCK DIAMOND SHAPE ONLY, UNLESS OTHERWISE SPECIFIED IN THE LIST

Diamond.

Heraldic.

For ½ Ream of Paper 250 Envelopes are necessary.
For 1 Ream of Paper 500 Envelopes are necessary. Prices quoted are for double sheets.
1 Ream of Paper contains 480 sheets. 24 sheets=1 Quire. Single Sheets at half ream prices.

Erasing name only from Invitation plates	per line 2/–
Erasing address, 1, 2 or 3 lines from Invitation plates	per line 1/6
Cleaning plates	–/8
Deepening engraving on plates that are worn, per line from	1/–

Plates that are worn or scratched, and require touching up, will be cleaned and re-engraved without giving notice, and charged accordingly.

In forwarding orders for card printing, etc., a pattern card should be attached to the order, so that if the plate is in the Society's possession it can be traced immediately; or if the plate is sent by post, the name and ticket number should be given.

Plates are retained and duly registered for future use unless instructions are received to the contrary.

RELIEF STAMPING, ADDRESS DIES, CREST DIES, ILLUMINATING, Etc.

The Society's range of Styles and Colours —being continually brought up to date to include modern requirements — is too large to illustrate in detail, Specimen Sheets, stamped in colour, will be forwarded on request to enable a better choice to be made.

DIE STAMPING

With its dignified and artistic appearance, when small quantities are required and when one Die only is used,

IS CHEAPER THAN LETTERPRESS PRINTING

THE COST OF ENGRAVING A DIE OCCURS ONLY ONCE

With Printing—Composition has to be paid for on each occasion

MODERN STYLE SHEETS SENT ON REQUEST

DIE CUTTING. WHEN SENDING COPY BY LETTER FOR CUTTING DIES IT WILL GREATLY ASSIST IN THE CORRECT INTERPRETATION OF ADDRESSES, ETC., IF THESE ARE WRITTEN IN BLOCK LETTERS.

Large 8vo, printed in colours	11/9	14/6	15/9	29/9
„ 4to, „	11/9	14/6	15/9	32/3

Plates that are worn or scratched, and require touching up, will be cleaned and re-engraved without giving notice, and charged accordingly

All dies retained are numbered and registered for future orders, unless instructions are given to return them.

It would greatly facilitate orders if Customers when giving orders for stamping would quote the Registered No. of the die which is given on the card that was enclosed with the previous order.

In forwarding orders for stamping, the colour required, and position of die should be stated. If the dies are sent by post an impression should be attached to the order for identification.

To ensure the correctness of the register, Customers are requested to have the right name given under which the die is to be registered, as it is found that many dies cannot be traced in consequence of the wrong name being quoted.

If envelopes are required to be stamped with the address die, special instructions should be given, OTHERWISE THEY WILL BE SENT UNSTAMPED.

These processes are carried out on the Society's premises by skilled workmen who have had many years' experience. All branches of this class of work are undertaken: Punched Dies, Hand Engraved Dies, Service Crest Dies, Private Crest Dies and Monogram Dies, at keenly competitive prices.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

Meat and Malt Wine (Army & Navy) bot. 2/9, 4/9

"Prepared from a good sound wine, imported by the Stores and possessing the nutritive and invigorating properties of the carefully prepared extracts of meat and malt."

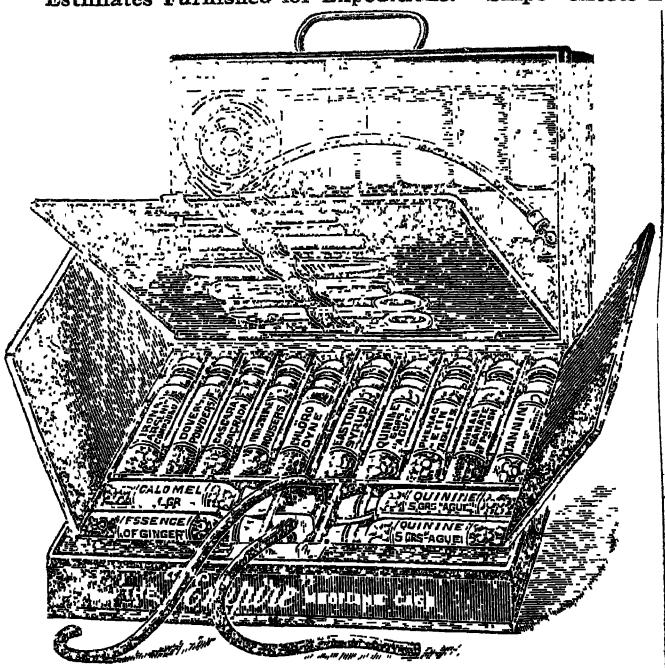

Analyst's Report—*"I have made a complete analysis of the Meat and Malt Wine manufactured by the Army and Navy Stores, Limited, and from my results I am of the opinion that it is a product of a very high class. I find it to be very rich in Malt and Meat extracts, the former possessing a high diastatic capacity, and the latter being rich in nitrogenous matter. In my opinion this wine is of great value in cases where digestives and stimulants of this class are prescribed."*

MEDICINE AND EMERGENCY CASES.

Containing a Selection of Medicines and Minor Surgical Instruments, suitable for home use and abroad.

Estimates Furnished for Expeditions. Ships' Chests fitted to conform with the Board of Trade Regulations.

THE "EMPIRE" MEDICINE CASE. No. 1.

RG 1074.

THE "ANCOS" ELASTIC KNEE CAP.

Specially adapted for footballers' protection. Made in good firm elastic and extra protection for the patella is provided by a facing of felt strips, each 5/-

Measurements required as in other Knee Caps.

ELASTIC ANKLETS, KNEE CAPS, LEGGINGS, STOCKINGS, ETC.

Commodious Fitting Rooms are now available in the Department, and experienced Assistants, male and female, are in attendance.

Notice.—In ordering it is requested that in all cases Members state whether Silk or Thread is required. When no mention is made **best** Silk will invariably be sent.

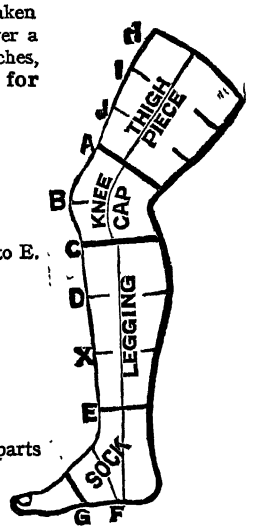

Directions for Measurement.—These should be taken on first rising in the morning, not too tightly or over a stocking. Exact measurement of limb required in inches, **without any allowance being made for stretching.**

For Stockings.
Circumference at C, D, X, E, F, and G.
Length from C to ground, taken outside of leg.
Length from G to back of heel.

For Leggings.
Circumference at C, D, X, and E. Length from C to E.

For Knee Caps.
Circumference at A, B, and C.
Length from A to B, and from B to C.

For Anklets or Socks.
Circumference at E, F, and G.
Length from E to ground, and
Length from G to back of heel.

N.B.—In articles covering both the upper and lower parts of the limb, it is important to give **Length** required above and below the knee, and in **Deformed** Limbs, and when great accuracy is required, give the Length between each letter.

In all cases allowance will be made for pressure unless ordered to the contrary. It is therefore necessary to state when the Measures are taken from an Old Article.

ACHIEVE THE *Elizabeth Arden* LOOK WITH DAILY CARE

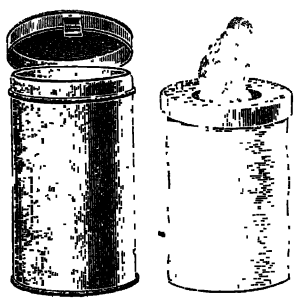

BEAUTY is not to be achieved by overnight miracles nor by spasmodic care but the regular use of Elizabeth Arden's preparations assures a loveliness untouched by time or weather. Night and morning the skin must be cleansed, toned and soothed if it is to keep its softness and freshness. Cleanse deeply with feathery light Ardena Cleansing Cream. Then pat briskly with Ardena Skin Tonic to brace the skin and stimulate the circulation. Finally to keep the skin smooth and supple, soothe with Velva Cream, or Orange Skin Food for the dry or older skin. Ardena Cleansing Cream, 4/6 to 22/6. Ardena Skin Tonic, 3/6 to 75/–. Ardena Velva Cream, 4/6 to 22/6. Orange Skin Food, 4/6 to 35/–.

Make Up. Always use an Elizabeth Arden Powder Foundation. Amoretta Cream for the normal skin, Ultra Amoretta for the dry skin, Lille Lotion for the oilier type. Lille de France a blend of lotion and cream, gives an unusually flattering effect and is suitable for every type. Finish with a dusting of Japonica Powder used *over* Ardena Powder. This two powder technique gives a translucent look to the complexion and a porcelain smooth finish that lasts for hours on end without re-powdering.

Write for the "Quest of the Beautiful" describing all Elizabeth Arden preparations in detail.

JEWELLERY, WATCHES, CLOCKS, CUTLERY, SILVER AND ELECTRO-PLATE.

JEWELLERY—The illustrations shown are only a few of the large assortment of designs always kept in stock.

Do. (DIAMOND)—The greatest care is exercised in selecting Stones for Gem Jewellery which is not mounted by the Society, and Customers can (if they wish) choose stones before purchase. Quotations and special designs can be furnished for all kinds of Jewellery work.

Do. (OLD)—Old Jewellery of every kind is purchased for cash or taken in exchange.

WATCHES—All kinds of English Watches are manufactured by the Society, and many years' experience shows this Department to be largely on the increase. Only experienced and competent workmen are employed by the Society. Watches rated by Greenwich time. All Watches [illegible] Department are kept in good order, free of charge, for 12 [illegible].

CLOCKS—The designs illustrated herein comprise a few of the large selection of Fancy and other Clocks on view in this Department.

Do. (CARRIAGE OF)—The greatest possible care will be taken in the packing of Clocks, but the Society cannot be liable for damage in transit.

SILVER AND ELECTRO-PLATE—The most fashionable presents are made in Sterling Silver, and there is always a large and varied assortment, suitable for all occasions, on view in this Department.

Do. (DESIGNS)—The Society is prepared to furnish Designs and Estimates for every description of Work in Silver and Electro-Plate. The prices charged for Sterling Silver articles are liable to variations according to weight and fluctuation of the market.

SILVER AND ELECTRO-PLATE (SECOND-HAND)—Second-hand Silver is purchased for cash or taken in exchange.

ELECTRO-PLATE—The stock of Electro-Plate and Silver articles being so extensive, and the patterns so varied, it is only possible to illustrate a few articles which are in general demand. **RE-PLATING** is done at the Society's own works, and orders are executed with all possible despatch.

VALUATIONS FOR PROBATE, Etc.—The Society undertakes the Valuation for Probate, etc., of Diamonds, and other Precious Stones, Jewellery, and Gold and Silver Plate. The commission chargeable on amounts of £10 and upwards is 1 per cent.

ENCLOSURES—Jewellery, Watches, and Clocks cannot be enclosed with other goods.

ANTIQUE SILVER is purchased or taken in exchange.

NOTE.—The Society only accepts articles sent or left for repair, estimate, valuation, binding, mounting, [illegible] other purpose in respect of which work is to be done by the Society [illegible] warehousing, to which particular conditions apply) on the terms that it shall be at liberty to sell or dispose of such articles for its own benefit IF NOT CLAIMED:—in the case of repairs, binding, mounting, plating or cleaning or other purposes mentioned WITHIN SIX MONTHS after NOTICE sent by post to the customer to the customer's registered or last known address; and in the case of estimates or valuation WITHIN SIX MONTHS OF THE DESPATCH by post to the customer to the customer's registered or last known address of the estimate or valuation.

CHINESE JADE.

UNTIL A VERY FEW YEARS AGO CHINESE JADE RANKED WITH INCUNABULA AND FAMILLE ROSE PORCELAIN AS A COLLECTING GENRE WHICH DEMANDED A BANK BALANCE COMMENSURATE WITH ONE'S TASTE AND ENTHUSIASM. TO-DAY CHINESE JADE STILL MAINTAINS ITS POSITION IN THE HIERARCHY OF THE GEMSTONES, BUT IT CAN BE PURCHASED AT PRICES WITHIN THE RESOURCES OF THE SLENDEREST PURSE.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

SPORTING KNIVES.

All Knives on this page are of Sheffield make.

DIRECTIONS FOR SHARPENING.— A Pen or Pocket Knife **requires a stiff edge**, and if laid flat on an oil stone, so as to touch the polished side of the blade, the edge is ruined. The blade must be held at an angle of 20 or 25 degrees, and have an edge similar to a chisel. This is technically called the "cannel," and is marked on all new knives by a fine white line, which does not remove or touch the polished surface. **Knives improperly whetted are often condemned without reason as being too soft or too hard.**

Unless the joints are "oiled" they are liable to become rough and hollow, thereby causing the points of the blades to protrude.

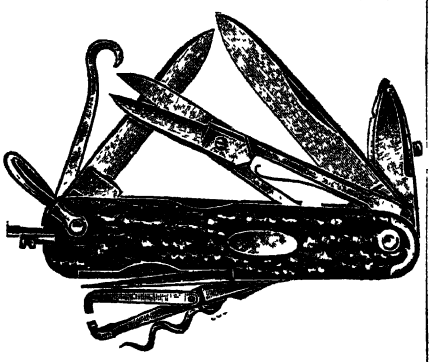

Fishing Knife.
No. JGA 168.

Very thin, length when closed, 4 in. Containing large blade, scissors, disgorger, file, long pricker, screwdriver at end, measure, and size of hooks on scales. Nickel-silver, **11/3**; Ivory, **13/3**.

SPECIAL NOTICE.

"A1" quality Electro-plate, with proper care, should wear 25 years. The Society's "2nd" quality is equal to most well-known brands stamped "A1," and is most excellent in use.

The Society's 3rd Quality has been produced to meet an increasing demand for a "Short Service". Quality consistent in finish with their best make. This has been accomplished; the term of expected wear is fully 10 years.

SPORTING DEPARTMENT.

FIREARMS AND AMMUNITION, FISHING RODS AND TACKLE, NATURALIST WORK, BOATS, YACHTS AND CANOES.

FITTING AND TESTING OF GUNS AND RIFLES, REPAIRS AND WAREHOUSING.

The Society offers every facility for the **Fitting and Testing of Guns and Rifles** and also for **Practice and Coaching** at its **Shooting School** near **Greenford.** Fitting and Coaching at the School are carried out by the Society's Expert, P. D. JACK, but appointments should only be made either by letter to the Secretary or by personal or telephonic application to the Gun Department.

Too much stress cannot be laid on the vital importance of the correct fitting of a gun, and Customers are requested to utilise the Society's TRY GUNS and Apparatus for this purpose.

The charge for fitting with TRY GUN at the School is 21/–, which is reduced to 10/6 if alterations to Customer's own gun are carried out by the Society.

If a new Army & Navy Gun, value £15 or over is purchased from the Society, no charge is made for fitting and 25 Cartridges and 12 Clay Birds are allowed free at the School.

Alterations to new Army & Navy Guns £25 and upwards in price are carried out free of charge.

The School provides facilities for practising at :—

(a) Walking up "Birds."

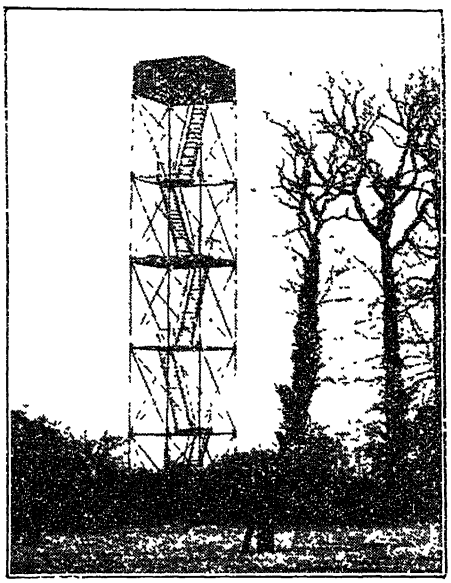

(b) "High Pheasants" from Tower.

(c) Driven "Partridges" over Hedges.

(d) Driven "Grouse" over Butts.

(e) Snap Shooting at "Rabbits."

(f) Rifle Shooting at Imitation Deer.

Charges are as follows :—

(including Coaching by the Society's expert).

Use of ground	.. .. ..	10/6
Cartridges,	per 100 ..	15/–
Clay Birds	„	10/6

Customers using their own Cartridges are charged 3/– per 100.

Customers are advised in their own interest to send their Guns to the Society for overhaul at the end of the Shooting Season to prevent probable damage by rust. Much trouble and expense may be avoided by timely attention.

REPAIRS AND ALTERATIONS.

The Society employs a Staff of skilled Gunsmiths on the premises to carry out repairs and alterations to Guns and Rifles. Estimates given if desired before the work is put in hand.

When necessary to have weapons re-proved to comply with the Regulations of the Proof Act, re-proving will be done at the Customer's risk, who must also accept liability for the cost of preparation for proof.

Although every precaution is taken in setting stocks, the Society cannot accept any responsibility for breakages.

Weapons left with the Society for cleaning, repairing, etc., and not taken away within six months are liable to be disposed of in accordance with Rule 7.

WAREHOUSING GUNS AND RIFLES.

The Society undertakes to Warehouse Guns and Rifles on its own Premises. All weapons so stored will be thoroughly cleaned before being put away and no responsibility for the safe custody or condition of weapons left with the Society can be accepted unless they are warehoused.

The charge for Warehousing, Cleaning and Insurance per Gun or Rifle is 15/– per year or part of a year and 10/– for each consecutive year or part of a year. Customers wishing to remove their weapons from the Warehouse are requested to give 24 hours' notice.

SECOND-HAND WEAPONS.

The Society is prepared to accept Second-hand weapons by reputable makers either for cash or in part payment for new ones.

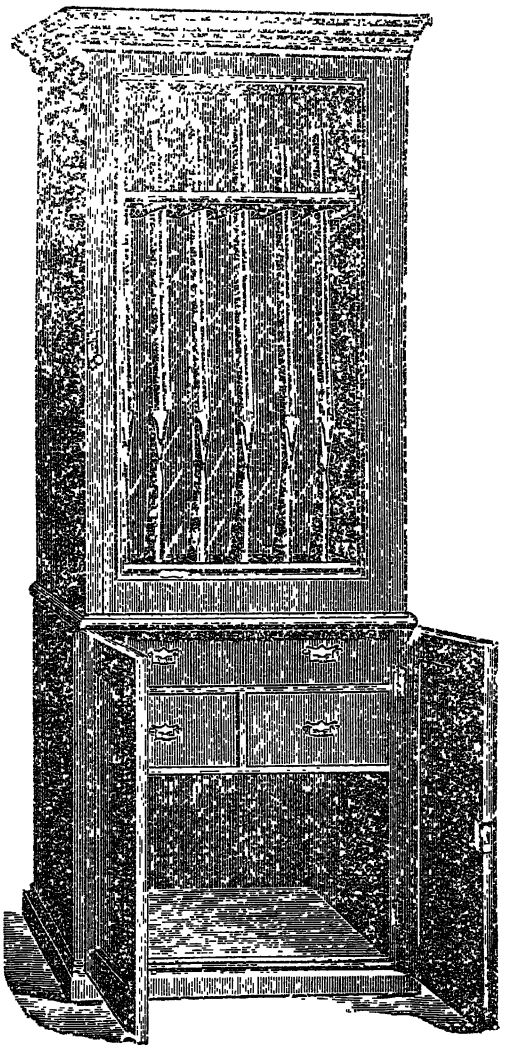

Rifled Weapons can only be delivered upon production of a Fire-arms Certificate.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

GUN CABINETS.

MADE BY THE SOCIETY.

To Order.

"IMPROVED" PATTERN.

(as illustrated).

AIR RIFLES, PISTOLS AND ALARM GUNS.

WEBLEY SERVICE AIR RIFLE .177 OR .22.

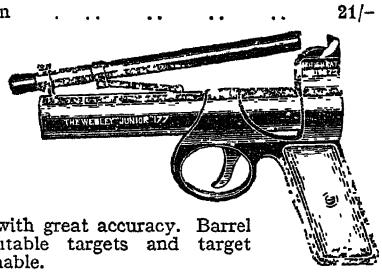

All parts are made on the Interchangeable system including the barrel : it is thus possible to possess a barrel of each calibre with one stock and action. With this Rifle we strongly recommend the use of the Webley Special Pellets which are carefully gauged for regularity and dimensions. The Rifle may be easily "broken down" and carried in a small canvas case, the total length of which is 27 in.

SHOOTING REQUISITES.

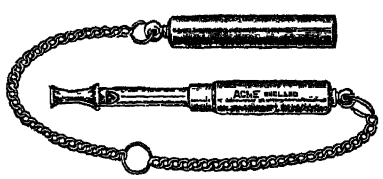

Protect your dog and preserve your car by using a "GROVE SHOOTING DOG BAG."

These Bags must be used to be fully appreciated. After a day's shooting in the wet, your dog may be put into one of these Bags without any previous drying, except for the ears. It will travel home in the car in complete comfort and content, and be steaming and partly dry on arrival, while the car will be as clean inside as when you set out. More dogs take chills through motoring when in a wet condition than is perhaps realised, while a tired dog is particularly susceptible to chills and rheumatism.

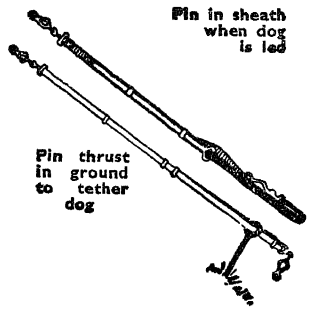

These Bags are also suitable for coursing dogs.

NATURALIST SECTION.

BIRDS and ANIMALS preserved and mounted.

SKINS cured and mounted as Floor Rugs, Motor Rugs, or for Wall Decoration.

EVERY DESCRIPTION OF TAXIDERMIST WORK undertaken.

CUSTOMERS ARE PARTICULARLY REQUESTED to ask for WRITTEN estimates, as VERBAL ones are necessarily only approximate, and cannot be recognized as final under any circumstances.

for preservation or mounting, please address them as follows:

No. 8 DEPARTMENT,
NATURALIST SECTION,
A. & N. STORES, LTD.,
105, VICTORIA STREET, S.W.,

and ENCLOSE with them as full instructions as possible.

Packing Cases in which Trophies are sent will be destroyed, unless instructions are given to keep them at the time they are sent.

NOTICE.—Trophies left in the Society's possession for a period exceeding two months after completion, or left awaiting instructions, will be liable to a charge for warehousing and insurance for each month in excess of that period.

The Society does not undertake to keep trophies or skins free from moth, etc., which may be left for a considerable time, unless instructions for warehousing are given when they are delivered to the Society.

NOTE.

BEFORE ANY ORDER CAN BE PUT IN HAND, A DEPOSIT OF HALF THE ESTIMATED COST MUST BE MADE.

SPECIAL NOTICE.—Competent men can be sent to customers' residences (town or country) to examine or report upon Trophies, the arrangement of collections, or the periodical overhauling and attention which is absolutely necessary, especially in regard to Stuffed Heads, Birds, Rugs, etc. Charge, 8/6 per hour, "in and out" travelling expenses EXTRA. A full day's notice should be given.

In sending specimen birds or animals in the flesh, also fish, intended

FUR RUGS, SKINS, MOUNTED SPECIMENS, AND TROPHIES OF ALL KINDS WAREHOUSED.

The Society undertakes the Warehousing, Insuring, and keeping in order of all kinds of fur rugs, trophies, etc.

SKINS, HEADS, HORNS, SPEARS, Etc., SUITABLE FOR HALL DECORATION. (Procured to Order.)

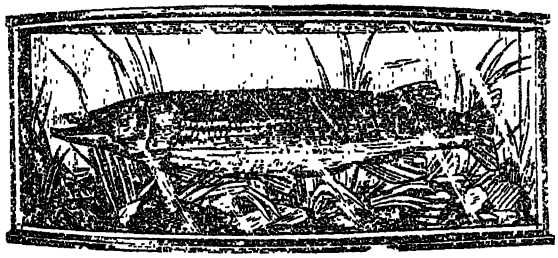

SKINS, FUR RUGS, Etc.

THE Society employs none but the best Skin Dressers, and the greatest care is always taken in the dressing of skins entrusted to it. Notwithstanding this it occasionally occurs that some skins do not turn out quite satisfactorily in the process of dressing. This is due to various causes such as their being tainted, improperly preserved by Natives, or some other imperfection which is not apparent until they are dressed. It must therefore be understood that the dressing of skins is only undertaken at owner's risk. THE SOCIETY CAN TAKE NO RESPONSIBILITY, nor can it guarantee that all skins will turn out satisfactorily.

The Prices given below for Mounting DRESSED Skins are APPROXIMATE only, the exact cost varying according to the size of the skin.

Customers are requested to apply for WRITTEN estimates before skins are put in hand, as prices vary considerably, according to size, condition, and quality of cloth chosen.

Lining Tiger skins with canvas and bordering felt	90/-
Do. do., and bordered cloth	100/-
Half raising heads of the above skins and inserting eyes, extra, from	25/-
Three-quarter raising do.	37/6
Lining Leopard skin with canvas and bordering felt	60/-

Do. do. do. cloth „ „	110/-

SPECIMEN FISH IN CASE.

The following are approximate prices for preserving and mounting fish specimens in cases of various shapes (as illustrated). Written estimate can always be obtained on application.

According to style of case, etc.

Fish,	1 lb. weight .. .. from	£2	2 0
„	8 lb. „ .. .. „	4	0 0
„	12 lb. „ .. .. „	5	0 0
„	above these weights at proportionate prices.		

As fish for mounting require a considerable time for drying and "setting" properly, the execution of an order for even a single specimen usually takes at least three months, and sometimes much longer.

Carved and Painted Wood Models of Specimen Fish on Wood Panels for hanging on a wall.

Customers desiring to have mementoes of Specimen Fish, can obtain the same in Wood carved and coloured. A full description of the fish must be furnished, also the outline of the Specimen on a sheet of paper; the weight and girth should also be stated for the carver's guidance, and any special detail as to colouring or peculiarity. Prices according to size of fish; for instance, a 20 to 30 lb. Salmon costs about £6 6 0. Carved Specimen on view in Department. **Composition Models of Fish** produced by a new process from casts of the actual fish coloured to nature. Mounted either on Panels or in Glass Cases:—The fish must be forwarded for the work to be carried out. Prices according to size of fish. Salmon or Pike from about £8 10 0. Trout from about £3 10 0.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

SHOOTING TROPHIES.

CUSTOMERS' OWN TROPHIES MOUNTED AS BELOW.

The following approximate prices are published for guidance. It will be well, however, to avoid any misunderstanding, that customers should have an official estimate given before any trophy is proceeded with. For bulky articles an extra charge will be made for packing and delivery.

TROPHIES.

The following approximate prices are published for guidance. It will be well, however, to avoid any misunderstanding, that customers should have an official estimate given before any trophy is proceeded with, as variations in sizes, etc., of hoofs are liable to cause difference in cost. When giving orders for hoofs to be mounted as inkstands, please state whether they are required with or without pen-rack. Mounted specimens can be seen in the Department.

PERMANENT FLOWER COLOUR PROCESS.

Fothergill Flower Press. (As illustrated.)

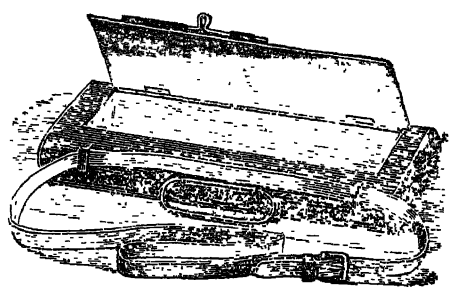

An invaluable hobby for all children, also adults interested in botany, and gardeners and others who wish to preserve any new variety or large blossom for exhibition purposes.

The secret of the success of this process, which beats every other method of pressing flowers, is that the pigment is fixed by the rapidity of the method instead of being allowed to slowly decay.

Consists of two wire meshwork grids with three layers of absorbent cotton wool, with encircling strap.

No. 1.	7×5½ in.	2/- each; extra Refills				each	-/9

FISHING TACKLE.

A POCKET LIST of Fishing Tackle, 5½ in. by 4 in., containing details and illustrations of many articles, the prices only of which (owing to lack of space) are shown in this List, can be had gratis in the Department or will be sent post free on application to the Secretary.

RODS.—Many of the rods described below and on the following pages are made at the Society's own works, situated in Johnsons Place, Ranelagh Road, Westminster (about one mile from the Stores), where Customers can, if they desire, give instructions for rods to be built to their own specifications, at any time between 9 o'clock a.m. and 6 o'clock p.m., except between 1 o'clock and 2 o'clock (dinner hour) and Saturdays. Customers will oblige by giving a day's notice of their intention to call.

IN ORDERING RODS, in addition to giving the **description,** Customers are **particularly requested** to state the Length desired (where various lengths are stocked).

REPAIRS to rods, etc., undertaken at any season of the year, but it is better in every way if rods are sent at the end of the fishing season for overhaul; more attention can then be given to this work, and the life of a rod is considerably lengthened by early rectification of minor defects and accidents, than by continued use till a breakdown occurs.

NEW TOPS OR PARTS.—When required, it is **absolutely necessary** that at least the old part into which the new one is to be fitted accompanies the order, as in its absence the latter cannot under any circumstances be supplied. It is the more satisfactory to send the whole rod.

RODS AND FISHING TACKLE WAREHOUSED.—The Society undertakes the storage of rods, reels, tackle, etc., on the following terms, viz., 5/- per annum for one rod (a reduction being made for a number) or pro rata, but for no less period than 3 months, such charge to include insurance against loss or damage by fire.

SALMON FLY RODS.

Built entirely at the Society's Factory.

THE "C.-IN-C."

REELS.

"Army and Navy" Best Quality Fly Reel.

3 in. 3½ in. 4 in.
37/6 42/– 50/–
6¼ ozs. 9 ozs. 13 ozs.

Made of Hard Aluminium Alloy. With ball thrust bearing and variable check. The strength of check is increased by turning rim screw to the left.

3 in. and 3½ in. have contracted drums for quick line winding.

To dismount the reel for cleaning, unscrew the left-handed screw in centre of back plate, hold line drum with left hand and unscrew handle plate by turning to the left.

The "Newton" Trout Fly Reel.

2½ in. 2¾ in. 3 in. 3½ in. 3½ in.
16/3 16/6 18/6 20/– 22/6
Weight 3¾ 4¼ 5 5¾ 6½ ozs.

Extra narrow pattern for quick and easy winding.

3½ in. 21/– 3½ in. 24/–
5 ozs. 6 ozs.

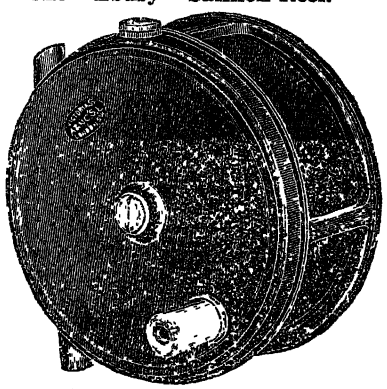

With Agate Line Guard 25/–, 28/–
2nd quality "Newton"
2½ in. 10/– 2¾ in. 11/9 3 in. 12/6

The "Newton" Salmon Reel.

Fitted with spare Check Spring and Pawl and Variable Check.

4 in. 33/– 4½ in. 41/6

The "Ebury" Salmon Reel.

3½ in. 45/6 3¾ in. 47/– 4 in. 49/6 4½ in. 57/9
10 ozs. 10 ozs. 12 ozs. 13 ozs.

A first class ball bearing reel with variable check. Fitted with spare spring and pawl.

The "Felton Crosswind" Stationary Drum Reel.

In winding in, the line is automatically criss-crossed on the drum. This not only distributes it more evenly, but, what is more important, allows the line to come off the drum when casting, without any tendency to cling or pack against the side of the drum, resulting in a greater distance without increase of effort. Easily adjustable slipping clutch. Automatic pick-up.

Salmon Model. Capacity, 120 yds. 9 lbs. Silk Line 82/6
Trout Model. Capacity, 90 yds. 3 lbs. Silk Line 75/–

The "Aerial" Spinning Reel.

Aluminium.

4½ „ „ „ „ 46/6
3½ in. with line guard" 49/–
4 „ „ „ 54/–

Allcock "Easicast" Spinning Reel.

One of the easiest of free running reels to use. The drum is controlled automatically by a brake which is actuated by the pull of the line in casting.

3½ in. 55/–
4½ in. 62/–

The "Lyon" Reel.

A best quality all-metal centre pin Nottingham Spinning Reel, with circular line guard. Optional check of improved pattern, with easy action for reeling in line and strong run out against a fish.

3 in. 3½ in. 3¾ in. 4 in. 4½ in.
24/9 28/6 30/6 33/– 39/–

The "Helical" Casting Reels. (Patent).

Trout "Helical" Reel in fibre case, complete with patent divided rubber backing, oil bottle, and screw driver spanner.

With Auto-Pick-Up £4 0 0
Spare Spool 7/6

Features of the "Helical" Reel are easy and simple adjustment of tension of slipping clutch, adjustment can take place while playing a fish, ample line capacity, gearing completely enclosed.

"Helical" Salmon Reel.

With Pick-Up £5 0 0
Spare Spool 9/6

In ordering "Helical" Reels please state if required for right- or left-hand winding.

The "Helical Twin" Reel.

A simplified make of the "Helical" Trout Reel, with Bakelite Gear Cover and Spool. Auto, Pick-up and Spare Spool £1 15 6

The "Aerialite" Reel. (Patent.)

Made of a new material for which the makers claim the following advantages:—

Cannot warp or corrode.
Practically unbreakable.
Stronger and cleaner than wood.
Suitable for Fresh or Salt Water.
With Optional Check.

3 in. 8/6, 3½ in. 12/–, 4 in. 13/–, 5 in. 17/6

No. 2 "EASICAST" SPINNING REEL. For Salmon, Trout, Pike, etc.

For the novice or expert there is no spinning reel better than the "Easicast," which is automatic in action. It is only necessary to cast in the ordinary way and to leave everything else to the reel. When correctly set according to weight of bait, no overruns can occur. Beautifully made with optional lever check and automatic line control. An Allcock production.

Size 4 ins. (for baits from ¾ oz. to 4 ozs.) 62/-
Size 3½ ins. (for baits from ¼ oz. to 2 ozs.) 55/-

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

FISH TRAPS.

(French.)

These traps are invaluable for keeping down Pike in a Trout stream; no bait required. The trap is set with the pointed end upstream. One of the Society's customers who has used and recommends these traps, advises the use of both sizes—the larger in the main stream and the small one in side streams or drains where young pike spend their time among the trout fry.

Small, measuring 3 ft. 6 in. long each 30/–
Large, measuring 6 ft. 6 in. long „ 40/–
Carriage extra.

ARMY & NAVY BRAKE SEA REEL.

SNOW SPORTS OUTFITS
Early November.

SALES

The following Sales are held annually—

Winter Sale—First or Second Monday in January for 2 weeks.

Summer Sale—First Monday in July for 2 weeks.

White Sale—Second Monday in February for 2 weeks.

Blanket and Down Quilt Sale—First Monday in October for 2 weeks.

A full description of the goods offered at each Sale is included in the respective Monthly Circulars.

Special attention is drawn to the Fashion Salons, in which are displayed the latest novelties in:—

Millinery, Flowers, Feather Mounts.
Gowns and Two-piece Suits.
Coats, and Coats and Skirts.
Fur Coats and Wraps.
Rest Gowns and Dressing Gowns.
Blouses, Jumpers and Knitted Suits.
Silks and Woollen Materials.

HOUSEHOLD LINENS, etc. Special attention is given to this branch, which is stocked with a very large assortment of reliable goods from the best Manufacturers only—including Damask Cloths and Napkins—Cotton and Linen Sheetings, Towels, Glass and Tea Cloths, and every requisite for domestic use. Blankets and Down Quilts in great variety.

ALL HOUSEHOLD LINEN CAN BE MARKED IN INK OR RED MACHINE STITCHING FREE OF CHARGE

CARRIAGE. *Carriage paid on Drapery Textile Goods, irrespective of value, to any Railway Station in the United Kingdom or free to Customer's address if by post. Postage is charged on Haberdashery and NON-Textile Goods under 10/- in Value.*

POST ORDERS. *Customers ordering Drapery Goods by post are assured of prompt and accurate attention being given to their instructions.*

PATTERNS. *Patterns of materials are submitted by return of post. Their return within a week, prepaid, is requested.* (*For Paper Patterns see Page 637.*)

PRICES. *Customers are advised that, owing to the unsettled state of the various markets, it may be necessary to alter the prices in this list without further notice.*

GOODS ON APPROVAL

Goods from the Drapery Department can be sent on approval with the exception of expensive Millinery and Gowns.

OUT OF SEASON GOODS

SPECIAL NOTICE.—As the List contains many articles both for Summer and Winter wear, *out of Season goods*, if not in stock, will have to be procured.

COLD STORAGE OF FURS.

Storage in cold-air chambers has been proved to be the most effectual and only process which affords complete protection from moth.

The Society's arrangements for cold storage include supervision by Fur Experts.

"Dry Cleaning" is detrimental to Furs as it removes the natural oils and the dressing greases, therefore the Society cannot accept responsibility for Furs which have been so treated.

CHARGES.

Customers are requested to mention the amount they desire their Furs valued at when sending for cold storage. Failing this information, the Society's valuation will be that of replacement.

The charges shown include free insurance during the time the Furs are in the Society's possession.

WITHDRAWAL OF FURS FROM COLD STORAGE.

At any time Furs may be withdrawn and returned during the same year without any extra charge being made.

Customers are requested to give the Society a few days' notice when Furs are required from cold storage.

It is necessary that this notice should be given so that they can be kept for a time in an intermediate temperature. This will be found to be of great benefit to the Furs.

COLD STORAGE AND INSURANCE TARIFF.

The amounts charged are for a period of One Year, or for any part thereof from January to December.

Declared Value	Muffs, Ties, Large Stoles	Short or ¾ Garments	Long Coats, Men's Coats and Rugs

£800	75/-	77/6	79/6
£900	85/-	87/6	89/6
£1000	95/-	97/6	99/6

THE SOCIETY'S RESPONSIBILITY.

All Furs are thoroughly examined by experts before being placed in cold storage, and the Society assumes entire responsibility for them during that period.

RE-MODELLING AND REPAIRS.

The Society specialises in the re-modelling of Furs, renovations or repairs.

The New Fur Models in the Society's Salons are always available for inspection to enable Customers to choose a style as a basis for the re-modelling of their own Furs.

Customers are advised to have all re-modelling and repairs to their Furs executed before placing in cold storage, so that the Furs may be ready for wear when withdrawn from storage.

All Furs purchased or re-modelled during the Summer months will be stored free of charge for the first season.

STORAGE OF CLOTHES OTHER THAN FURS.—The prices quoted above are those charged for Fur garments only. Prices for storing clothes other than Furs can be had on request.

In a class by themselves for
STYLE and QUALITY-

Dunlop
LONDON TAILORED

WATERPROOFS

Style, comfort and durability are the outstanding features in Dunlop Waterproofs.

Style is achieved by clever designing and the use of the most attractive materials.

Comfort is ensured by the ***AERTEX*** lining which minimises condensation.

Durability is certain because Dunlop Waterproofs are proofed by the exclusive latex process, which, apart from being the most durable known, is odourless.

Model in style, as illustrated, with pleat at back are available in all popular shades. In large range of sizes at prices ranging from **21/-**

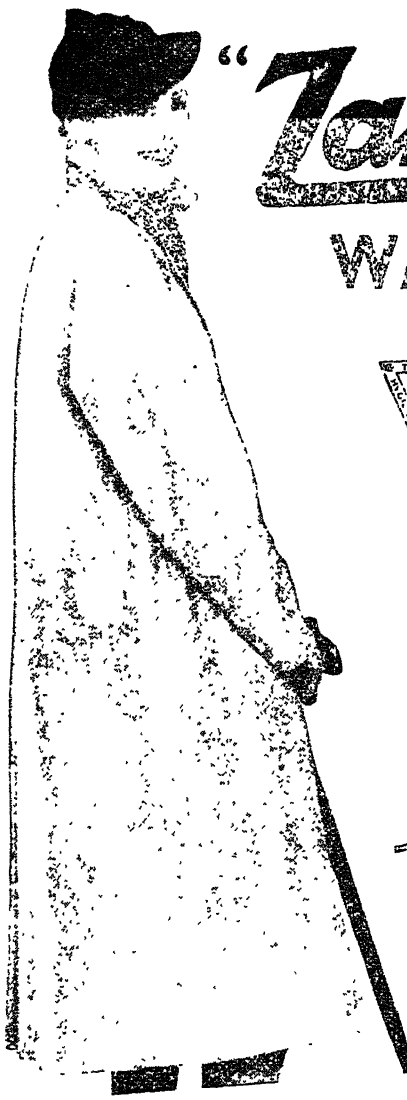

Dunlop TAILORED RAINCOATS :

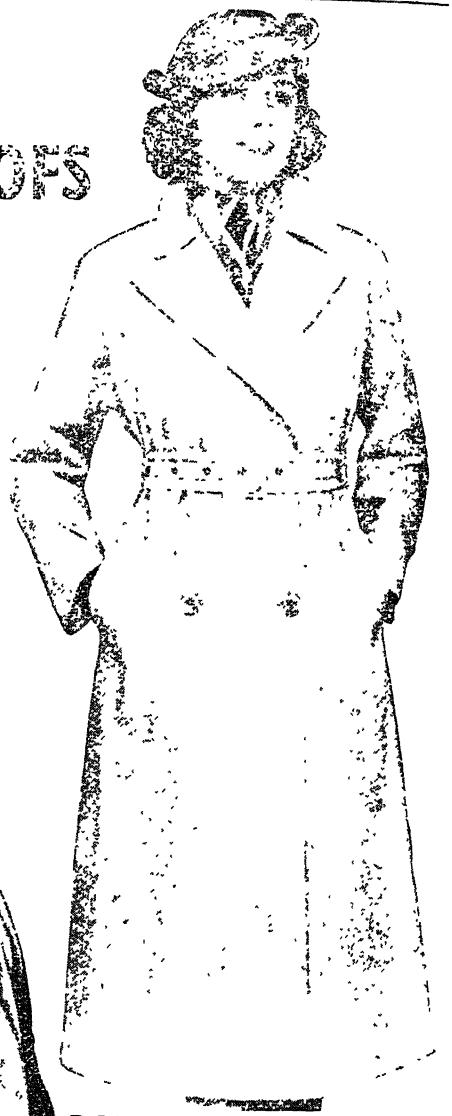

In fine weather Dunlop Raincoats are smart up-to-the-minute light-coats and in bad weather they become guardians of health and comfort by resisting wind and wet. The material used is closely woven gabardine proofed by a rubberless process. D.B. belted style or S.B. without belt and lined throughout with a warm showerproof check material. In several fawn shades. **42/-**

REGISTERED TRADE MARK

Whenever I see hands *(or legs)* in a stocking I think— 'Ah, Aristoc!'

Sometimes (but not often) women say less than they mean. One well-known feminine phrase of only two words may be interpreted as 'What beautiful stockings those are—how fine and dim-surfaced, how flattering to the leg. And how well they match the season's fashion-colours. How blissful to know that they will wear and wear *and wear.*' Or, to put it more briefly—'Ah. Aristoc!'

THE ARISTOCRAT OF SILK STOCKINGS *3/11 to 10/6*

Warmth without weight

The Original LAN-AIR-CEL Cellular Blanket is specially woven to rest on the body as light as a feather . . . to be warm in Winter and cool in Summer. LAN-AIR, the second quality blanket, is made on precisely the same principle but the weave is different and the range of colours and sizes more limited.

TENOVA SOCKS

★ **These Tenova socks need no suspenders. They have no buckles and no sharp edges.** Once on, they adjust themselves instantly to the shape of the leg and the band at the top holds them always gently but firmly in position. This band contains Lastex yarn, and of course goes to the Laundry with the socks. **Tenova self-supporting socks** in a very great variety of daytime patterns, or white for games, are **3/6, 4/6.** and **5/6,** In black silk for the evening they are **7/6** and **12/6.**

Foot Muff with Hot Water Bottle (Gent's Hosiery Dept.)	2 13 0

The Full Wrap Rug completely encircles the waist and provides real warmth to the vital parts of the body, whereas ordinary knee rugs can only with difficulty be made to stay in position round one's back. (Gent's Hosiery Dept.)

Prices 15/–, 18/–, 21/– 25/–, 31/6, 37/6

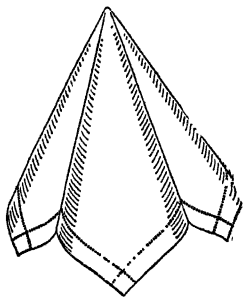

The Rug with the turnover top provides great warmth round the waist as it is doubled to a depth of 8 inches. (Gent's Hosiery Dept.)

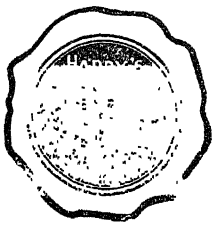

Prices 21/–, 31/6, 37/6, 45/–

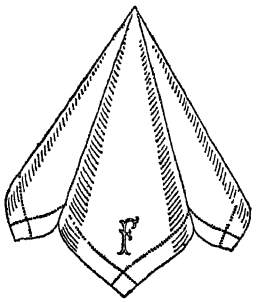

Obtainable with ample pocket closed by a Zip Fastener 7/6–10/– extra according to quality of Rug.

CHINA, GLASS, EARTHENWARE, Etc.

Every care is taken to prevent any of the Patterns illustrated being out of stock, but to avoid possible disappointment or delay it is advisable to select Two Patterns (mentioning which is preferred), in case one of them may be temporarily out of Stock.

THE CHINA includes large selections of Royal Worcester, Minton, Cauldon, Crown Derby, Doulton, Wedgwood, Coalport, Spode, etc.

THE GLASS, consisting of Table Services, Flower Vases, etc., from the best English Manufactories, is shown in great variety.

COCKTAIL CABINETS.—Natural Woodwork in Walnut, Oak and Elm. Bowls, Trays, Boards, etc. Fancy Figures in Tinted Bronze, Metal, Pottery and other material. Charming Novelty Items in Anodised Aluminium.

REPAIRING AND RESTORING.—The Society makes a speciality of this work, and will furnish estimates before proceeding, if desired. Customers who send in articles by the Society's vans are advised that no responsibility can be accepted for breakages in transit between the Customer's house and the Department unless the articles are securely packed by Customers with straw in a wooden box. Boxes and packing material will be supplied on request.

MATCHING ORDERS.—Special attention is paid to these orders, which are obtained as promptly as possible. All patterns should be accompanied by an order, to avoid delay and as a means of identification. Estimates sent when desired. **All Matching Orders must be prepaid.**

REGIMENTAL AND NAVAL MESS ORDERS.—The Society is in a position to execute these orders to the greatest possible advantage. A large selection of suitable patterns always to be seen in Department, and particulars as to price, etc., can be furnished personally or by post.

PACKING.—Goods from this Department are packed in Non-returnable Cases when practicable, but for bulky goods, where special packages are necessary, a charge for the package will be made, for which credit will be given if returned to Society's Empty Case Depot. Goods purchased for Export in this Department are packed in Casks or Barrels and only in " Cases " when specially ordered, as it is found that the risk is reduced to a minimum when packed in the former.

FRENCH FIREPROOF COOKING EARTHENWARES.

These wares differ from the China illustrated on the preceding pages. They are of a porous nature and require to be given a good boil with salted water and vegetable waste before cooking in them. Slight defects—such as small chips, or grains, on the outside parts, when not too conspicuous—must not be objected to. No claims can be entertained on this account.

THE TRAVEL WARDROBE HARDLY LARGER THAN A HAT BOX.

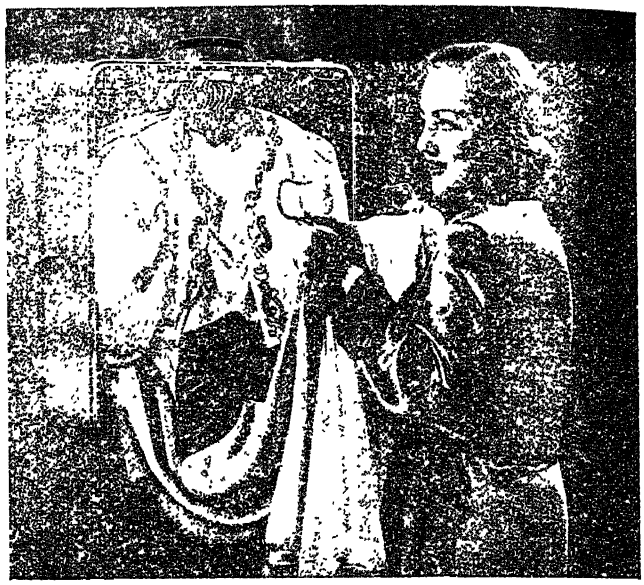

12 DRESSES
FOLDED AND PACKED
IN 3 MINUTES

You don't really pack your [illegible] hang them—straight from the wardrobe into [illegible] a scrap of tissue paper—and no "pressing out" to do at the journey's end

What a perfectly marvellous idea !

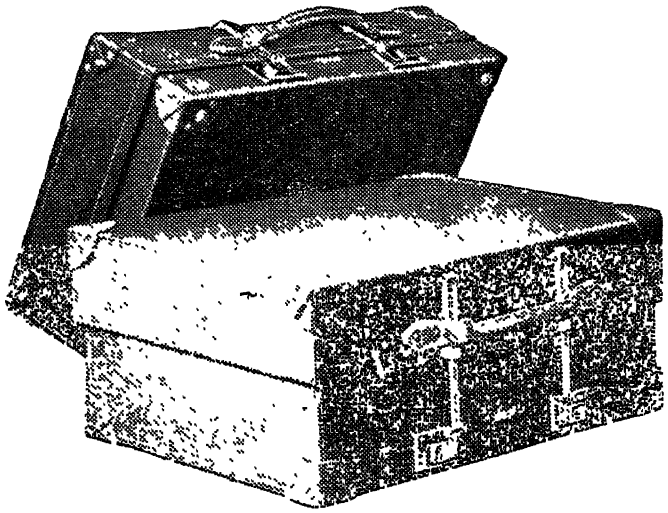

Brown or Blue Vulcanised Fibre 63/-; Brown or Blue Fabric, bound leather 75/-; Cowhide £6 15 0; Rawhide £8 5 0. Size 23 × 19 × 9 inches.

Similar models to the above are also obtainable with SPECIAL COMPARTMENTS for Shoes, Underwear, etc. These models are 15/- extra, except those in Vulcanised Fibre, which are 12/- extra. N.B. These models have 8 hangers.

AUTOMATIC FOLDING—NO CREASING
A REVELATION PRODUCT

There is also a MAN'S MODEL in which 3 to 5 suits can be packed in 3 minutes. From **70/-**

REVELATION
THE SUITCASE THAT ADJUSTS ITSELF

Whether for a fortnight on the Riviera or a week-end in England the SAME suitcase will do—if it's a Revelation.

One Revelation takes the place of several ordinary suit cases of different sizes; you just extend it to the size you want, and—however fully packed—it always closes easily.

Remember, also, a Revelation is luggage to be proud of—it is made throughout by British craftsmen and bears the name which is the recognised hall-mark of distinction amongst travellers of experience.

HOLDALLS, VALISES, HAVERSACKS, SLEEPING BAGS, Etc.

THE IMPROVED WOLSELEY VALISE AND KIT HOLDALL

Weight 11½ lb.
G G. 211.

This article is approved by H.M. War Office as the valise to hold all kit when in the field. It has recently been improved by the lengthening of flaps at top and bottom, and the use of stronger mail canvas, is absolutely impermeable As will be seen, the occupant enjoys complete immunity from wet. It is confidently recommended.
Price, fitted with pack saddle straps, and pocket in flap. Best Quality 90/-
Same pattern, second quality brown canvas 72/-
It can also be supplied in Green Rotproof Canvas This, however, is not recommended, the material not being waterproof to the same degree as the mail canvas. Price 90/-

TROPICAL CANTEENS AND COOKS' BOXES.

THE "LORIMER" CANTEEN. (Regd.)

G.G. 261.

A practical device—after many years' personal experience—to meet the daily needs of Officials who require to be away from their headquarters on tour for many days at a time. One wearies of the tin mug and other picnic adjuncts for such lengthy periods.

The Canteen provides the following :—

1 japanned tray, 3 table knives, 3 dessert knives, 3 table forks, 3 dessert forks, 3 tea spoons, 1 pair meat carvers, 1 steel 1 corkscrew, 1 tin opener, 3 [illegible] cups and saucers. 1 Rockingham teapot, 1 earthenware jug, 3 large [illegible] 3 glass tumblers, 1 [illegible] sandwich box, 2 alum. canisters screw top (for tea and sugar), condiments, 2 glass lined screw top alum. Boxes (for butter and jam, etc.), 2 E.I meat dishes, 3 E.I. dinner plates, 3 ditto soup plates, 3 ditto tea plates, 1 vacuum flask, 1 syphon sparklet.

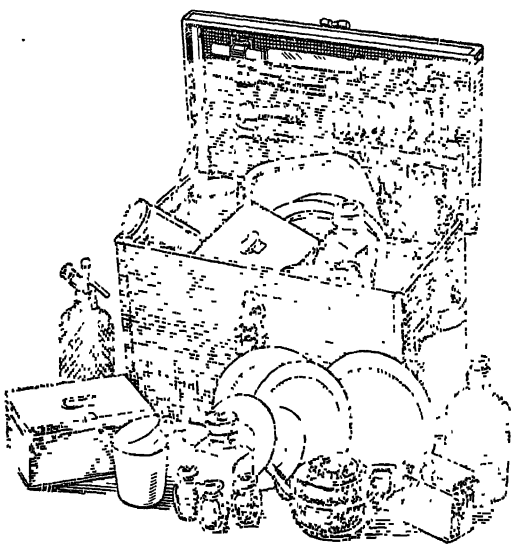

Tumblers, China Cups, etc., are secured in baized lined nests and have been found to travel quite safely both by Head Carriage and Animal Transport.

Beneath the tray are the heavier items, Sparklet Syphon, Thermos, Cooked-food Container, Tea-tray, Dishes and Plates.

Price, Complete, size, 29½ × 18 × 11½ in. **£7 19 6**

Weight complete about 40 lbs.

TROPICAL CANTEEN.

G.G. 262.

Consists of strong case covered Rotproof Canvas and bound with Raw Hide
Size, 21 × 12 × 14 in. Weight, 40 lb.

Contents

2 each enamelware cheese plates and 2 tumblers	2 condiment spoons.
2 enamelware cups and saucers.	2 knives and forks.
1 butter jar in tin box.	2 spoons and 2 dessert teaspoons.
1 sugar canister	2 teaspoons.
2 bottles for pickles or jam	1 meat dish.
2 condiment pots and 2 provision boxes.	1 corkscrew.
1 Rockingham tea pot.	1 can-opener.
1 tea canister.	1 "Sparklet" aeration syphon.

Also made in Basketware, covered Canvas.

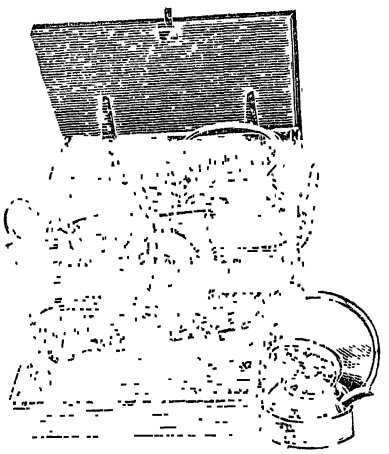

Price, complete **£8 11 0**

THE "LORIMER" COOK'S BOX

G.G. 263.

A necessary companion to the "Lorimer" Canteen. It contains every need for the travelling Cook.

To amalgamate the Canteen and Cook's Box in a single case, as is sometimes seen, is most unsound.

Contents :

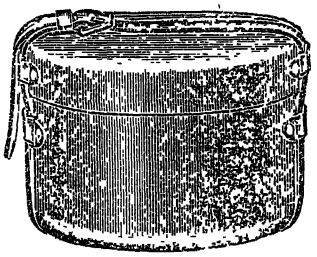

- 1 7 in. alum. camp sauce pan.
- 1 8 in alum. camp sauce-pan.
- 2 detachable handles for same.
- 1 cafetière.
- 1 meat chopper.
- 1 frypan.
- 1 large kettle.
- 1 small kettle.
- 1 mincer.
- 2 cook's knives.
- 2 cook's spoons.
- 1 set skewers.
- 1 alum. sandwich box.
- 1 tin opener.

Size: 21 × 19 × 11 in.

Price, complete **£5 5 0**

Weight complete about 35 lbs.

THE "3 IN 1" BIT. (Swale's Patent.)

3 in 1 Bit

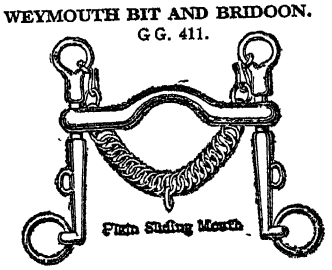

G.G. 410.

Horses cannot hold the "3 in 1" Bit—the large rings acting as cheek pieces, prevent crossing of the jaws or side pulling. With the reins in the cheek, the lightest mouthed will go up to the bit, and the middle bar controls the most inveterate puller or runaway.

Polo ponies answer the rein quickly, are always alert and lively on the bit, and owing to the shortness of the cheeks (3½ in.), there is no danger of their coming in contact with the mallet, or becoming entangled with the reins of another player.

LUNCHEON BASKET FOR RACING OR SHOOTING PARTIES.

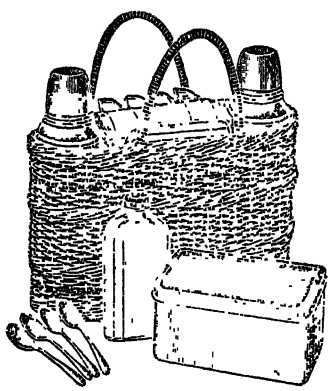

Lined throughout. Fitted for 6 persons.

G.G. 570/516.

Contents: Three bottles, three provision boxes and covers, six wicker covered tumblers, six plates, two meat dishes, six each dessert knives, forks and spoons, one pair carvers and condiment spoons, corkscrew, three condiment jars, butter jar, liberal space under tray for packing extras. Metal bar fasteners and padlock. Size 22 × 16 × 13 in.
Price £9 15 0

THE "DOWNLAND" PICNIC BASKET.

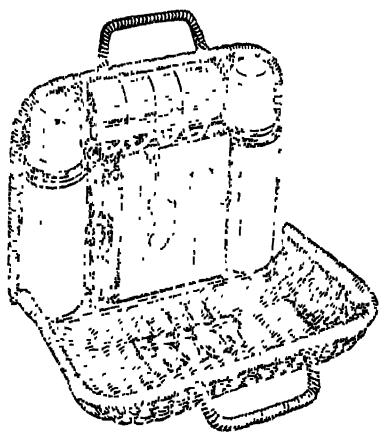

G.G.571

A new idea in picnic baskets. Light enough to climb the hills with, or carry on a cycle, and small enough for the baby car. Weighs under four pounds.

Contents: 4 cups and sugar pot in coloured (non-fragile) Coracle ware, 2 Vacuum flasks, milk bottle, large food box and teaspoons.

For 4 persons. 15 × 15 × 9 in. .. 17/6
For 2 persons. 11 × 5 × 9 in. 12/6

THE "FIELDFARE" PICNIC BASKET.

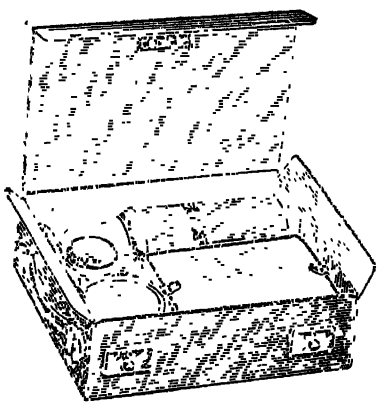

G.G. 572.

A new idea in picnic baskets. Light enough to climb the hills with, or carry on a cycle, and small enough for the baby car. Weight: 5 lbs.

Contents: Four cups and sugar pot in coloured Beatlware; two "Thermos" flasks, milk bottle, large nickel food box, teaspoons. Most ingeniously nested.

For four persons, 14 × 4 × 11 in. .. 26/-
For two persons 9 × 4 × 11 .. .. 19/6

THE "COMPACT" TEA CASE.

For one person. Size 9 × 7 × 3 in. .. 29/6

Superior Case and Thermos flask .. 39/-

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

"ILAT" AND "BANDALASTA" SPECIALITIES.

"ILAT" MILK-BOTTLE CONTAINER.

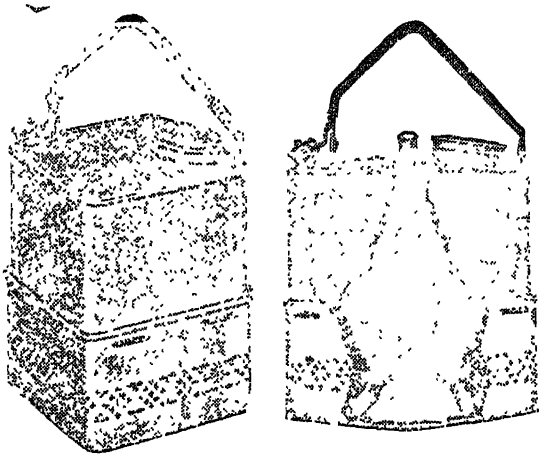

G.G. 574.

A necessity for Picnickers, Hikers or Travellers.

Made of stout gauge Aluminium, with screw lid in which is incorporated a canvas covered rubber washer enabling the standard milk bottle (as delivered by the dairyman to be carried without fear of spilling or breakage. Made in two sizes.

For ½-pint Bottle 2/3
„ 1 „ „ 3/-

"ILAT" QUICK BOILING KETTLE.

G.G. 575.

The "Ilat" quick boiling kettle has been designed, after a great deal of experimenting, and proved to be definitely a "quick boiler." Water sufficient for 6/8 cups can be boiled in 10/12 minutes. As seen by the section drawing, the flame goes right through the centre of the kettle and none of the heat is wasted. Made in copper, tinned inside, rolled nickel on steel or best quality blocked tin-plate.

The kettles can be safely used in the open or in a confined space without a guard, as none of the flame comes outside the stove on which the kettle stands.

Price. Kettle, Stove and Spirit Lamp:

	2 persons	4 persons
Copper kettle and tin-plate stove ..	18/-	21/6
Nickel-plated kettle and stove	20/-	22/6

THE "STANLEY" FLASK.

Non-breakable.

G.G. 576.

No matter how much you use it or how often you drop it, no harm can come to the "Universal" Non-Breakable Bottle. Made of steel, lined with sanitary, crack-proof "Porcelite." Keeps liquids hot 24 hours; cold 48 hours.

Finished in Enamel, with Nickel-plated cap.

1 quart 32/6
1 pint 30/-

BANDALASTA WARE.

G.G. 577.

Especially suitable for Picnic, Garden or Beach Parties, also for Nursery Use.

Bandalasta is now well known as the premier brand of light non-fragile Picnic ware; it is **not**, however, offered as unbreakable but is excellent for all sports purposes as it will stand a reasonable amount of rough usage and is very light, attractive and clean, also it is a bad conductor of heat, consequently the cups, etc., do not burn the fingers when used with hot liquids as do metal ones. Bandalasta is, of course, quite tasteless and odourless in use.

Each pattern is made in a variety of shapes suitable for many purposes and in a large range of attractive colours. This ware is made in England and all genuine pieces are marked "Bandalasta" on the underside.

TENNIS POSTS AND COURT MARKERS.

Something New in Tennis Net Adjusters

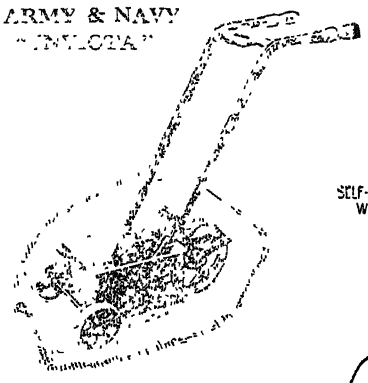

THE "UNIQUE"

A definite improvement on all other Adjusters. It is composed of superior 2-inch Web Band and Adjustable Slide, Nickel-plated Scissor Action Hook, and Galvanised Ground Staple.

It is now unnecessary to grovel on the ground whilst endeavouring to fix the old-fashioned hook to the ground staple, just a snap and the Scissor Hook is securely engaged so that it cannot become unfastened during play. In attractive box.

IRON POLES FOR STOP NETTING.

(Procured to order).

		Best quality.	2nd quality.
Painted Green,	6 ft. high out of ground each	3/-	2/-
„	7 ft. „ „ „	3/3	2/3
„	8 ft. „ „ „	3/9	2/6
„	9 ft. „ „ „	4/-	2/10
Top rods, which are necessary for the above poles, 9 ft. long with adjustable hooks	each	1/9	
Cheaper Quality		1/3	

STOP NETTING (TARRED).

(To order only.)

Fitted with cords top and bottom.

Ex. Stout Quality per yard	6 ft.	7 ft.	8 ft.	9 ft.	10 ft.
	1/6½	1/9	1/11½	2/2	2/4½
Stout quality	1/4	1/6	1/8	1/10	2/-
Medium quality	1/2½	1/4	1/5½	1/7	1/8½

The Stop Netting described above is specially made for the purpose and can be thoroughly recommended. Due allowance has been made to ensure that nets shall set correctly, and it is therefore only necessary to order netting of the same height as the upright. (Old Fishing Netting can be supplied, if required, but no responsibility can be accepted for this.) Prices on application.

Particulars of netting and supports required for three schemes as follows:—

Scheme 1.—One set of Stop Netting for two ends of Court consists of two lengths of 21 yards each; 16 iron upright poles; 14 Top rods; thus providing two 9 ft. wings.

Scheme 2.—Sides are 27 yards and ends 21 yards each, which equals 96 yards of Netting (i.e., 2 pieces 27 yards and 2 pieces 21 yards), allowing a run-back of 12 ft. (as illustrated); 32 Top rods complete with suspending hooks; 36 standards; 8 dozen Ground Pins for pegging netting down.

Scheme 3.—Which gives a run-back greater than the above, sides 33 yards and ends 21 yards each, which equals 108 yards of Netting (i.e., 2 pieces 33 yards and 2 pieces 21 yards), allowing a run back of 20 ft. (as illustration); 36 Top rods complete with suspending hooks; 40 standards; 12 dozen ground pins for pegging netting down.

The measurement of Tennis Courts are as follows:—

Double Court line 78 ft. Single Court line 78 ft.

Centre Court line 42 ft. Base line 36 ft. Service line 27 ft.

NOTICE.

Football, Hockey, Cricket and Tennis Netting should be sent for repair immediately it is taken down. The netting could then be repaired and re-tanned, if desired, and held in abeyance pending instructions for delivery to next season. This would not only relieve the congestion of storage but would obviate the necessity to close your nets at the beginning of the season; freshly tarred netting is safeguarded against damp during the winter months.

The Society will be pleased to submit estimates for repairings, etc., but in the event of the work not being carried out the cost of carriage to and from the netting works must be borne by the owner.

HARD COURT LEAD TAPES.

These Lead Tapes have practically superseded the old style webbing tapes for Hard Court use. They are easily laid and lie perfectly flat.

A set consists of four 78 ft. lengths, 1¼ in. wide
„ „ two 27 ft. „ 1¼ in. „
„ „ two 36 ft. „ 2 in. „ for Base line.
„ „ one 42 ft. „ 2 in. „ for Centre Service line.

Packed in a Strong box, with sufficient nails to effectively hold tapes in position. Price **£5 15 0**

This price varies with the market price of lead and is subject to alteration without notice.

TENNIS SIGHT SCREENS.

Green Treated Canvas Screens fitted with eyelets every foot at top and 6 ft. at bottom.

3 ft. wide .. per yard **3/-** 6 ft. wide .. per yard **6/-**

Prices of second-hand Sight Screens on application. To order only.

Corner Poles, Struts, Stakes and Rope for 3 ft. canvas.

Heavy uprights and top rods for 6 ft. canvas. Prices on application.

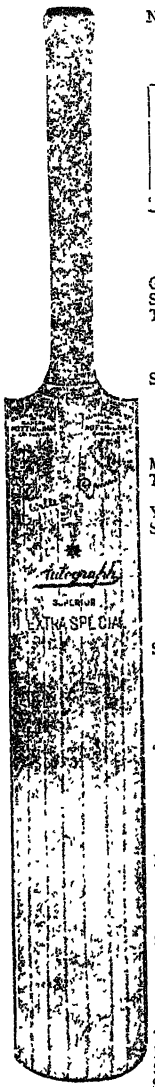

THE ARMY & NAVY LAWN TENNIS COURT MARKING PINS.

For marking all the angles of the court.

Per set of 10 .. .. **3/9**
Cheaper Quality ditto **2/-**

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

CRICKET BATS, GLOVES AND LEG GUARDS.

NOTICE.—The Society recommends, when first using a new Cricket Bat, an old ball be used, as this tends to harden the face, thus making it in every way more suitable for match play.

Bats intended for club use (and not individual members) should weigh not less than 2 lb. 6 ozs.

GOLF ACCESSORIES.

CLOCK GOLF.

For Clock Golf all that is required is sufficient space on a smooth lawn to describe the circle to form the clock face. For practice in "putting" Clock Golf is unrivalled, and the interest it excites at garden parties shows it to be socially a most popular game.

Set of malleable iron clock figures, painted white, cup, pins and chain for marking circle, with rules, in wooden box .. .. each	16/9

GARDEN GOLF.

The very latest Putting Game. Is a practical set which has been designed to fill the long felt want of a means of enjoying a game of Putting Golf in one's own garden. With Garden Golf the turf is not damaged in the slightest degree, as its use obviates the necessity for cutting a hole, thus it can be erected on a tennis court with perfect safety.

PATENT GOLF OVERSHOES.

These are absolutely the best detachable shoes yet invented for golf. They are studded with screw studs which cannot come off, and will not slip on either wet or dry ground, are easily adjusted to any ordinary boot or shoe, and can be conveniently carried in a golf caddy bag. They save the wear of shoes and keep the feet perfectly dry. Ladies', pair 4/11 Gentlemen's, pair 6/11

THE PUTTING GAME.

Can be played all the year round. The game is played with golf balls and putters; the balls are four to the set, and are coloured like croquet balls. The obstacles to be played through include hoops, rings, a tunnel, a bridge, and a tray, which has to be entered up an incline. The full set is very suitable for an ordinary tennis court, and can also be played on small lawns; the various obstacles can also be placed between flower beds.

Set complete in box and Book of Rules, without putters .. 42/–

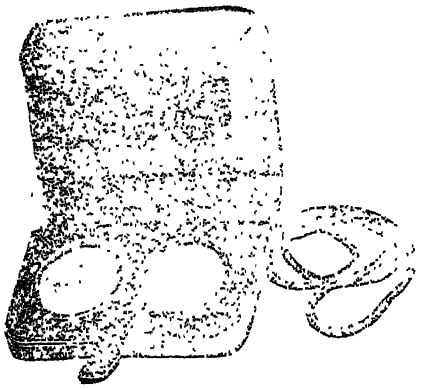

May be played either in or out of doors. It is the best-known system for practising Putting. The object of the Game is (as in ordinary Golf) to do the round of holes in the least number of strokes.

Two Putters, 5 Holes, 2 Balls, etc., complete in box	22/6
Putting Golf, less Putters	12/6

THE ASSOCIATION BADMINTON NET.

This Net has been designed with a view to avoiding the faults of ordinary Badminton Nets. There is a broad white band along the top of the net, the latter being 2 ft. 6 in. deep and of strong, tanned cotton, with a mesh that does not allow the shuttlecocks to pass through. Its lightness admits of its being easily strained quite tight and straight along the top.

2nd quality 20 15 0

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

ARCHERY.

The following Accessories are similar to those generally used in Archery Tournaments, and are suitable for either Ladies' or Gentlemen's use.

BOWS.

To String and Unstring Archery Bows.

Warning.—The flat part of the bow is the outside, and should be kept nearest the body in the act of stringing, or bow will in all probability be broken

To String.—Hold the bow in the centre by either hand (whichever is more suitable to the archer), place the end on which the string is made a fixture in the hollow of the foot (not resting the bow on the ground) then pull strongly with the hand at centre of bow and press the string forward with the other until it reaches the nock made for it in the horn tip.

To Unstring.—The same attitude to be observed as when stringing, only pulling with the one hand and pressing with the other, so as to slacken the string, which should then be slipped out of the nock by the forefinger.

When the shooting is over, the bow should be unstrung. The bow must not be left or kept in a damp situation, and when not in use should always be kept in a bag.

Ladies' Bows, 5 ft. 3 in. :—

Lemonwood	each	18/-
Lance and Hickory	,,	29/-

The strength of the pull of the ladies' bows is between 20 and 30 lbs.

CROQUET AND POLO REQUISITES.

THE "[illegible]" CROQUET HOOPS.

(Patent No. 26994.)

Interchangeable Hoops.

In order to avoid the great inconvenience of drilling fresh holes on lawns where it is found desirable to use both 4-in. and 3¾-in. hoops, these Hoops have been made interchangeable. As will be seen by the illustrations, the 3¾-in. are so formed that they can at once be fitted into the holes from which 4-in. hoops have been removed, and vice-versa. A lawn can thus easily be re-set in two or three minutes.

SIX ENAMELLED HOOPS, with double drill, in strong wooden box.
3¾ in. wide.
¼ in. thick 38/6
⅜ in. thick 48/–

SPALDING'S—THE BOSSIE PHELPS ROWING MACHINE.

£7 17 6

THE F. H. AYRES' IMPROVED HYDRAULIC SCULLING EXERCISER.

(Patent No 11131/1907)

The stroke practised on this machine [illegible] that of actual sculling where the stronger the pull, the greater the resistance, an effect which in the Exerciser is quite naturally imitated by the corresponding resistance of the water in the cylinders. For training, [illegible] of different weights can be effected by the rower from the seat, by the simple process of turning a screw. The sculls are so constructed as to permit of their being used as sculls, and turned in imitation of "feathering." An improved sliding seat is provided. The Exerciser can be operated anywhere and admits of being readily packed away when not required for use.

Each to order only £14 10 0

AUTOMATIC STRIKING BAG.

Improved Pattern.
Registered No. 501150.

The illustration of this Striking Bag shows that the support has no spring, but is set firmly into the iron base, which, having a rounded bottom, permits of the necessary oscillation. The bag is made in a manner which renders it exceedingly strong and durable, the support passing entirely through it and the bladder. There is [illegible] of bag breaking away. Even should the bag be struck completely horizontal, it will recover its upright position instantaneously. 90/-

OUTDOOR GAMES.

PADDER TENNIS

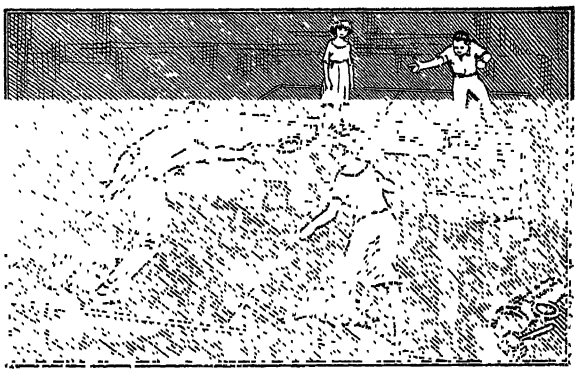

A great new sport that everybody with a garden or schoolroom has room for

Padder Tennis has received a hearty welcome from people who appreciate the pleasure and exercise obtained from lawn tennis, but have not sufficient room for a full-sized court The court is only 13 yards long by 6 yards broad.

Though played on a quarter size court, it is a real sport. The racquets and balls are as heavy as those used for lawn tennis, and so designed that the same force is required to send a ball the length of the court as in the full-sized game. The game is extremely fast and strenuous

Complete with 4 bats, 4 balls, net, posts, etc 45/-

The "ARMY & NAVY" MODEL BILLIARD TABLE.

With Improved Cushion Rails.

These Tables are well-constructed facsimile models and in no sense toys. A special composite board replaces slate bed and, with the help of good quality cloth and rubber cushions, an excellent reproduction of the run of the balls on a full-size billiard table is secured. These Tables embody patented improvements in construction, which render them practically equal in stability to slate-bed tables. The laminated bed is ingeniously rabbeted into continuous side-rails which eliminates the necessity of the heavy battening usually considered [illegible] vent the sagging of the bed. The [illegible] of a slate table with approximately a quarter of the weight.

Each table is fitted with leather-covered brass pocket plates and adjustable feet. Two ash cues, a set of three composition balls, a marker and a copy of the rules are included.

No. 3a. 4 ft. with 3 ft. 6 in. cues and 1 in. balls	£2 2 0

Tender 3/6

"PRINCESS ELIZABETH."

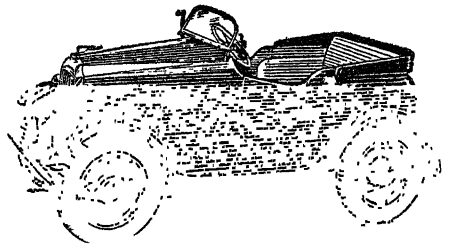

20-volt Electric Locomotive with Tender. Automatic Reversing.

This is a magnificent Hornby scale model of the L.M.S. 4-6-2 "Princess Elizabeth" locomotive. It includes all the main features of the actual engine—massive six-coupled driving wheels, outside cylinders and motion, tapered boiler and fire-box, oval-headed buffers at the front, accurate internal details of cab and tender and Royal Arms Type. The new Hornby 20-volt automatic reversing motor that is fitted ensures abundant power and takes "Princess Elizabeth" the ideal engine for the fastest and heaviest trains The enamelling and lining follows L M S practice faithfully, and the general finish is of the highest Hornby quality.

Complete, with tender, in special presentation box **£5 5 0**

RADIO AND TELEVISION.

ULTRA T22.

In the T22 Television Receiver there are six vital points of consideration: (1) Ease of Control, for good pictorial tone values; (2) Picture Clarity, for well defined detail; (3) Picture Steadiness, ensuring rock steady pictures against all interference; (4) Reliability; (5) Picture Size (7½ × 6½ in.); (6) Economy. Combined as they are, in this instrument, in a really handsome Walnut Table Model Cabinet, is it to be wondered at that they are rapidly becoming the true standard of comparison .. .. **28 gns.**

BUSH RADIOGRAMOPHONE.

In common with other Bush Models, this Radiogramophone is equipped with Bush Button Tuning. Six buttons operate stations, three additional buttons do duty as wavechange switches, and the one remaining button serves as a gramophone switch. All wave changes for Bush Button stations are automatic. It has a 5-valve (inc. rect.) all-wave superhet chassis, with an 8 watt quality output. Apart from those programmes received by Bush Buttons, Manual Tuning is, of course, available for Short (16.5–51 m.), and Medium (185–550 m.) and Long (850–2,000 m.). Cabinet size: 31 in. high × 30 in. wide × 19 in. deep.

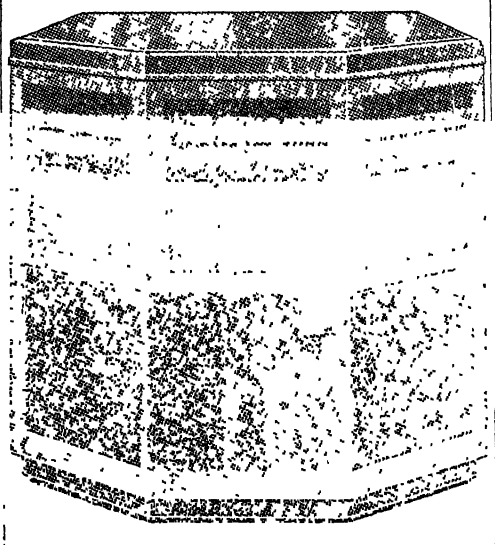

Model R.G. 52 .. .. .. **24 gns.**

Model R.G.52 G, with extra large speaker **26 gns.**

Either of the above models can be supplied fitted with Garrard Automatic Record Changer at **6 gns.** extra.

The Radiogramophone undoubtedly provides [illegible] and effective form of home [illegible] and upkeep costs. Models are now [illegible] all A.C. supplies and for D.C. [illegible] voltages between 200-250 volts [illegible] best makers' most popular models are kept by the Society and a demonstration of one of these instruments will be gladly arranged upon request.

H.M.V. MODEL 801 RADIOGRAMOPHONE.

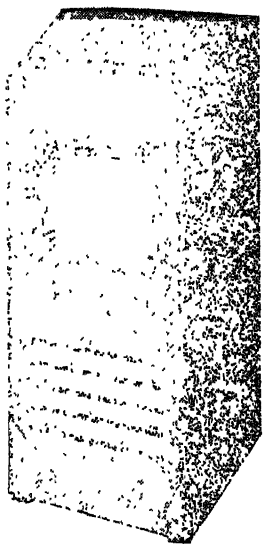

This superb instrument, fitted with three loud speakers, provides high quality reproduction of both radio and records, with sufficient volume, if need be, to fill a small hall. The powerful 10 valve circuit enables short wave programmes on wavelengths between 7 to 140 metres to be received from all parts of the world, besides those of European stations on the medium and long wavebands.

Coloured indicators show which waveband is in use. Two-speed tuning, station names, separate bass, and treble controls, new type tuning indicator, Electric clock, automatic record changer for 8 records, counterweighted high fidelity pickup. Supplied in magnificent walnut figured cabinet with five record albums and provision for extra record storage. Size 35½ in. high × 40½ in. wide × 26 in. deep. For A.C. mains only. Consumption 200 watts (5 hours to 1 unit). Max. undistorted output 10 watts .. .. .. **80 gns.**

HIRE PURCHASE TERMS UPON APPLICATION.

Please state mains voltage and type of supply available (A.C. or D.C.) when ordering Radio instruments.

COSSOR 1210

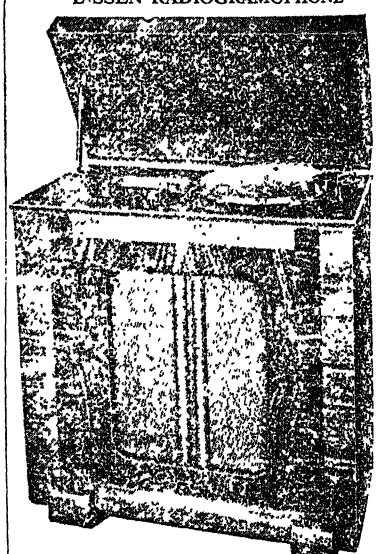

A very attractive all-purpose instrument embodying the latest Cossor giant Cathode Ray tube (15 ins. diameter) and giving a brilliant direct-vision black and white picture, 12×9½ ins., together with accompanying sound. In addition, this model provides for the highest quality radio reception on wavebands 16 to 52, 195 to 560 and 810 to 2085 metres. Handsome Walnut Cabinet, 48½ × 20½ × 24½ ins. deep. For perfect Television up to 20 miles (approx.) from Alexandra Palace.

48 gns.

Model 1210A, as above, but for ranges over 20 miles and for exceptional conditions **51 gns.**

LISSEN RADIOGRAMOPHONE

5-valve all-wave Superhet for A.C. mains operation housed in a handsome contrasted walnut cabinet specially designed to ensure acoustic fidelity. Pentode output circuit. Automatic volume control. Tone control. Seven tuned circuits. Energised M.C. Speaker. Keenly selective .. **£16 19 6**

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

RADIO PORTABLES AND TABLE MODELS.

ROBERTS M4Q.

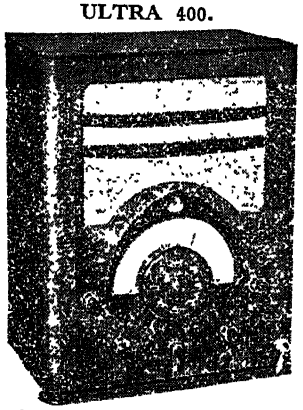

Represents a definite advance in the design of portable receivers in performance, appearance and utility. It will receive all worth-while stations, while the volume and high quality reproduction are comparable to a mains driven receiver. In appearance it is outstanding for its quiet dignity and high standard of finish.
For carrying purposes the controls are covered by a hinged lid, which can be locked. A cover is supplied inclusive with the set. The weight is approximately 20 lbs. complete. Size 11⅛ × 11⅛ × 7 in. .. .. **9 gns.**
Complete with Waterproof Cover and Turntable.

The Society has a comprehensive stock of Radio Sets and Radiogramophones by the leading makers and full details of any instrument will be furnished on request. Customers are invited to inspect the varied stock and the Society will be pleased to arrange for demonstrations.

Skilled service engineers are employed by the Society and repairs of all kinds can be carried out promptly.

ULTRA 400.

A 6-valve (with Magic Eye and Press Button Tuning) 8-stage All-Wave Superhet. Variable Selectivity and Delayed Automatic Volume Control. A.C. Mains only .. .. **13½ gns.**

SERVICE

Owing to the rapid development and frequent alteration of wireless apparatus, Customers are respectfully requested to note that the Society cannot undertake to accept the return of goods for exchange or credit which have been correctly supplied. All valves are tested and guaranteed to be in perfect order when despatched.

The following maintenance services are now arranged by the Society for the convenience of Customers residing within 12 miles' radius from the Stores :—

(*a*) Accumulator recharging service :

Rates, 2 volt	10/6	per 12 calls.
Rates, 4 volt ..	16/6	" "
Rates, 6 volt ..	19/6	" "

These arrangements include collection, delivery and recharging of the accumulators, either weekly or fortnightly as required ; if desired, accumulators can be connected to the set (at Customer's risk) at an additional cost of 10/- for 12 calls.

Contracts for recharging accumulators are only undertaken on the understanding that :—

1. A series of not less than 12 calls is booked.
2. That no credit can be allowed for calls not taken in the event of the contract being broken.
3. That all contracts are payable in advance.
4. Contracts are automatically renewed upon expiry, in the absence of instructions to the contrary.

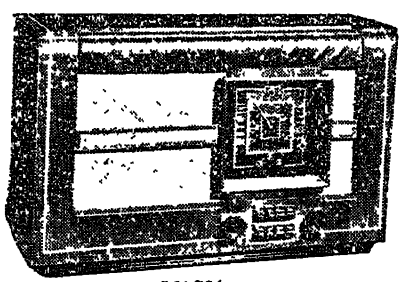

(*b*) Maintenance Service.—The Society undertakes the regular inspection and adjustment of Wireless Sets on the following terms :—

Within a radius of 3 miles of the Stores ..	£1	11	6	per annum
Within a radius of 6 miles of the Stores ..	£2	2	0	per annum
Within a radius of 10 miles of the Stores ..	£3	3	0	per annum

The above service includes six visits per annum, which will be made on a regular date alternate months. The above charges do not include the cost of supplying batteries, valves, etc., and in the event of alteration to aerials or loud speaker extensions being required this will entail an extra charge.

Full details on application.

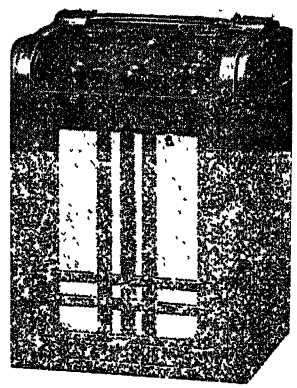

MULLARD.

MAS24.

Press-Button 5-valve All-Wave A.C. Mains Superheterodyne. Has the new Mullard Press Button Tuning, the Noiseless H.F. Pentode that gives wonderful results on far-distant stations. "Inverse Feed-Back" Circuit. (MUS24, price 14½ gns., incorporates a Converter Unit for D.C.) .. .. **13½ gns.**

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

BOOKS, BOOKBINDING, AND FOREIGN POSTAGE STAMPS.

This list is not intended to be in any way complete, but merely suggestive of the scope of the Society's stock.

TELEPHONE ORDERS.—These have immediate attention, and Books in stock are forwarded per return.

NEW BOOKS.—All new books of importance or general interest will be in stock immediately on publication. Any book can be ordered in advance of publication and will be forwarded when ready.

BOOKS OUT OF PRINT.—A thorough search will be made, when required, for scarce books and those out of print. There is no charge for this service.

FOREIGN BOOKS can be supplied to order and, if not obtainable in London, can be specially ordered from abroad.

MAGAZINES, NEWSPAPERS AND WEEKLY PUBLICATIONS.—The Society has made arrangements with Messrs. W. Dawson & Sons, Cannon House, Pilgrim Street, Ludgate Circus, London, E.C.4, for the supply of these Publications to its Customers.

Communications may be sent DIRECT TO MESSRS. W. DAWSON & SONS, mentioning THE ARMY AND NAVY STORES.

BOOKBINDING AND THE RESTORATION OF OLD BOOKS AND BINDINGS.

Bookbinding

in all its branches is undertaken, and Customers may confidently entrust to the Society work of this kind, which is carried out by craftsmen who take the greatest care with every detail and use only the best materials. The result is a book in a binding of perfect flexibility that will last.

The Restoration of Old Books and Bindings

is a special feature of this Department. The work of restoration is done by specialists, and is executed in a manner which in the result preserves the all-important antique appearance of the original.

Special attention is also given to the Re-binding of

BIBLES, PRAYER BOOKS, AND CHURCH SERVICES

in Morocco, Calf, or Ivory.

Silver Corners, Clasps and Crosses can be fitted to any Book.

The edges of all Books will be trimmed, unless instructions are given to the contrary.
The Society will not hold itself responsible for Books left to be bound if unclaimed after a lapse of six months.

ESTIMATES WILL BE FORWARDED ON APPLICATION.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

BOOKS IN PRESENTATION BINDINGS.

GLOBES and ATLASES by PHILIPS . . .

A GLOBE or an atlas is an essential part of every well-equipped home. Whenever discussions lead to dissensions it is usually a map that is turned to; because of their clarity, accuracy, and pleasant appearance a Philips' Map should be your referee, or consultant. A few of our products are listed below; further details on application.

THROUGH THE BIBLE

by

THEODORA WILSON-WILSON

With 32 Colour Plates by C. E. and H. M. BROCK

35 Half-tone Plates and 66 Line Drawings

There have been many Bible story books published for children—none of them perfect. *Through the Bible* is the result of years of searching for just that missing perfection; and in combining the work of this favourite author of children's Bible stories with that of two of the most popular artists of the day, the publishers believe that they really have at last found it. The fierce vigour of the Old Testament, the infinite tenderness of the New—both have been completely captured in these wonderful pictures.

Size, 8¾ x 6½ in.
Bound in Sundour Cloth, 7/6 net.
Wonderful full-colour Wrapper.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

THE STUDIO

COURT PHOTOGRAPHERS

Specialists in Water-colour, Pastel, Oils & Miniatures

The newly designed studio with direct approach from the ground floor has been equipped with every modern convenience, which transforms an ordeal into a pleasure.

A combination of multi-point lighting and high-speed materials allows an instantaneous exposure to be made, so avoiding the "set" expression associated with old type portraiture.

Photographers are available for weddings, out-of-door groups and at-home portraiture.

The reproduction of old and faded photographs receives special attention, great care being taken to ensure that the original likeness and detail are preserved.

Passport photographs are finished with every expediency, no previous appointment being required.

The studio remains open for appointments on the occasions of Their Majesties' Courts, and is directly approached by entrance in Francis St.

Applications are invited for an illustrated folder, wherein will be found details of the Society's charges.

A Special Feature are the facilities available for Child Portraiture, a happy expression being caught with an unobtrusive camera whilst the child is at play.

BAROGRAPH AND WEATHER RECORDERS.

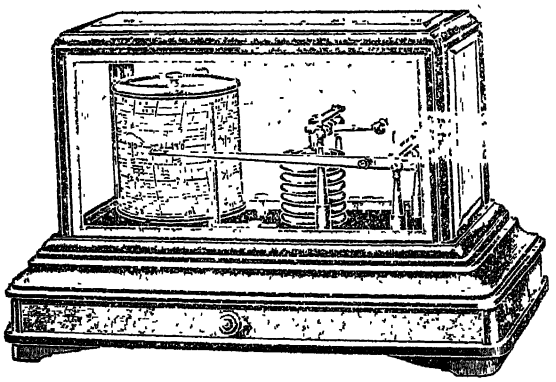

The Barograph is a most reliable form of barometer in indicating the present-time atmospheric pressure, but its special value lies in the continuous hourly record which it creates, of every fluctuation of pressure for seven consecutive days, showing not only the extent of the various changes, but also the time of their occurrence.

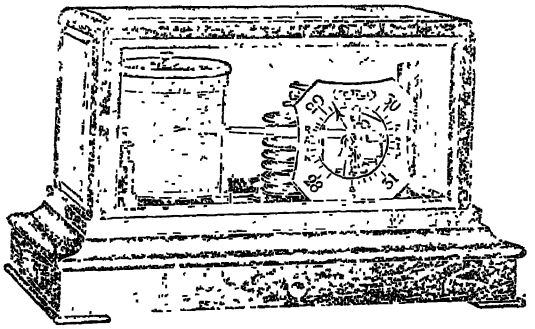

P.G. 142.
Barograph with simplified compensated movement. Sheet glass cover. In light or dark oak and mahogany.
Price £6 15 0

CATERING, HIRE and RESTAURANTS

HIRE SECTION

Temporary Ball and Supper Rooms, Marquees, Awnings, and Bazaar Stalls erected. Polished Floors laid for Dancing. Plated Goods, Glass, China, Cutlery, Linen, etc., supplied on hire by the day, week or longer period.

RESTAURANTS

On Ground Floor, the Lounge Café and Soda Fountain: on First Floor, the Empire Room: on Third Floor, the Nelson, Wellington and Tower Rooms. Breakfasts à la Carte, from 9 a.m. Luncheons à la Carte or Table d'Hôte from 12 to 3. Afternoon Teas and Light Refreshments. Banquets, Dances and Evening Receptions.

RESTAURANT LICENCES

A Restaurant licence for the sale of Wines and Beer is held for the Nelson, Wellington and Tower Rooms, to enable Wines and Beer to be served with Luncheon, and a FULL licence, including spirits, for the Empire Room.

CATERING SECTION

Complete Catering arrangements can be undertaken in Town or Country for Wedding Breakfasts and Receptions, At Homes, Garden Parties, Dinners, Luncheons, Ball Suppers, Cinderella Dances, Coming-of-Age Festivities, Municipal Banquets and Receptions of all kinds. Also Luncheons and Teas for Regimental and other Clubs at:— "Epsom," "Ascot," "Lords," "Henley," Cricket Weeks, etc.

Enquiries for Catering contracts of all kinds are invited and will be promptly dealt with.

CATERING SECTION.

All orders are carried out under the personal supervision of the Manager of the Catering Department, or a competent official appointed by him.

A responsible representative will be sent by appointment to Customers' residences, or to Halls, Assembly Rooms, etc., *free of expense*, to receive instructions and obtain all necessary particulars regarding catering requirements.

Advice concerning the general arrangements for functions of all kinds is always avai able.

The following specimen menus and particulars concerning them are calculated to meet general requirements, but special seasonable menus and estimates will be prepared for any particular entertainment, and other information furnished, on application by letter to the Secretary, or personally to the Manager of the Catering Department.

Unconfirmed verbal estimates will not be recognised.

The Catering arrangements for the Royal Horticultural Society, both at the New Hall, Greycoat Street, and the Old Hall, Vincent Square, are under the direction of the Society.

SPECIAL NOTICES.

Attention is directed to the following regulation :—"No member of the Staff is allowed to accept gratuities, either in the Restaurant or at Customers' Residences," and their co-operation is requested. To meet the wishes of those who desire to recognise the services of the Staff, gratuity boxes are kept in the Restaurant and the contents distributed among those concerned.

Orders for Catering and Goods on Hire are not subject to the usual allowance for carriage.

The prices quoted for goods on hire are for one day's use, except when otherwise stated.

Hire for 1 day charged at prices in list.
" " 2 days " as 1½ days.
" " 1 week " as 2 "

Special quotations are given for Temporary Rooms and Marquees required for more than one day's use.

ALL the Catering, Furnishing and Decorations for many of the most important functions in the past have been entrusted to the Catering Department and the frequent replenishing of stock with the most up-to-date equipment and furniture (which is available for use or hire), together with the Department's extensive experience, makes the Society's Catering Service completely efficient to handle every requirement.

Hostesses and Hunt Secretaries may safely leave all details for the attention of a competent and reliable staff.

A responsible representative will be sent by appointment to take full particulars, either in Town or Country, free of all expense.

TEMPORARY ROOMS.

THE illustration above shows the interior of a Temporary Ball Room. These convenient and substantial structures can be erected up to 40 feet in width and 60 feet upwards in length, and are ideal settings for important social occasions. Erected on any available space in any part of the country, these temporary structures are perfectly weatherproof and well ventilated, electrically lighted, and, being constructed on wood framework, are entirely independent of poles or other means of interior support. The decoration can be carried out in any style or colour scheme. Corridors decorated *en suite* can be constructed to connect with other rooms, conservatories and the main building, and Alcoves can be provided for musicians as shown.

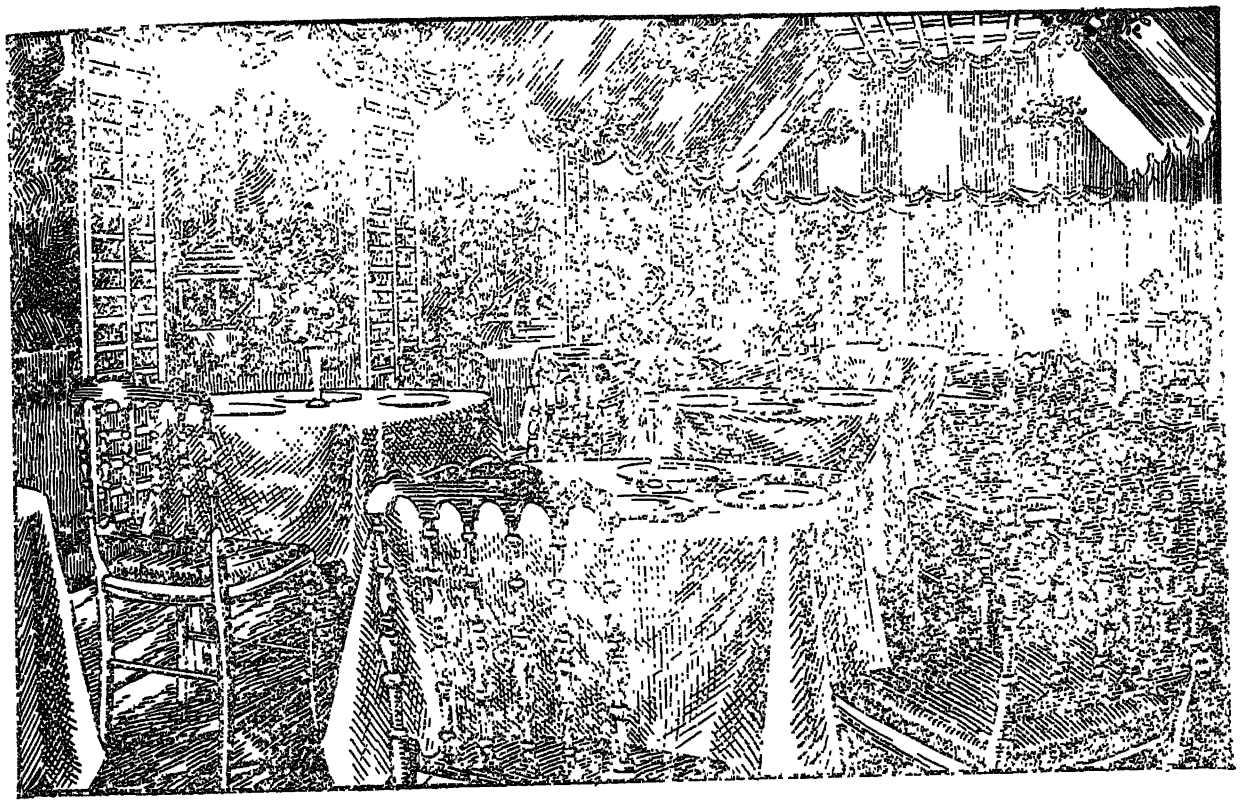

Heating can be arranged by open or closed fires (burning ordinary fuel) or oil stoves, for which quotations will be given to suit requirements.

Furnishing by means of Settees, Easy Chairs, gilt chairs and gilt upholstered rout seats can be provided.

A representative can be sent, by appointment, to inspect the site and take measurements for the purpose of preparing and submitting an estimate. No charge would be made for this service and no obligation would be incurred.

TEMPORARY GARDEN PAVILIONS

ARTISTICALLY LINED AND CARPETED.

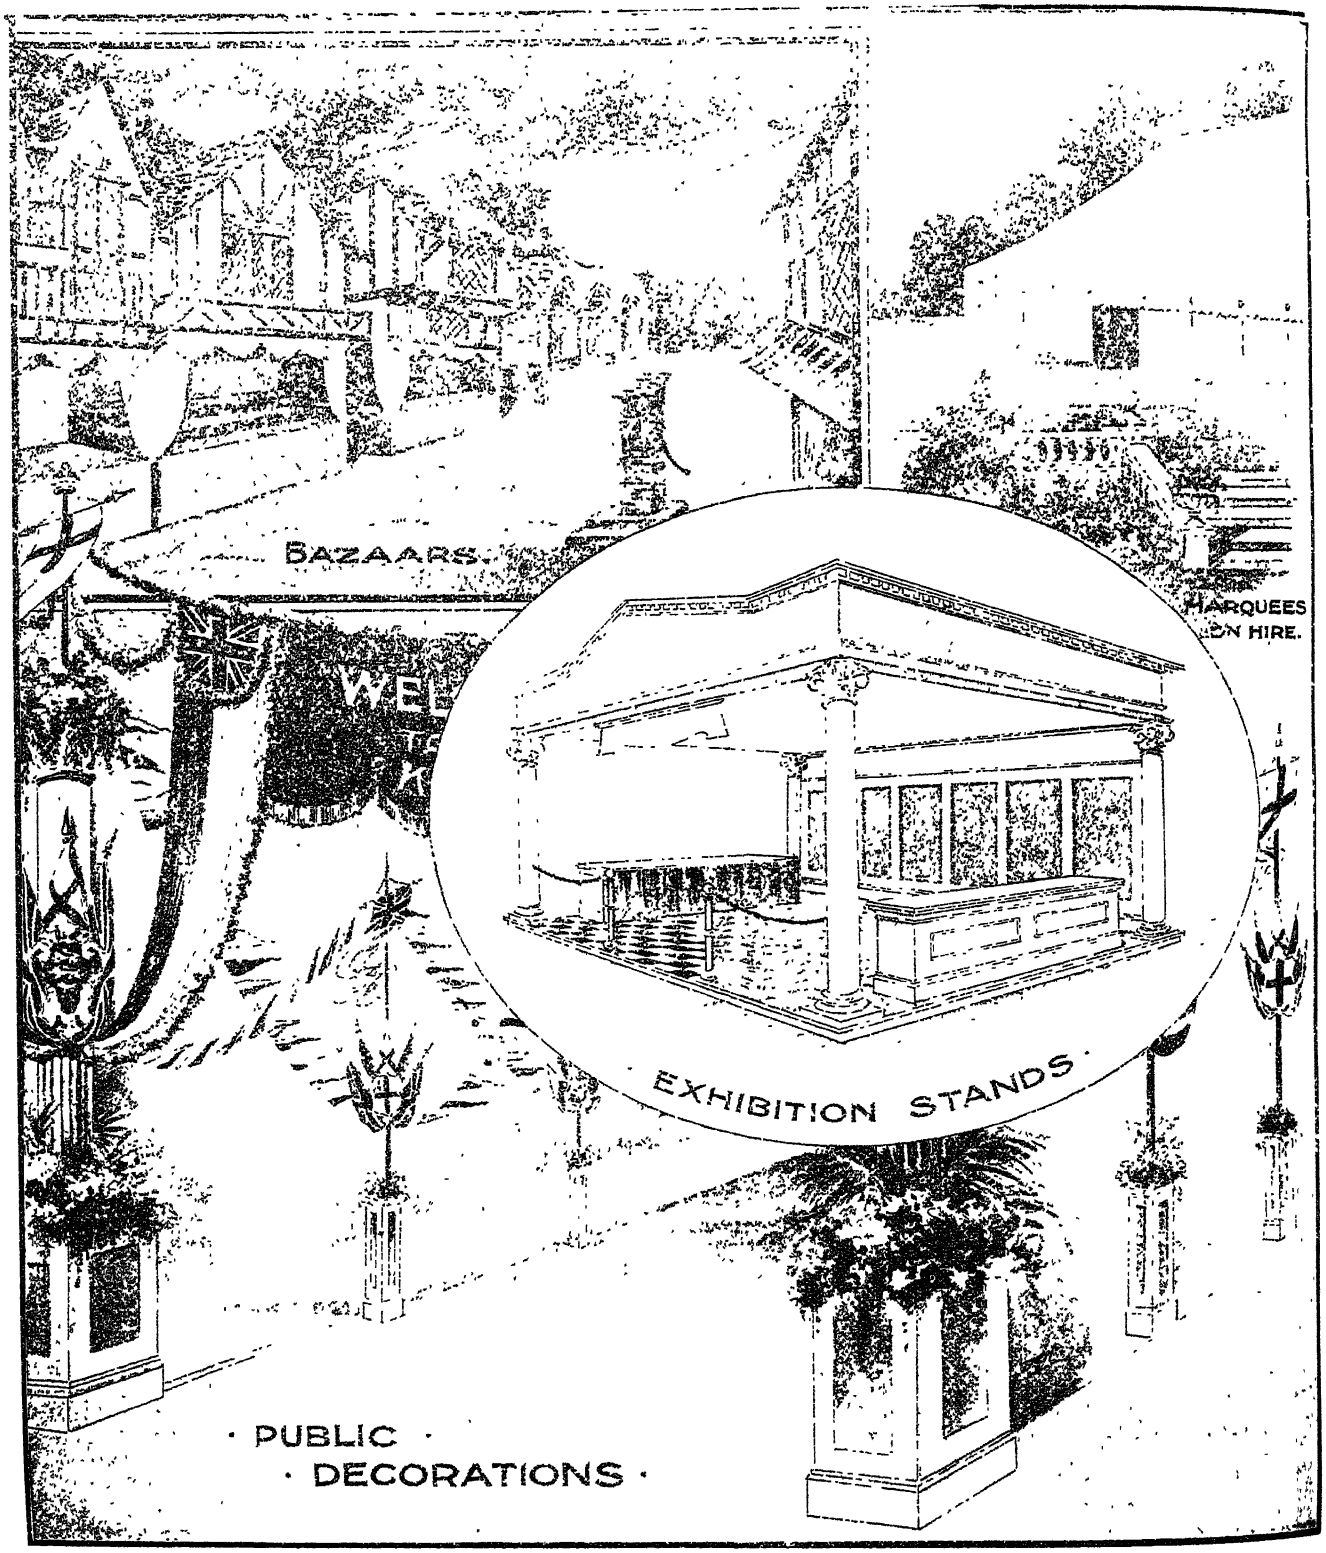

GARDEN PAVILION.

THIS Pavilion, although light and pleasing in appearance, is a very substantial structure, and nothing more suitable has so far been devised for the service of Refreshments at Garden Parties or similar forms of entertainment. It is constructed on framework, and has no interior supports, projecting lines or struts. A projecting porch extends the whole length of the frontage supported by white lattice pillars as shown, or slender fluted wooden columns.

INLAID OAK PARQUETRY DANCE FLOORS.

For use in Private Houses, Temporary Rooms, Marquees, etc., supplied on hire at 3/– per square yard including laying, within the 15 mile radius. Beyond this distance an extra charge is made to cover the cost of transport and the time and fares of the staff.

Ditto, 4 ft. by 2 ft. 6 in., with drawers	7/-	5/-

These Prices are inclusive of delivery in London or Free on Rail, London, for orders of not less than £2 in value.

OWING to the uncertain climate of Great Britain, the highest class Camp Equipment only is supplied by the Society.

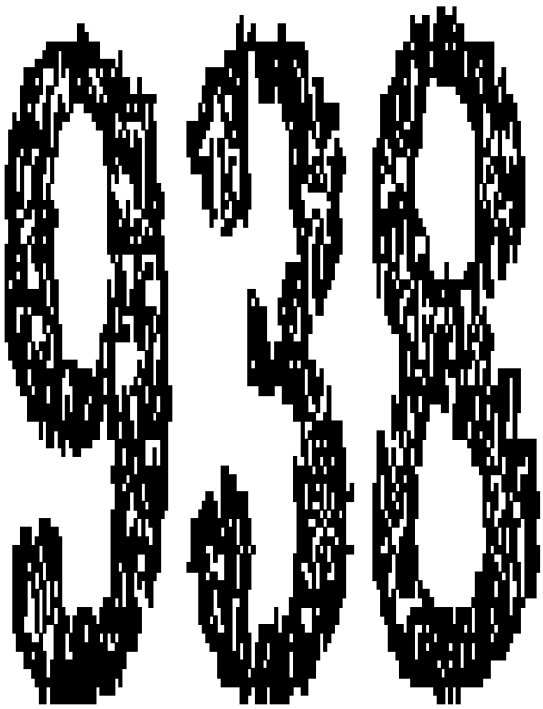

The danger to health in camping in old worn-out service tents (seldom waterproof or hygienic) cannot be too strongly emphasized. The tents offered are manufactured on the same lines as those supplied to the War Office.

Each season the demand far exceeds the supply available ; therefore, it is desirable to place provisional orders for summer camps as early in the year as possible.

GARDEN TENTS, CANOPIES, ETC.

Square Garden Tents 6 ft. by 6 ft. striped or plain canvas	per day	**12/6**
„ „ „ 8 ft. by 8 ft. „ „ „ „	„	**20/-**
„ „ „ 10 ft. by 10 ft. „ „ „ „	„	**25/-**
Canopies, 6 ft. diameter, striped or plain canvas	„	**5/-**
„ 7 ft. „ „ „ „ „	„	**7/6**

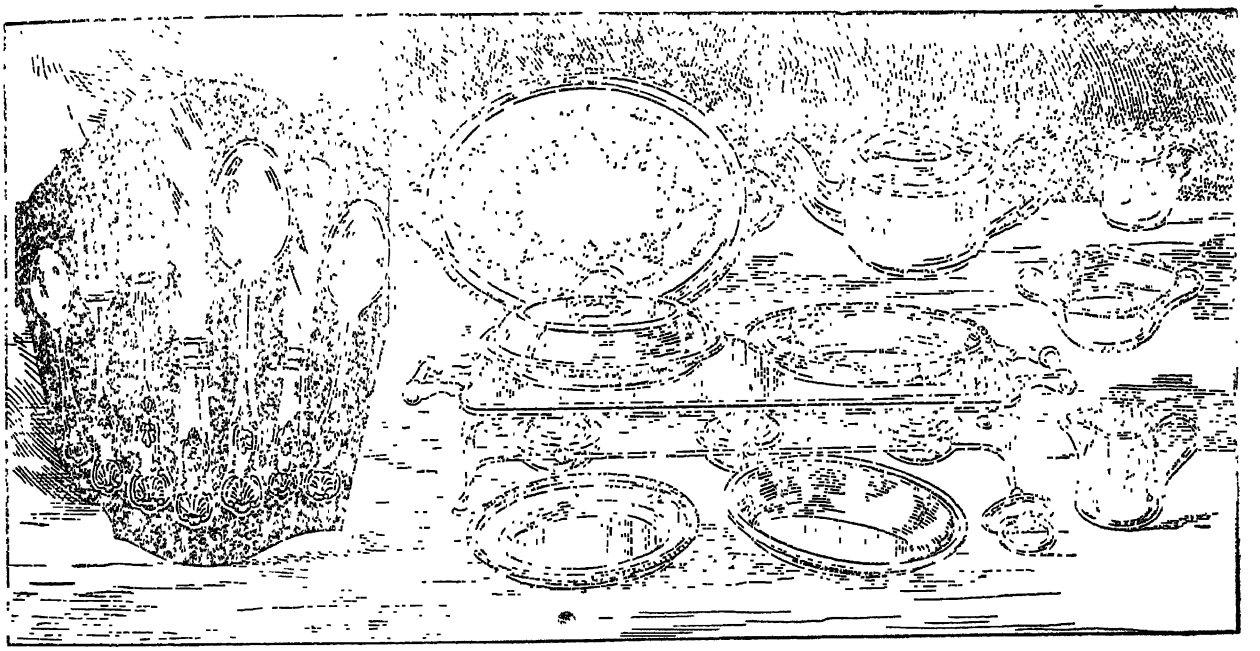

The prices for small garden tents do not include erection except when they are supplied with other Marquees or Tents to the hire value of £5. Longer periods charged on the same basis as for Marquees. Prices include delivery in London, or free on rail London for orders of not less than £2 in value.

RESTAURANT SECTION.

SPECIAL NOTICE.

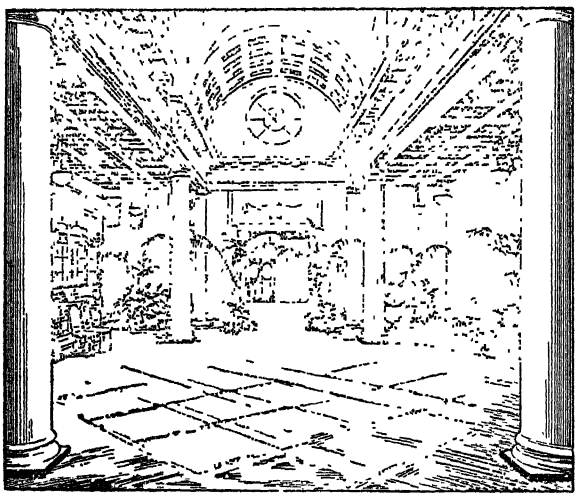

ARRANGEMENTS have been made whereby the **Nelson** and **Wellington Rooms** may be engaged for private parties, such as **Banquets, Balls** and **Evening Receptions.** They may be engaged also for afternoon **Receptions** on Saturdays. Special quotations will be submitted for customers' requirements, if they will kindly specify them, either by letter to the Secretary, or personally to the Manager of the Department.

Postal Communications should give information as to—

Date.

Nature of function.

Approximate number expected.

Wellington Room.

It is desired to emphasise more especially the **Privacy** of any function held in these Rooms as compared with the semi-publicity appertaining to similar functions in other places.

The **Polished Parquet Floors,** which are kept in excellent condition, are ideal for **Dancing.** The spacious architectural scheme provides an imposing setting for any kind of social function, whilst the lofty rooms, the ventilation of which has been the subject of special study, are always of an agreeable temperature. At the conclusion of a long banquet, or the longest night's dancing, the atmosphere will remain pure and fresh. There are very few rooms, or suites of rooms, in London possessing the same advantages.

It has been demonstrated that the rooms are well adapted for Elocution, Singing, and Orchestral Music, and that they have good Acoustic Properties.

The **Nelson Room** can accommodate with comfort 200 guests for a Banquet and leave room for a platform for **Concert Party.** The kitchen and service rooms being adjacent ensures rapid and efficient service.

The Staff is thoroughly expert in all branches of the work.

Wines, Cigars, Cigarettes, etc., are supplied on very FAVOURABLE TERMS.

Every requisite can be arranged for, including Bands, Entertainers, etc., Printing of Menus, Invitation Cards, Table Plans and Ball Programmes.

The address is :—

THE NELSON AND WELLINGTON ROOMS,
(Army and Navy Stores),
105, Victoria Street, S.W.1
(Corner Entrance).

DENNIS BROS., LIMITED, GUILDFORD

[illegible] MOTOR LAWN MOWERS

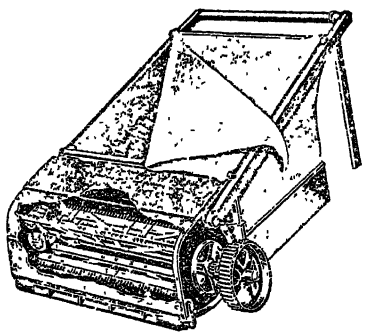

[illegible] a new [illegible]

SILENCE

Retaining their high degree of mechanical efficiency, these machines now work far more quietly than before, thanks to the new silencer. No disturbance is therefore caused to those who may be enjoying the peace of the garden while mowing is in progress. Still another recent improvement safeguards the life of the differential gear in the driving roller.

"PENNSYLVANIA" LAWN CLEANER.

A really effective machine for removing by suction all sorts of litter—leaves, twigs, fir-cones, pine needles, stones, etc.—from the grass.

No brushes to clog and injure the turf.

Prices:

24 in...	..	£8	10 0

Motor Mowers Greenhouses

and other suitable goods in this Department may be had on favourable terms.

Apply: H.P. Bureau, Ground Floor, or by post to the Secretary.

THE "SAREL" SPIKED ROLLER.

The largest green can be thoroughly treated as quickly as a man can walk over it. The wood roller, as shown, is fitted with pointed spikes, which puncture the turf to a depth of about one inch, the revolution of the roller causing the spikes to form pear-shaped incisions **under the grass** which thoroughly loosen the subsoil, without increasing the simple puncture made by the spike on the surface, and **without any tearing.**

Prices.—**In Sections** of 12 in. long by 9 in. diam.—"Wood Handle Frame."

LAWN MOWERS.

A large variety of up-to-date LAWN MOWERS by the Leading Makers will be found on show in the Seed Department. Makers' lists free on application.

Gardeners know . . . the duties of a Lawnmower . . .

The quiet action and free running of a good mower is only possible by rigid control of speed ratios. Ransomes and Webb machines have proved their cutting qualities and their ability to withstand the stress of constant duty. Heavy duty ball bearings throughout. Correct design.

Whippet, Witch, Wasp, Windsor, De-Luxe, Witton

"More ease with a MAXEES"

says Old Tom Noakes

I'M no mechanic, you see, sir, and I can't abide fiddlin' with spanners. That's why the Maxees is a real blessing, because the cutter unit just lifts out of the machine for cleanin', re-sharpenin' and keepin' in tip-top cuttin' order.

GLASSHOUSES, CONSERVATORIES.

Vineries, Peach Houses, Carnation Houses, General Plant Houses, Wall Fruit Growers, Etc.
Glazed **without** Putty on Galvanized Channelled Steel Sash Bars (**Strawsons' Patent Glazing**). The best for all Horticultural Structures, giving:

1. Free and greater admission of Sunlight.
2. Ease of Erection and Repair—broken panes can be replaced in a few minutes by unskilled workmen.
3. Great reduction in Painting—as the Steel Sash Bars are galvanized, they require no painting.
4. Durability and subsequent saving in repairs and repainting.
5. Reasonable first cost and low subsequent upkeep costs.

Quality.—Best British materials only are used.

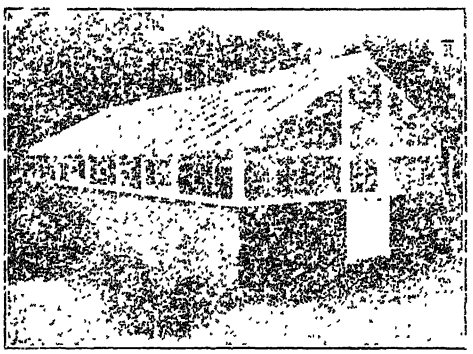

Estimates.—Free for any size or design of Conservatory, Horticultural Building, or other glass-roof structure.

Surveys.—Can be arranged in any part of the Kingdom at the shortest notice.

Erection.—Full directions are sent with each House for erection by local labour; all parts are distinctly marked for easy fitting. Or prices can be quoted for erecting the Houses complete, by skilled erectors, in any part of the country.

The following are just two examples of the more usual types of Glasshouses, either of which can be altered to suit special positions and individual requirements. The prices given, although accurate for the sizes shown, are only for the guidance of customers, as practically every Glasshouse has to be specially made

Brief General Specification.—The following prices are for Houses built for placing on purchaser's brick walls, with two glass ends (door in one with lock and key and brass handles). Complete with 24 oz British glass, Ventilators, Gutters and Downpipes. OAK Bottom Sills. Painted TWO coats best genuine English white Horticultural paint.

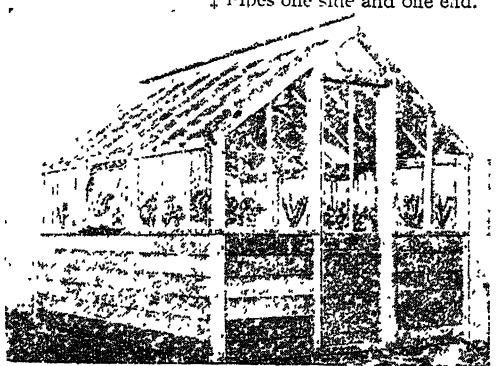

FIG. 50—TENANT'S GREENHOUSE

These Houses are really remarkable value for money, being built throughout of Canadian Red Cedar Wood, which is repellent to all insect pests and vermin, requires no painting whatever, does not warp or split, and is stated by the Canadian Government to have a life of at least 60 years. Built throughout of Empire timber, by British craftsmen, this House will prove a really sound investment

ALL THE YEAR ROUND IN THE GARDEN IN A STRAWSONS' REVOLVING SHELTER.

In England the problem is not so much to find the spot in the garden where the sun's rays are directed for the longest time, but how best to take advantage of what sun there is. By using a [illegible] Shelter, however, one may overcome all the disadvantages of our varied [illegible] yet enjoy to the full the benefit of any fine weather there may be. Designed to enable [illegible] the delights of the seasons in the open air, a Strawsons' Revolving [illegible] revolves to catch the sunshine or to give a change of view—is a charming acquisition to any Country House. To sleep in the open air is a novel experience and a Shelter would add an emergency bedroom to your house.

Short Specification.—Constructed only of selected well-seasoned Red Deal, [illegible] neatly stained inside and out. Sliding window in back and gates at front hinged to open. Complete with Revolving Gear. Supplied in sections which merely require bolting together, thus making erection an extremely simple matter.

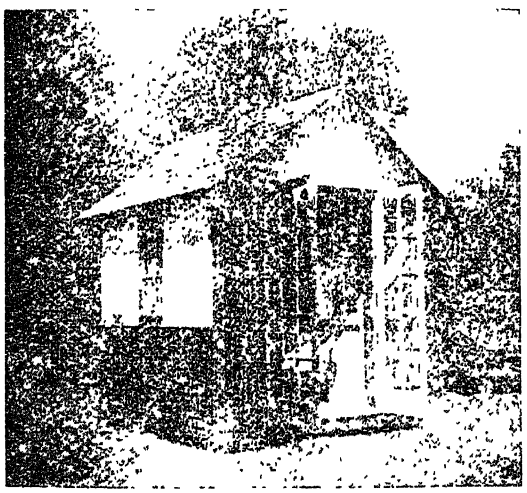

Sent direct from Works, Carriage Paid to any station in England or Wales. To Scottish and Irish stations 25/- extra on the small size.

REVOLVING GARDEN ROOM.

THE "HEATH"

A Revolving Garden Room specially designed for all-the-year-round use, the glass front enabling the maximum amount of sunshine to be obtained during winter months. Easily turned to face any direction, this Room always ensures a cosy and warm retreat in the garden.

Short Specification.—Constructed of best red deal, walls covered above string course with matchboarding, painted white, and below with moulded weatherboarding, stained dark green. Inside of walls stained pale green, with ceiling in contrasting "sunshine yellow." Glass front, with pair of doors in centre. One sliding window in each side. Roof covered with Red Cedar Shingles which quickly weather to delightful shades of greys and browns. Strong floor with revolving gear fitted beneath. Sent in easy-fitting sections to bolt together.

Size 7 ft. × 7 ft. × 6 ft. 2 in. at eaves × 8 ft. 9 in. at ridge.

Price £31 0 0

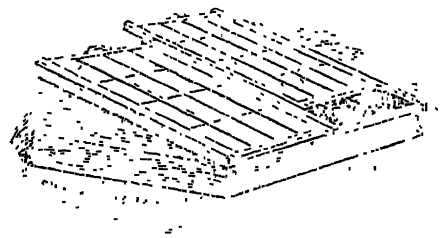

Carriage paid to any Station in England or Wales.
To Scottish and Irish Stations 35/- extra.

GARDEN FRAMES.

General Specification.—Constructed only from thoroughly well-seasoned Red Deal. Lights properly mortised and tenoned, primed and wood-pinned, glazed with 24 oz British glass bedded on best linseed oil putty and brass sprigged. Each light fitted with japanned handle. The Frame Boxes are of 1 in. T. & G. boards. All painted **three** coats best genuine English Horticultural paint. The Frames are sent out in sections ready to bolt together in a few minutes and they can be easily taken apart and moved at any time.

These are strong, well-made Frames, not to be confused with low-price inferior articles. They will give lasting satisfaction and service.

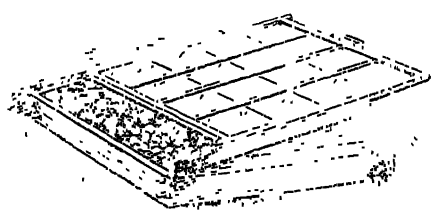

CUCUMBER OR MELON FRAMES.—Fig. 15.

"FERNDEN" FENCING.

THE "FERNDEN" COMPOSITE CLEFT CHESTNUT WOOD AND GALVANIZED WIRE FENCING.

BEST QUALITY ONLY THROUGHOUT.

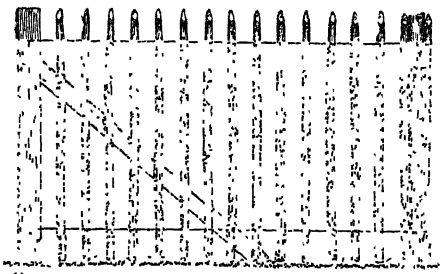

Made from stout seasoned Pales cleft from selected English Sweet Chestnut Wood, and machine woven with best quality galvanized annealed steel wire.

The fencing is dispatched in rolls, the length in a roll being usually determined by height of fence as follows :—

Fences up to 4 ft. high in rolls containing 10 yards each.
Fences 4 ft. 6 in. high in rolls containing 7½ yards each.
Fences 5 ft. to 6 ft. high in rolls containing 5 yards each.

Sufficient wire is left upon end of each roll for attaching to adjoining length

STYLE No. 1.

For permanent fences over 4 ft high, a third line of wire is recommended (see Style 4 below).
For prices of suitable Posts, see page 979.

PRICES PER YARD (without Posts).

5 ft. ..	5/6	60/-	56/6
6 ft ..	6/9	75/6	72/-

As a really cheap Fence and Shelter combined there is nothing to compete with Wattled Hazel Hurdles; their strength, lasting qualities, and ease of erection being well known, while their portability and adaptability for so many purposes are valuable features.

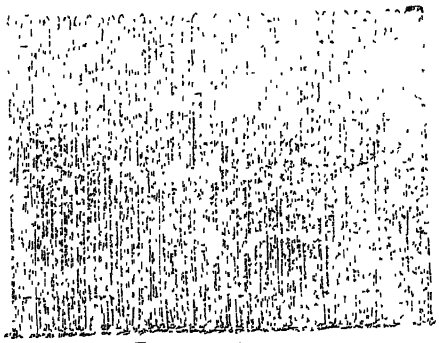

Effective shelter and fencing combined for gardens, plantations, stock, sheep, pigs, poultry, dogs, etc., and are also largely used on golf courses, for horse-jumps, coast protection, sand-drift, lining watercourses, excavation, drainage and colliery work, etc., and they make an excellent skeleton frame for constructing light buildings, walls, etc., in concrete.

These Stakes are Hazel, Ash, Chestnut, etc., and vary from 1½ in. to 2 in. diameter. Direct from Works, Carriage not paid.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

"FERNDEN" FENCING (*Continued*).

With three lines of wire in all heights from 3 ft. to 6 ft. or with two lines of wire only in heights from 2 ft. to 4 ft.

NOTE.—The Pales in Style No. 8 Fence are wired "nearly close" together—i.e., with the smallest possible space between, as shown in illustration

For Gates to match, see page 979.

POSTS FOR FIXING "FERNDEN" FENCING

All posts should be at least 2 ft. longer than height of fencing—i.e., to be 2 ft. in the ground. In very soft or swampy ground longer posts are sometimes needed. The usual distance apart for posts is two yards, but if it is desired to lessen the cost, the distance may be increased to three yards apart for any fence (excepting Style No. 8) up to 4 ft. 6 in. high. In all fences over 4 ft. 6 in. high the two yards apart should not be exceeded, otherwise the fence will sag between the posts and be unsatisfactory. In fixing Style No. 8 Fence the distance between post should not exceed two yards in any [illegible] strainers—are needed at all ends and angles and are recommended also to be placed at intervals of about 50 yards in long [illegible] fence. An appropriate number of struts for use with tie-posts should be ordered (two for each angle tie-post and one each for terminal tie-posts and those used intermediately). PRICES FOR POSTS AND STRUTS

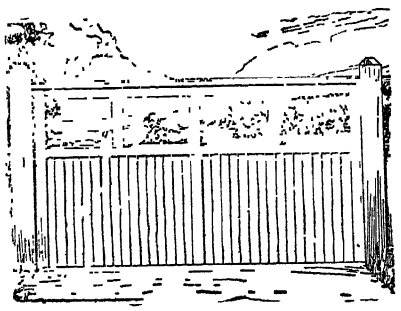

PRESERVATIVE.—Any type of fence and posts, etc., can be treated with best Oil of Creosote preservative at a cost of 10 per cent. additional to list prices.

Length of Post.	Intermediate Posts, each	Sawn Tie Posts, each.	Struts, to suit Tie Posts, each
	s. d.	s. d.	s. d.
4 ft. 0 in.	0 5½	1 3½	0 5
4 ft. 6 in.	0 6½	1 7½	0 6½
5 ft. 0 in.	0 7½	1 11	0 8½
5 ft. 6 in.	0 8½	2 3½	0 10½
6 ft. 0 in.	0 9½	2 8	1 1
6 ft. 6 in.	0 11½	3 1½	1 4½
7 ft. 0 in.	1 1½	3 7½	1 7½
7 ft. 6 in.	1 4½	4 2	1 10½
8 ft. 0 in.	1 6	4 8½	2 3
8 ft. 6 in.	1 8½	5 8	2 8

NOTE.—The Intermediate posts are pointed at ends for driving into the ground. Tie posts are sawn square with a 2 ft. butt or heel left on to steady the post in the ground. Struts are sawn to a suitable size according to size of tie-post with which they are to be used.

Posts and Struts are illustrated in each type of fencing shown on preceding pages

GATES.

Height, 5 ft.; width, 9 ft.

In Prepared Oak £5 8 0
Filling to lower part Cleft Oak Pales.

Prepared Posts, 8 ft. 6 in. long, 7 in. by 7 in., with shaped Tops. In Oak . . per pair £2 12 6
Fittings, comprising wrought iron strap hinges and mortice latch. Per set £1 5 6
Double Drive Gate Set can be supplied to this design, 5 ft. high, 9 ft. wide over all. In Oak only .. .. .. per pair £6 0 0
Posts as for single gate. Fittings, comprising 2 pairs of wrought iron hinges, ring latch set, oak centre stump and bolt £1 11 0

(All F.O.R. at Works.)

Can be made in other heights and widths. Prices on application. Gates can be supplied, oiled or treated with best Oil of Creosote preservative, as required. Extra cost quoted on request.

IMPROVED GARDEN SCREENING.

Used in horticultural operations for screening or protecting plants, shrubs, seed beds and garden produce generally, against sun, frost, wind and rain.

It is made of strips of cleft chestnut wood bound close together with three or four rows of galvanised wires according to width and in a manner to allow of the screen being rolled up and stored away.

As will be seen from the illustrations there is sufficient space between the cleft strips to allow the air to pass through.

The screening is supplied in rolls of 5 yards only.

Fixed as a SCREEN [illegible] on supports, it will last several years.

	Prices per Yard		
3 ft. wide	1/9	4 ft. 6 ins. wide	2/9
3 ft. 6 ins. „	2/1	5 ft. „	3/1
4 ft. „	2/5	6 ft. „	3/9

All Orders of one pound and upwards are sent Carriage Paid to any Railway Station in England and Wales not exceeding 200 miles from London. To Stations over 200 miles, but not exceeding 300, 5 per cent. will be added to list prices to cover the extra cost of carriage.

Over 300 miles from London, add 10 per cent. to list prices.

To the Isle of Man add 15 per cent. to list prices.

To the following ports in Ireland, viz.: Dublin, Cork, Belfast, Waterford and Rosslare add 15 per cent. to list prices.

To the Channel Islands and Isle of Wight no addition to list prices.

A separate price list is issued for Scotland.

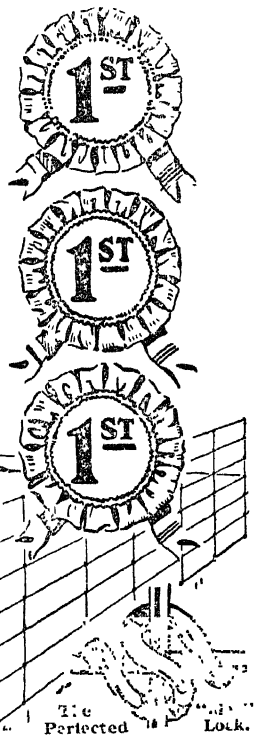

Orders under £1 sent carriage forward.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

ALL RECORDS BROKEN BY "IDEAL" FENCE.

1st FOR STRENGTH. 1st FOR GALVANIZING. 1st FOR LENGTH OF LIFE.

REPEATED tests by independent Consulting Engineers, the manufacturers claim, have proved conclusively the superiority of "Ideal" Woven Wire Fencing for strength, toughness and resistance to rust. "Ideal" was easily the first "Ideal" fence erected over 20 years ago [illegible] tested and found to be in such excellent [illegible] no replacement was necessary. The reason is the high grade steel used in the manufacture of the wire, the special galvanizing and the patent lock at every cross wire which is designed to give double strength and to run off moisture. There is also "Ideal" Chain Link Fencing; it is supplied in all usual heights and gauges, is British throughout, and made from the famous "Crapo" galvanized wire. "Ideal" Fences cost less than many inferior imitations and are economical to erect, needing fewer posts.

Safeguard yourself against fencing trouble and loss by erecting "Ideal."

"IDEAL" FENCE, RING LOCK PATTERN.

In Rolls of 50 yards.

"Rylink" Fencing can be manufactured in any height up to 12 ft. in 1¾ and 2 in. mesh at proportionate prices.
Chain link prices are subject to discount of 20%
Prices of other sizes and widths on application.

BRITISH CHAIN LINK FENCING.

Superior quality of all materials used in the manufacture is a guarantee that this fencing will prove most economical and satisfactory. In strength, toughness, and galvanizing it cannot be equalled by any of the [illegible] advertised. It is certainly the true test—that any [illegible], which time proves [illegible] the severity of our climate.

NOTE.

The prices are for rolls of 25 yds, and with each 25 yd. roll, "Line" Wires of Galvanized Wire are supplied without charge.

50 yds. Sufficient for 2 "Line" Wires up to and including 4 ft. high.
75 yds. Sufficient for 3 "Line" Wires from 4ft. 6in. to 6ft. 6in. high.
100 yds Sufficient for 4 "Line" Wires for 7ft. and 8ft. high.
125 yds. Sufficient for 5 "Line" Wires for 9ft. and 10ft. high.
150 yds. Sufficient for 6 "Line" Wires up to 12ft. high.

Prices subject to fluctuations.

NOTE.—Sent direct from Works Carriage paid England and Wales

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

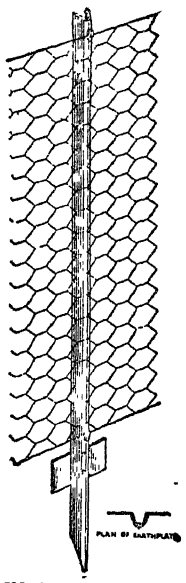

BEST BRITISH GALVANIZED WIRE NETTING.

—BLUE LABEL—

EXAMPLES OF WIRE NETTING PRICES.

Per roll of 50 yards. Subject to Fluctuation.

Patent 216785.

With Earthplate.

A Standard List will be sent on application showing all sizes of Wire Netting offered from ½ in. to 4 in. mesh, and from 6 in. to 72 in. in height. Netting can be supplied in other meshes and gauges and in wider widths than 72 in. Prices on application.

Suggestions:

⅜" Mesh for keeping Mice from Granaries etc

½" & ⅝" Meshes for keeping out Rats and protecting Fruit from Small Birds.

¾" Mesh for keeping out Sparrows, etc., and for Thatching.

1" Mesh for Chicken Runs.

1¼" Mesh for Rabbit Fences, proof against the smallest Rabbits

1½" Mesh for Rabbits— not as suitable as 1¼", but makes a good fence Ideal for Tennis, especially in the stouter gauges.

1⅝" Mesh for Tennis Courts, Hares and Poultry

2" Mesh for Poultry and general utility purposes

2½" Mesh not as useful as 2", but in good demand for Poultry Enclosures

3" Mesh Ideal for Pigs

4" Mesh for Folding Sheep, Training Plants, etc.

It costs as much to ERECT thin gauge as heavy gauge Netting, customers are therefore advised to buy the heaviest gauge they can afford. The BEST is the CHEAPEST in the end.

Delivered within the Society's Motor radius or CARRIAGE PAID to destination on or South of a line drawn from Oban to Aberdeen

Per 50 yards. 2-ply Selvages.

"CLOCK" CREAM SEPARATORS.

(Foreign)

Size No.	Galls per Hour	
19	10	£5 5 0
20	15	£6 0 0

Of light construction —Wonderful value at their price.

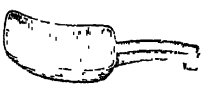

"Clocks" skim absolutely clean; in fact it is difficult to find a trace of fat in the skim milk. The extra cream produced is enough to pay for the Separator itself in a few months.

"Clock" Separators are the result of nearly fifty years' study in the manufacture and use of Cream Separators. They fulfil all modern requirements and place a really good Separator at a moderate price within the reach of every owner of one or more cows.

Prices subject to discount of 10%.

Direct from works carriage paid.

"NORWICH" FEEDER AND EXERCISER.

At least 10,000 "Norwich" Feeders are in use to-day—a splendid indication of the popularity of this type They are extremely prac[illegible] and because of the remarkable economy they make possible, are guaranteed to pay for themselves in three months in the saving of grain alone. Apart from this there is a notable saving of labour since each needs filling only once a week for this reason

the "Norwich" have been extensively adopted by the big commercial poultry farmers to whom labour saved means profit earned

BEE-HIVES AND APPLIANCES.

TAYLORS' COMPLETE OUTFITS FOR BEE-KEEPING.

BEES are Nature's gardeners—keep them to help you. Taylors' of Welwyn, Europe's largest producers of bee-keeping requisites, have a special "Country Life" outfit for beginners. Keep bees to tend your flowers and fruit blossom; fruit trees are far more prolific when bees are in the orchard. Remember, too, the fresh delicious honey you'll get. So start now; you're in time to establish your own apiary for the summer months ahead.

TAYLORS' "COUNTRY LIFE" OUTFIT.

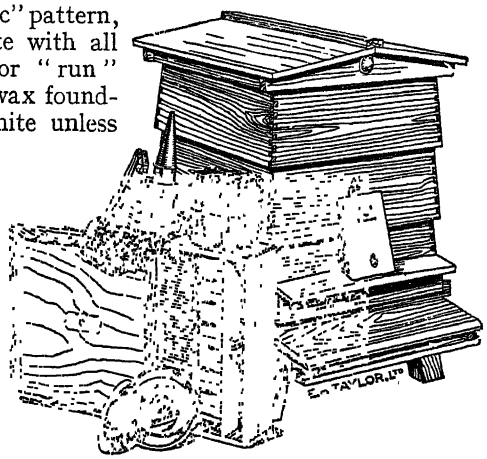

This outfit comprises the following complete equipment:—

HIVE of Taylors, latest "Telescopic" pattern, dovetailed throughout, complete with all fittings for obtaining section or "run" honey, including full sheets of wax foundation throughout. Painted white unless otherwise desired.

BEES. Specially selected and healthy stock with ten frames headed by a young and prolific queen. Sent by passenger train in boxes, returnable.

SMOKER with 12 paper cartridges.

BEE VEIL made to slip over a hat or cap.

QUEEN EXCLUDER to prevent the queen laying eggs in the sections or extracting frames.

FEEDER for feeding the bees in winter when necessary.

GUIDE BOOK giving useful hints and all detail.

PORTER ON BOARD. A handy device for clearing the tiers of bees before taking the honey.

HIVE RECORD CARD for keeping a record of inspections and honey taken, etc.

All Carriage Paid.

Complete as described ..	£7 15 0
Or without Bees	4 15 0
Hive only, as specified (Unpainted) ..	3 11 0

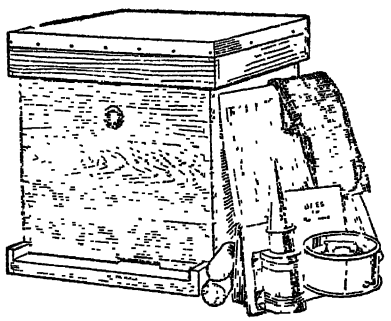

Awarded Silver Medal at R.A.S.E. Show.

THE "COTTAGE" OUTFIT.

Designed to meet the needs of those who wish to start bee-keeping on the right lines, but at the lowest possible initial cost. It consists of the following essentials:—

HIVE of Taylors' "Commercial" pattern, dovetailed, complete with all frames and sections fitted with full sheets of wax foundation.

BEES. A nucleus of specially selected Hybrid or Italian bees on four frames headed by a young and prolific queen. Sent by passenger train in returnable boxes.

SMOKER with six paper cartridges.

BEE VEIL, QUEEN EXCLUDER, FEEDER, GUIDE BOOK ON BEE-KEEPING, HIVE RECORD CARD. Similar to those with "Country Life" outfit.

Complete as described, **95/–**, or without Bees, **60/–**. Carriage Paid.
Hive only, as specified, **43/–**. Hive painted, **7/6** extra.

When supplying Beginners' Outfits the Hive, with accessories, is despatched on receipt of order, and the Bees despatched by passenger train as soon as weather conditions allow

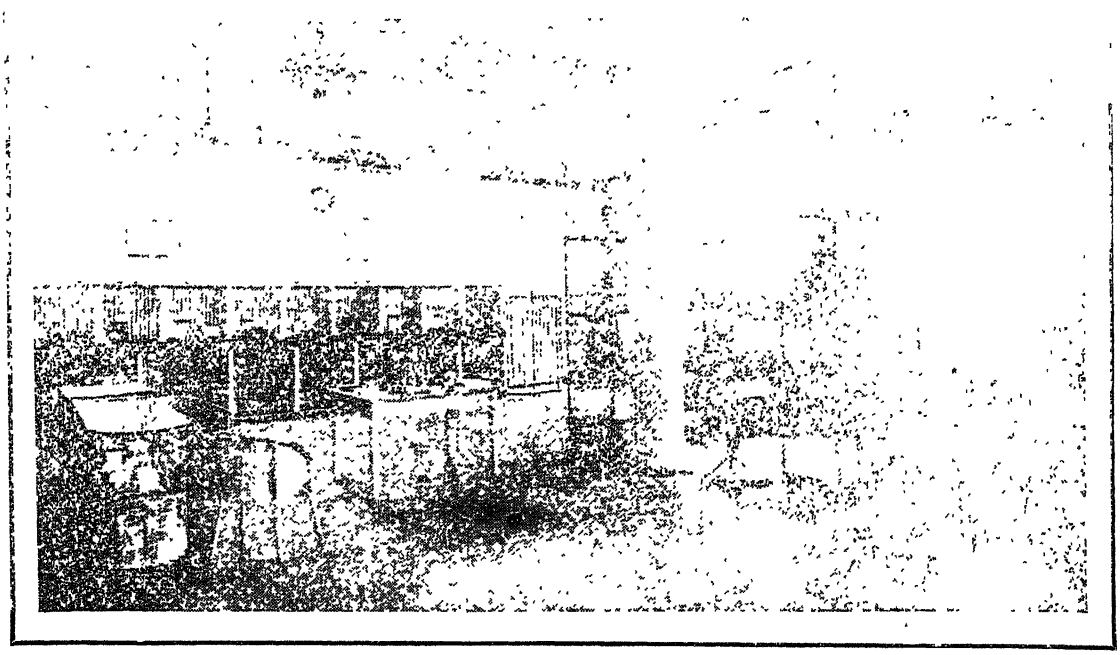

SPECIAL BEE-KEEPERS' CATALOGUE. FULLY ILLUSTRATED AND CONTAINING OVER 40 PAGES DEVOTED TO HIVES, BEES AND ALL APIARY SUPPLIES, POST FREE ON APPLICATION.

Bees, Queens, Smokers, Sections, Frames, Foundations, Honey Bottles, Feeders, Bee Candy, all Types of Hives Extractors, etc., promptly supplied direct from works.

H.M.B. UNIVERSAL FISH FOOD

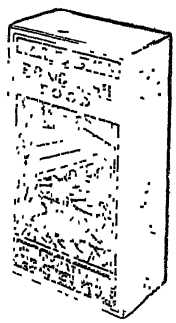

THIS Fish Food is suitable for every species of Aquarium Fish. It is the outcome of the long experiments and observations of Mr. H. Mortimer Batten, the well-known Naturalist. In composition it is different from the various foreign Fish Foods sold, and in addition to the vegetable, mineral and meat stimulants, it contains tonic properties beneficial to all fish life, and a small proportion of soluble chemicals for helping to keep the water pure and free from germs. It is, however, always essential to see that no waste food is left to decompose on the bottom of the aquarium.

Quantity required.—The amount of food required is largely governed by the temperature of the water. If this is from 60°–80° F., eight fish of 2″ in length will require daily about as much food as can be piled on a sixpenny-piece; if the temperature is about 50° F. the same amount every other day, and at 40° F. every third day. The correct amount is the amount the fish entirely consume in five minutes. Danger lies in over feeding.

H.M.B. UNIVERSAL FISH FOOD:—

Fine for Tropicals and Fry. Medium for all Aquarium Fish.
-/9 per tin; 2/3 per ½-lb. tin, post 6d.; 4/- per 1-lb. tin., post 6d

REPLACE THE LID OF TIN FIRMLY.

H.M.B. POND FOOD

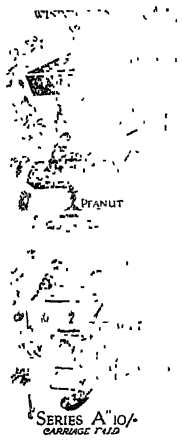

THIS Food has been specially prepared for the exclusive use in ponds and is a complete diet for outdoor fishes. It is a cheaper quality of Food mainly because the natural elements are already provided in the pond itself and consequently does not require so many ingredients. When young fry are being reared in a pond it is advisable to add the complete H.M.B. Universal Fish Food, as there would be insufficient natural food for a large number of youngsters.

H.M.B. POND FOOD.

FURNITURE DEPARTMENT.

SPECIAL attention is drawn to the new spacious and well appointed Furniture Galleries. A comprehensive range of all furniture, bedding, etc., may be inspected here under ideal conditions. The Society maintains an extensive factory for the manufacture of high-class furniture and bedding. Only selected materials are used and the class of work has secured the Society a position amongst the leading furniture houses.

PURCHASE

Generous and convenient terms may be arranged in connection with the purchase of any furniture. Full particulars may be obtained from the Manager, Hire Purchase Bureau, Ground Floor, or on application by post to the Secretary.

RE-UPHOLSTERING AND FURNITURE REPAIRS

Special Sketches to match existing Furniture, etc., can be supplied, if desired, or work will be undertaken to customers' own designs, to which careful attention will be given.

ESTIMATES FURNISHED FOR EVERY DESCRIPTION OF WORK

CONTRACT DEPARTMENT

THIS Department will advise and assist those contemplating the furnishing and/or decoration of the whole or part of their homes, and will relieve them of the necessity of personal transactions with the several Departments concerned.

Coloured sketches, schemes and estimates for any style desired, submitted without obligation.

SCHEMES when approved will be carried out under the supervision of the Department, thus relieving Customers of personal attention to details.

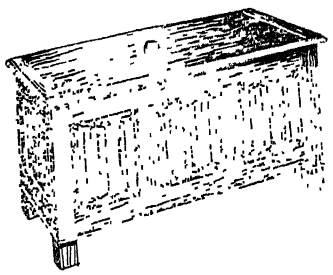

THE SOCIETY SPECIALISES IN FURNITURE AND BEDDING.

Re-making in new second quality Tick	1 3 0	1 8 0	1 12 9	1 17 0	2 1 0	2 6 0
Re-making in new first quality Tick	1 10 0	1 13 0	1 16 0	1 19 0	2 5 0	2 10 0

Mattress finished top stitched extra to above prices.

Feather Bolsters re-made in new Tick, single size from 7/6; double size from 12/–.
Feather Pillows re-made in new Tick, small size from 5/–; large size from 7/6.
Stoving Mattresses extra to above charges from 4/– upwards.

In all cases for re-making it is recommended that the Mattresses be stoved, as this process thoroughly purifies them.

The Society cannot guarantee that Mattresses when re-made and Cases cleaned will finish same size as originally, as the ticks often shrink in the process of cleaning.

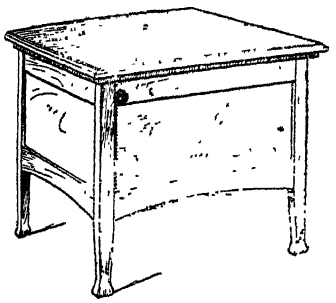

For re-making Box Spring Mattresses, or any kind not shown on this list, estimates will be supplied on application.

NOTE.—When sending in Bedding to be re-made, name and address should be attached to same for identification, and customers are requested to advise, by post, when and how despatched.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

FINE ART SECTION.

PAINTINGS, WATER-COLOUR DRAWINGS, ARTISTS' PROOF ETCHINGS AND ENGRAVINGS (both Plain and Coloured.)

Picture Framing and Mounting in English Gold, Wood, and also Gilt Mouldings.

SPECIAL NOTICE.—All orders sent by post for Picture Frames should state if the measurements given are the Rebate (fitting size), Sight (view of picture) size, or the OUTSIDE SIZE of the Frames.

The stock of any particular pattern of Picture Frame Moulding cannot at all times be guaranteed.

Frames made to order from stock patterns take from 3 to 7 days from receipt of order, according to description of frame required. Frames made to special designs or to match other frames take longer.

Every possible care is taken of Pictures, etc., entrusted to the Society to be framed, etc., but the Society does not hold itself responsible for any damage by fire or other causes that may occur to same while in its possession or during transit.

In no instance can Pictures or Frames be forwarded without being packed in a case; the ORDINARY non-returnable cases are not supplied for Pictures (see Rule 17, p. IX). When pictures are packed in cases, a charge would be made for same and the value of the cases would be allowed if returned at once in good condition. When pictures have to be despatched to Scotland, Ireland, etc., etc., it is cheaper to have a SPECIAL non-returnable case supplied.

Pictures left for framing and not claimed within 6 months from date of being left will be disposed of in such manner as the Directors may determine. See Rule 7, p. V.

PICTURE FRAMES.

The Society has on view in No. 5 Department, Art Gallery, patterns of new Picture Mouldings in Black and Gold, Brown and Gold, Rosewood and Gold, and the latest patterns of antique Gilt Mouldings, suitable for framing Engravings, Photographs, Oil Paintings, etc., etc. The Society specially recommends some of the very old styles of framing in Black and Gold, which are particularly suitable for framing Old Prints, Paintings, etc., etc. Pictures so framed can be seen in the Department.

Where prices of Moulding are quoted at per foot, inclusive of "glass, etc.," it is for glass not larger than 50 × 32 inches; above that size, but not exceeding 53 × 34 inches, extra per foot, -/3.

Estimates can be sent for larger sizes.

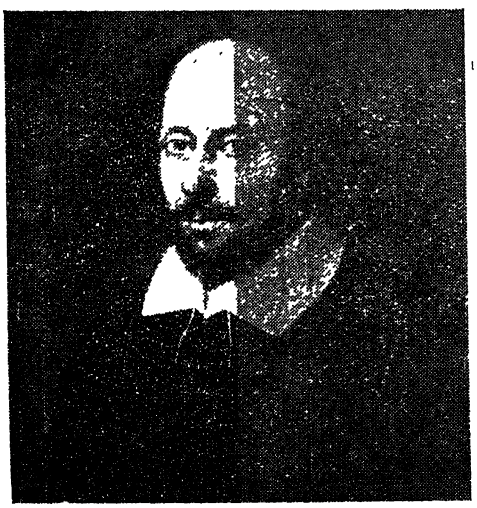

BEST QUALITY GOLD MOULDINGS, ALHAMBRA, WATTS, MORLAND, BARTOLOZZI, BIRKET FOSTER, AND OTHER APPROVED PATTERNS.

Customers' own Pen and Ink Drawings reproduced.
Sizes and Prices upon application.

GILDING.

The Society undertakes the gilding of picture and mirror frames. Further information may be obtained in No. 5 Department.

THE SOCIETY'S ART GALLERY contains an ever-changing collection of interesting Pictures, Oils, Water Colours, Prints, Etchings, etc., etc. Modern works are exhibited immediately on publication, and the older types of productions are represented by choice examples of works by and after the world's famous artists.
BRONZES, both real and imitation, and models of old ships are also displayed in the gallery.

RESTORATIONS.

The Society undertakes the treatment of damaged or faded Oil Paintings, Water Colour Drawings, Prints, etc., and Customers may entrust their most valuable works of art to the Stores with the assurance that they are placing them in experienced hands, and that every care will be taken and the work carried out in the most satisfactory manner possible.

The work comprises re-lining, surface cleaning, removal of old varnish, restoring and varnishing paintings; laying, cleaning, removing spots, stains, etc., and restoring water-colour drawings, pencil drawings, pastels and engravings; laying, repairing, cleaning, and restoring miniatures on ivory, etc., etc. No picture is considered in too bad a condition for treatment. Estimates for this work can be supplied.

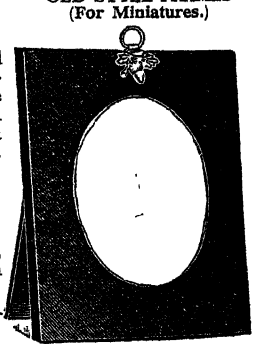

Pictures can be examined at customers' residence on payment of artists' expenses.

MOTH ERADICATION SERVICE.

THE MOTH ERADICATION AND PREVENTATIVE SERVICE, SPECIALIZED BY THE SOCIETY HAS BY LONG AND THOROUGH TESTS BEEN BROUGHT TO A HIGH STATE OF EFFICIENCY.

Section 1.—Cleaning and [illegible] key frame, action and interior—saturating and spraying all parts with SOLUTION 1.A.N. Destroying Cloth Moth in all stages and entirely freeing the Piano from the pest. The work is executed at Customer's residence and the charge for this Service within 8 miles from the Stores is—

Upright Piano .. .. £2 2 0 **Grand Piano £2 12 6**

Section 2.—Action and key frame removed to factory and treated as in Section 1. An application of SOLUTION 2.A.N. is then made which renders the material impervious to the ravage of the caterpillar. The action and key frame are then returned, re-assembled and regulated.

The complete process is effective up to three years with a possible permanent result and is not injurious to the materials.

Cost of Service within 8 miles of the Stores—

Upright Piano .. .. £4 4 0 **Grand Piano £5 5 0**

Estimates submitted for either section for any distance over 8 miles.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

CARPETS, LINOLEUMS, RUGS, CURTAINS, CRETONNES, LINENS, TABLE COVERS AND ALL FURNISHING FABRICS AND SUNDRIES.

ESTIMATES FREE FOR ALL CLASSES OF FURNISHING.

Experienced Representatives, thoroughly acquainted with all the various Styles and Productions for Furnishing, will be sent by appointment to advise Customers upon furnishing generally, either in **Town or Country.**

SPECIAL PURCHASES from suppliers are made from time to time when goods are offered below the usual LIST Prices. Particulars sent on application.

NOTICE.

ALL PILE CARPETS are liable to Shading—that is, to show light and dark patches, arising from unequal reflection of the surface, as in plush or velvet. No care on the part of the Manufacturer can obviate these tendencies, which are inherent in all pile fabrics.

All Carpets should be swept with a clean, dry brush, in such a direction as to flatten the pile, otherwise the Carpet will appear rough and be more liable to take up dust.

Light and delicate Carpets are liable to become soiled in wear, and so apparently lose colour. Fading occurs in all wool carpets

"FLUFFY WASTE" is always given off by New Pile Carpets. This is no sign of imperfection, and will cease by degrees.

SURFACE LINES are caused by open boards and the uneven surface of floor under carpets. A carpenter should level surface before new carpets are laid. Brown paper and underfelts are recommended particularly where a Vacuum Cleaner, is used and in all cases where the rooms are warmed by **CENTRAL HEATING** as a prevention against the suction drawing the **SOOT** and **DIRT** through to the pile of the carpet.

STAIR CARPETS should be laid with the Pile running downwards and **TREADS MOVED** about 3 inches every 6 months.

TAKING UP.—Carpets should not be folded in the seams, as, if done, this weakens the stitching and opens the joins.

PROJECTING WOOLS.—Should any Carpet show a yarn or loose pile projecting above the normal level of the Carpet, this on no account should be pulled as a hole will result. The projection should be **clipped level.**

LAYING DOWN.—All New Carpets should be properly laid by a competent person.

SHIFTING.—All Carpets should be moved at least once a year, so that all the wear will not continually be in one place. This lengthens the life of a Carpet.

CARPET DYEING AND CLEANING.

VACUUM CLEANING

The Cleaning of Carpets, Curtains, Walls, Furniture, etc., is undertaken by the Society. A Representative will attend on receipt of instruction in either town or country.

CARPET BEATING, CLEANING, AND DYEING.

	per sq. yard. Beating.	Compressed Air.	Clean'g.	Dyeing from
Brussels, Tapestry, Kidderminster ..	-/2½	-/3	1/2	2/6
Axminster, Velvet Pile, etc.	-/6	-/7	1/6	3/6
Turkey, Indian Oriental ..	-/6	-/7	1/9	4/-

Carpets, Linoleums, etc., taken up and re-laid, charges at current hourly rates, men working to Customer's instructions at Customer's risk.

STAINS. There are many stains which cannot be removed by cleaning. The best possible results are obtained by the Society.

Conditions under which Goods are accepted for Cleaning or Dyeing.

1. Material which, from inherent or other defects, or from any other cause, is liable to damage, shrinkage, impoverishment, loss of colour or other deterioration, is only accepted for dyeing or cleaning on the understanding that the Society incurs no liability in respect of damage which may arise, and that the Society will not be liable for loss by theft or injury to the goods whilst in transit.

2. In case of loss by fire, responsibility is accepted only to the extent of the Society's estimate of the value of the goods so damaged or destroyed.

3. In the event of loss or damage for which the Society may be liable, the Society will have the option of either replacing or repairing the article or the part injured or lost, but the liability of the Society for the loss of or injury to any article of any kind shall be limited to 50 per cent. of the original cost of the article, and shall not in any case exceed £5, unless the value of such article has been previously declared in writing and special terms made in respect thereof.

Dyeing.—The Society cannot guarantee to Dye any Shade exactly. Customers can, however, rely on the very best efforts being made to meet requirements. All Dyed Carpets shrink in the process.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

B[illegible] CARPETS.

AXMINSTER AND WILTON CARPET SQUARES IN ALL TYPES OF DESIGNS.

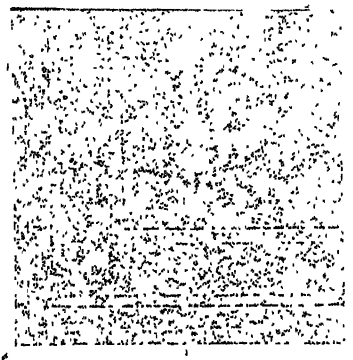

The Qualities of Carpet offered are thoroughly reliable and good value for the prices quoted. Lower Grade Goods than those listed are available but are not recommended.

Customers will find a choice range of these goods in designs suitable for all rooms. Sizes not in stock can be made in a short time at the prices ruling at the time of purchase.

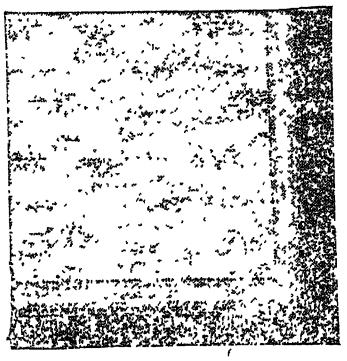

Owing to the exceptional demand for special sizes a definite date for delivery must be obtained from the manufacturer.

NOTE

Quality No. 4 is made in Various Widths from 6 feet up to 13 feet 6 inches and any length.

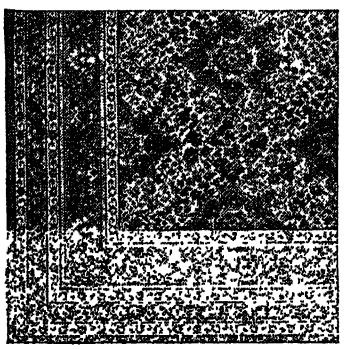

No. V.G. 15701 Design.
No. 1 quality, Grey Ground with an all-over Chintz Effect Design.

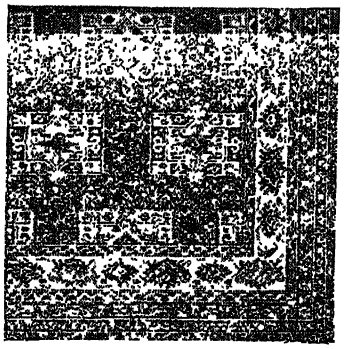

No. V.G. 16301 Design.
No. 2 quality, Fawn background with Orange colouring in the Design. Also on Green Ground.

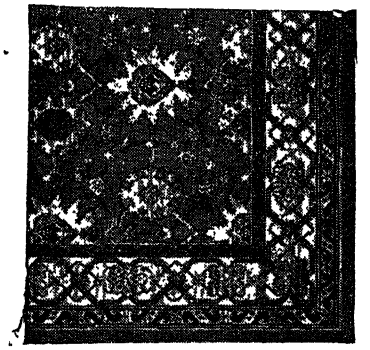

The Seamless Axminster and Wilton Central Squares are popular, owing to the advantage of seeing the complete carpet, and being made in many sizes suitable for general use. The values of both classes of carpets are equal for the medium and better qualities, but a Low-grade Wilton is not recommended.

No. V.G. 16701 Design.
No. 3 quality. Small allover Kirman Design in a combination of Fawn and Rust.

No. V.G. 17501 Design.
No. 4 quality, Oriental colourings on Red or Camel backgrounds.

No. V.G. 18501 Design.
No. 5 quality, Red Ground with Camel colouring in the Design.

Samples of any of these designs or any other style or colouring sent on approval to enable a selection to be made in your home. No. 3 and No. 5 Qualities are also available in plain coloured effects with Line Borders.

HELPFUL WARNING!

CORK CARPET should be carefully treated when cleaned or washed, as being porous it absorbs dirt, grease, oil, etc., very readily; for this the Society cannot accept any liability whatever. **Wash with little soap (pure), tepid water,** wash off soapy water thoroughly and dry with a **linen cloth**—on no account should a woollen cloth be used. **Soda** or **Strong Soaps** should not be used, as these have an injurious effect on colours. **Do not polish New Cork Carpet.** Cork Carpet is noiseless and warm to the tread and of different nature from Cork Linoleum. Specially recommended for Bedrooms, Nurseries, etc.

DUNLOPILLO UPHOLSTERY, MATTRESSES, Etc.

Dunlopillo Cushioning is a luxuriously soft material which has lasting resilience. It consists of millions of tiny interconnected air cells which "breathe" with every movement and keep the material always fresh and cool. It is germ-proof and moth-proof, does not make dust, and accordingly represents an important step forward in the hygiene of upholstery materials.

VG 40172.

A **CHAIR** of medium size giving maximum sitting space with minimum outside measurements with Dunlopillo Seat £6 19 6

A needlework design in soft Jacobean colourings on a natural colour background
30 in. wide .. .. **2/11** per yard

There are many beautiful designs at prices from **1/3** to **2/6** per yard, but as these are continually changing it is not practicable to illustrate them.

VG 87174.
REVERSIBLE CRETONNE.
A dainty design suitable for bedroom curtains. Trailing roses on ivory colour ground. Colours: pink and green or pink and blue. 30 in. wide 2/3 per yard.

The Society holds stock of many plain colour materials, guaranteed Fadeless, suitable for loose covers. Patterns sent on application.

LOOSE COVERS.

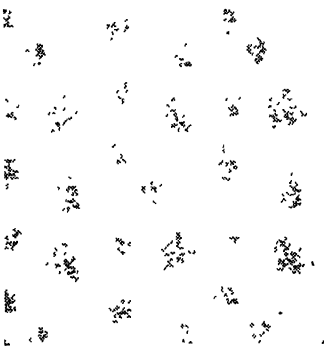

An inexpensive method of renovating or changing the colour scheme of a room is to fit the furniture with loose washable covers.

The Society specialises in this class of work, and send only experienced upholsterers to cut, thus ensuring a perfect fit.

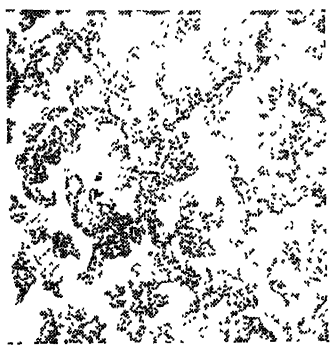

The cost of a set of loose covers is considerably less than re-covering the furniture.

GLAZED CHINTZ.

This material is now made in a great variety of old world designs many of them reproductions of the earliest types. Patterns on application.

VG 83179.
PRINTED LINEN.
Dainty Chintz colourings on Ivory colour ground. 31 in. wide **2/11** per yard.

DYEING AND CLEANING.

NOTICE.—The expediency of Dyeing or Cleaning any article cannot be determined by the Society when orders are sent without qualification In cases of Dyeing or Wet Cleaning the Society does not accept responsibility for shrinkage of Articles or Materials, nor damage done in process of cleaning goods in tender condition. Where goods are unclaimed and charges have not been paid the goods will be retained for **6 months** only, after which time the Society will not be responsible for same.

Every care will be taken in Cleaning and Dyeing Goods, but in order to protect ourselves against faults which may develop in process we can only undertake at Customers' own risk. Many stains cannot be removed by cleaning processes.

Conditions under which Goods are accepted for Cleaning or Dyeing.

1. Material which, from inherent or other defects, or from any other cause, is liable to damage, shrinkage, impoverishment, loss of colour or other deterioration, is only accepted for dyeing or cleaning on the understanding that the Society incurs no liability in respect of damage which may arise, and that the Society will not be liable for loss by theft or injury to the goods whilst in transit.

2. In case of loss by fire, responsibility is accepted only to the extent of the Society's estimate of the value of the goods so damaged or destroyed.

3. In the event of loss or damage for which the Society may be liable, the Society will have the option of either replacing or repairing the article or the part injured or lost, but the liability of the Society for the loss of or injury to any article of any kind shall be limited to 50 per cent. of the original cost of the article, and shall not in any case exceed £5, unless the value of such article has been previously declared in writing and special terms made in respect thereof.

Dyeing.—The Society cannot guarantee to Dye and Shade exactly. Customers can, however, rely on the very best efforts being made to meet requirements.

Moth Proofing and Fumigation is undertaken by the Society to free and protect Carpets, Fabrics, Clothes, Furs, Furniture, etc., from the ravages of the moth. Particulars on application to the Dyeing and Cleaning Department.

Venetian Blind Tapes and

Blind sundries of every description kept in stock.

WINDOW CLEANING.

The cleaning of windows is undertaken within the town radius at moderate charges, and on request a representative will be sent to give a quotation of cost.

The Society's Contractor, who is registered on the King's Roll, employs a regular and experienced staff of ex-service men; and in holding at the disposal of Customers the facilities and advantages of a reliable standard of organised labour, the Society would point out that efficiency and satisfaction are aimed at, rather than the lowest competitive quotations.

The men are furnished with work sheets for signing by Customers, or their representatives, on the completion of the work. Breakages and complaints of any kind should be notified when signing, otherwise no claim can be entertained.

The Society limits its responsibility for breakages of any description to the sum of 10/–.

The Contractor fully covers Customers in regard to all claims under Employer's Liability, Common Law, Workmen's Compensation and Third Party risks.

One or more clear days' notice of work is necessary in order that a sufficient staff may be retained to cope with the influx of orders during the season.

CHIMNEY SWEEPING.

Chimney Sweeping is undertaken by an efficient and trustworthy staff.

Prices, within 3 miles of the Stores (north of the Thames):

Dining Room, Drawing Room, Library, Bedroom, Pantry, Servants' Hall .. .. .. each chimney	**2/6**
If swept with ball and rope .. .. .. ,, ,,	**3/6**
Kitchen Chimneys, close range, per chimney, from	**3/6**
If swept with ball and rope .. .. ,, ,,	**4/6**

The cleaning of Soot Doors, Hot Plates, Ovens, etc., charged extra.

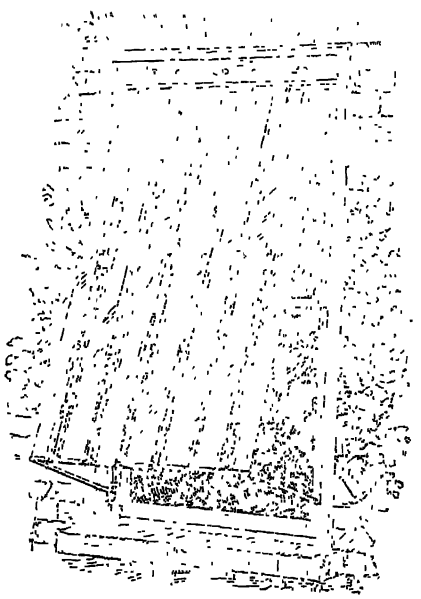

CONTRACTS.—Annual Contracts for Chimney Sweeping, up to 3 miles from the Stores, can be arranged on favourable terms, and a representative will be sent at any time to give a quotation and arrange times of sweeping, etc.

N.B.—Workmen are not authorised to receive money on behalf of the Society. Remittances must be forwarded to the Secretary. Customers may open Deposit Order Accounts with a nominal amount.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

OUTSIDE SUN BLINDS, CHAIR CANVASES, Etc.

Made by the Society on the most approved principles of construction, giving assurance of ease in working and long wear. Working models may be seen in the Showroom. Experienced men are sent to any part of the Country to measure and to advise with regard to any form of blind. In taking own measurements for Blinds a wood rule should be used, as tape measures are sometimes inaccurate through stretching.

THE CANALETTA.

An inexpensive and simple form of Sun Blind.

OUTSIDE BLINDS.

Taken down and warehoused for the winter at moderate rates.

BALCONY AND PORTICO AWNING

The Society's Factories are well equipped for the manufacture of awnings and shades in all styles and to any required size, whether large or small.

Measurements are taken and estimates submitted free within Ten miles of the Stores, beyond that distance third class train fare is charged if the estimate is not accepted,

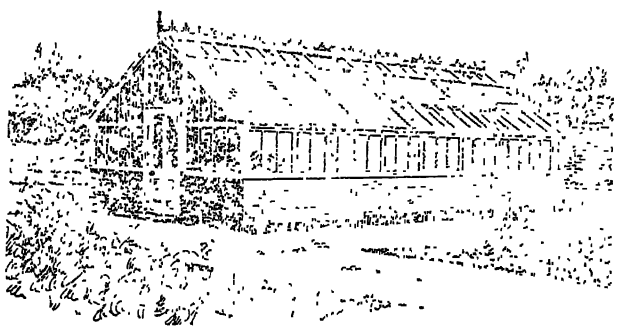

AWNING BLINDS

This make of Blind is usually supplied where it is wished to shade several windows or casement doors on the ground floor. The principle of working is similar to that of an ordinary shop blind mounted on an English spring roller, and fitted with knuckle-jointed irons.

A long arm is supplied with the blind for raising and lowering.

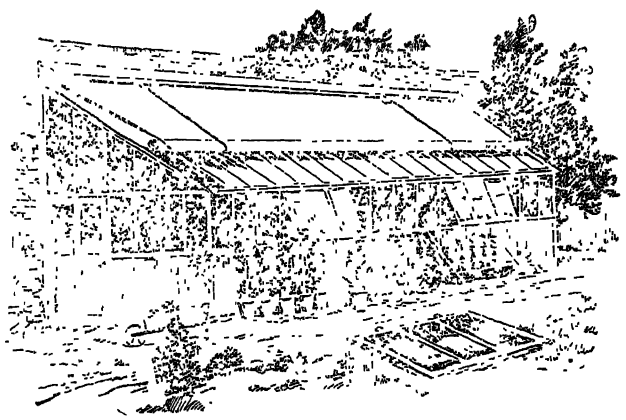

GREENHOUSE BLINDS

These Blinds consist of plain or painted Wood Laths, ¾ in. wide, secured with stout galvanised clips and rings. Also supplied in Red Cedar with Copper fittings.

The Blinds can be fitted below Ventilators, as shown, or fixed to ridge, and cut to allow Ventilators to open. Upon receipt of sizes and particulars, prices can be quoted to include all necessary cords, pulleys, hooks, and cleats, ready for fixing.

CONSERVATORY BLINDS

These Blinds are usually made of Green Flax Canvas, Conservatory Cloth or Garden Netting.

As will be seen from the illustration, they are worked on the pulley principle. The upper end of the material is tacked to the back of the weather box, the lower end being mounted on a roller which is drawn up into the box by means of the cords, as shown.

Measuring and fixing in any locality undertaken when desired.

No. 21. CHURCH FURNITURE AND MEMORIALS DEPARTMENT.

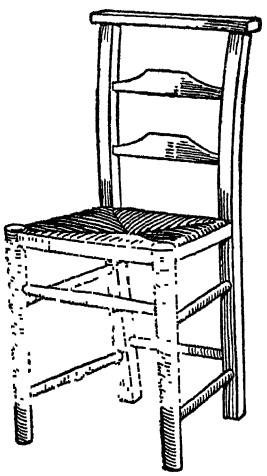

The Business of this Department comprises all that appertains to the interior Furnishing and Decoration of Churches, Constructional Woodwork such as Organ Cases, Screens, Panelling, etc., being a Speciality. It includes the supplying of Memorials of all kinds for Churches, Schools and Public Buildings—Churchyard and Cemetery Monuments, Village Crosses, Sculpture, and Stained Glass Windows (see following pages). A special section is devoted to the carrying out of Funerals and Cremations (see p. 1095).

Full particulars respecting any requirements will be forwarded, with present prices, on application.

THE SOCIETY'S SALOONS.

The Hairdressing and Toilet Saloons on the Third Floor, Victoria Street, are fitted with the most up-to-date apparatus and equipment.

The Society employs a thoroughly experienced staff, both male and female, to wait upon customers either in the Department or at their own residences.

Customers will appreciate the air of comfort, the attractive lounge, and the large, airy cubicles.

ESTATE OFFICES.

8, Francis Street, (adjoining the Stores).

TELEPHONE EXTENSIONS, 461 & 467.

THE SOCIETY receives applications for all classes of property. Owners having Estates or Building Sites for disposal, or Furnished and Unfurnished Houses or Flats to be let or sold, are invited to forward particulars for the Society's Registers. This Department will then use its organisation to obtain suitable tenants or purchasers.

ADVERTISING in the London daily newspapers is strongly recommended as a medium for the disposal of property, and the Society will carry out the necessary arrangements on mutual terms.

APPLICANTS for furnished or unfurnished houses or flats should call or write, giving details of their requirements, when full particulars of suitable properties will be supplied.

Rents collected and properties Managed.

VALUATIONS AND INVENTORIES.

8, Francis Street, (adjoining the Stores).

TELEPHONE EXTENSION 406.

A STAFF OF EXPERTS is employed, enabling the Society to offer specialised and efficient services, at Special Terms, in preparing:—

VALUATIONS FOR PROBATE or DIVISION of Property, Furniture, Silver and Plate, Pictures, etc. **Town or Country.**

VALUATIONS FOR INSURANCE of the Contents of Customers' Residences. **Town or Country.**

VALUATIONS OF LANDED ESTATES AND RESIDENTIAL PROPERTIES for Mortgage or Sale. **Town or Country.**

INVENTORIES of the Contents of Houses and Flats in Town and Country carefully made and checked for Furnished Tenancies and other Purposes.

A representative of the Society will call on Customers (without liability) to quote terms, on receipt of a postcard marked "Valuation Department."

* Orders on the Society may be forwarded through these Agents for execution in London.

TRAVEL TICKETS, AND BAGGAGE ARRANGEMENTS.

OCEAN PASSAGES AND CRUISES.

The Society, for the convenience of its Customers, acts as Agent for most British and Foreign lines of steamers. Plans of vessels are kept for reference, and information given regarding selection of berths and routes to be adopted. The best accommodation can be secured by booking early and on payment of a small deposit, the balance being paid 14 days before sailing.

Customers returning from abroad can, if desired, be met upon arrival at the London Docks or any of the following ports :—

Glasgow	...	Messrs. Escombe, McGrath & Co., 36 West Nile Street.
Plymouth	...	Army and Navy Stores, Limited, 173–4, Union Street, Telegraphic Address: "Army, Plymouth."
Portsmouth	...	Army and Navy Stores, Limited, 109, Palmerston Road, Southsea. Telegraphic Address: "Army, Portsmouth."
Southampton	...	Messrs. Henniker & Hogge, Ltd., R.M.S.P. Buildings, Terminus Terrace, Southampton. Telegraphic Address: "Henniker, Southampton."
Liverpool	...	Messrs. Escombe, McGrath & Co., 14, Water Street. Telegraphic Address: "Escombes, Liverpool."

TRAVEL TICKETS (RAIL, ROAD & AIR).

The Society issues Tickets by all Railways of the United Kingdom and the Continent and the leading Air and Road services. It can also supply Tickets from the Provinces. These tickets can be dated in advance, and forwarded through the post if required.

PASSPORTS AND VISAS.

Passports can be obtained at a nominal fee in addition to Foreign Office charges.

Visas for most countries can be procured for Customers, but some Consuls require the attendance of the person holding the passport.

FOREIGN MONEY EXCHANGE.

Customers can buy and sell Moneys of the principal Continental Countries at current rates in the Travel Bureau.

BAGGAGE.

Baggage can be collected and shipped from London and other ports in the United Kingdom at moderate rates. The heavy baggage of Customers proceeding to the East, across Europe, will be shipped by corresponding steamers from England, so as to await arrival abroad, or to meet passengers at any appointed port en route. Excess baggage can be shipped as freight, and advice given as to the best method of despatch.

All baggage is at Passengers' risk unless insured, and should be securely fastened, labelled with the owner's name, the name of the ship, the port of destination, and stating whether wanted on the voyage or not.

Baggage of homeward Passengers can be taken charge of by the Society's representative at port of landing, and cleared and forwarded as directed.

H.M. TRANSPORTS.

The Society's representatives are in attendance before sailing and upon arrival of steamers at Bombay, and will make arrangements for the shipment and clearance of baggage; clearance and delivery being effected in accordance with instructions.

Officers at Indian Up-country Stations can forward their baggage to the Society's Depot, Bombay, so as to arrive five clear days prior to the date of the Transport sailing.

When forwarding packages Customers should send the Railway receipt to the Society's Depot, Bombay, with particulars of the heavy baggage to be put on board the Transport, also any instructions as to cabin and excess baggage. Baggage will be addressed and marked prior to shipment according to regulations.

Arrangements will be made for storing and shipping excess baggage or packages which from any cause cannot be shipped by Transport.

CLEARANCE.

Packages are cleared through Customs and delivered.

Customers effecting shipments homewards should supply the Society with Bills of Lading, particulars of contents and value for Customs purposes, carefully declaring dutiable articles, as set forth below, furnishing keys where necessary, and instructions regarding disposal. Packages should be consigned direct to the Society.

In order to facilitate the identification and clearance of Baggage each package should be distinctly marked, and as all articles liable to duty are likely to be inspected by the Customs Authorities, it is advisable to keep such goods together as much as possible. Passengers will avoid detention of baggage and annoyance by making a declaration to the Examining Officer of H.M. Customs, who will be in attendance immediately upon the arrival of the ship.

All goods acquired abroad or during the voyage however small the quantity and whether or not they have been worn or used must be declared to the Customs Officer who examines the baggage and must be produced on demand.

The concession under which passengers may be allowed to retain small quantities of dutiable goods without payment of the duty does

not apply to dutiable goods in registered baggage or in unaccompanied baggage.

The importation of certain goods is prohibited or restricted. No prohibited [illegible] small the [illegible] be permitted to be imported.

The penalties for smuggling and for evading prohibitions of importation are severe. An attempt to bribe [illegible] Officer renders the offender liable to a Penalty of £200.

The Customs Officer may require all packages of baggage to be opened for his examination; and the [illegible] for opening, unpacking and repacking the packages rests with the passenger or his agent.

Through Baggage.—Passengers en route to destinations outside Great Britain or Northern Ireland may on application deposit the duty on dutiable articles retained in their possession for consumption outside Great Britain or Northern Ireland. In that case the duty is recoverable at the appropriate port or place of departure on production of the articles and the receipt for the deposit. This procedure is subject to proper declaration of the dutiable goods concerned.

The following are the principal articles liable to duty or subject to prohibition or restriction of importation, but any article purchased or otherwise acquired abroad may be dutiable and in any case of doubt the article should be declared :—

Tobacco, Cigars, Cigarettes, Spirits, Liqueurs, Wine, Saccharin.
Silk and Artificial Silk in all Forms.
Wearing Apparel of all kinds, including Hats, Gloves and Shoes.
Woollen, Linen and Cotton Articles of all kinds.
Leather Goods of all kinds.
Toilet Requisites and Toilet Preparations of all kinds including Scent, Soap, Toilet Waters, Powder, etc.
Clocks, Watches, Jewellery, and Goldsmiths' and Silversmiths' Wares, including wares of platinum.
Cameras, Field and Opera Glasses.
Wireless Sets and Valves. Cinematograph Films.
Magnetos and other parts of Motor Cars and Motor Cycles.
Musical Instruments, Gramophones and Gramophone Records.
Typewriters, Cutlery.
Firearms, Ammunition, Explosives.
Opium, Cocaine, Morphine, Heroin, Hashish.
Plumage.
Merchandise in Baggage.
Dogs, Cats, Parrots, Muskrats, Motor Cars, Motor Cycles and Pedal Cycles must be produced.
The Society undertakes clearance and conveyance of Dogs and Cats from abroad to approved quarantine premises, arranged under Ministry of Agriculture and Fisheries Licence.

DUTIABLES ALLOWED DUTY FREE.

Any quantity of a dutiable is liable to duty on importation into the United Kingdom and must be declared and produced, but the undermentioned quantities of certain goods may be passed by the Customs Officers free of duty provided :—

(1) They are the *bona fide* unconsumed stores of the passenger who brings them for personal consumption; and
(2) They are duly declared and produced.
Manufactured Tobacco, including Cigars and Cigarettes. Half-a-pound weight.
Spirits (other than Cordials and Perfumed Spirits). Half-a-pint.
Cordials and Perfumed Spirits. Half-a-pint.
Other dutiables. If the duty does not exceed 1/-.

Tobacco and Cigars in packages of less than 30 lb. gross weight, when imported for the private use of the consignee, may be delivered upon the Customs Officer being satisfied and upon payment of a fine in addition to the duty; but a total quantity of 3 lb. may be delivered without fine.

FORWARDING ABROAD.

The Society undertakes to forward parcels and effects to all parts of the World. Forms and full particulars for clearance, shipment and insurance can be obtained upon application.

FIREARMS ACCOMPANYING PASSENGERS TO INDIA.

Customers are notified that a Journey Licence must be obtained from the Commissioner of Police in India before any Arms accompanying Passengers can be cleared through Customs.

In order to obviate unnecessary delay and inconvenience, Customers taking Arms into India, and wishing to travel up country immediately upon their arrival, are informed that by giving the Society instructions at the time of booking their passages, together with particulars of the Arms they purpose taking, arrangements can be made for the necessary Journey Licence to be forthcoming on arrival in India.

The following are the particulars required :—

Full name and permanent or Office Address or Station where Customer intends to reside in India.
Nationality and Occupation in India.
Number and full description of the weapons concerned.

No Licence is required for Military Equipment.

INSURANCE.

The Insurance covers baggage and cargo against all marine risks, including theft and pilferage, but excluding war risks, and commences, when the goods leave the Society's premises for the ship, ceasing upon the landing of the goods at the port of disembarkation, unless specially insured through to destination.

Trunks, Bags, Boxes, and other receptacles are only insured, if separately valued, against total loss, except when the damage is the result of fire, sea-water, or an accident to the boat, train, or vehicle which is being used for their conveyance, but this condition does not apply to contents.

China, Glass, Furniture, Jewellery, Pictures, Lamps, Cameras, Field Glasses, etc., and all fragile and valuable articles must be specially declared and valued; and are insured against theft and pilferage but otherwise only for damage arising from the stranding, [illegible] of the ship, unless packed by the Society and special [illegible] the risk of breakage.

The insurance does not cover loss of any cash, bank notes, bonds, negotiable instruments, travelling tickets, coupons or securities of any kind; nor for unpacked rugs, sticks or umbrellas, nor for the loss of articles from the person whilst being worn.

The insurance does not cover loss or damage arising from delay, or from hostilities or invasion or riots and civil commotion, or loot, sack or pillage connected therewith, or from confiscation or detention by Custom House or other officials.

The risk of breakage (provided goods are packed by the Society), also war risk, including riots and civil commotions, can be covered by payment of additional premiums upon receipt of instructions prior to the sailing of the vessel.

When the Society agrees to effect Insurance it does not undertake to supply a separate policy, but reserves the option to declare the goods upon any open policy. Any claims that may arise shall be left to the Society for settlement with the Underwriters. The Society does not undertake to pay any claim over and above the amount and risk insured for, or beyond the liability of the Underwriters, nor in any case until the value has been received from the Underwriters. All goods are at the sole risk of the owner whilst waiting instructions. The Society acts as Agent only, and accepts no liability in respect to any insurance claim which may arise.

Should a package be received in externally bad condition, or show signs of having been tampered with, reservations should be made against the Steamship Company or Carrier, who in such a case is responsible, and against whom the claim should be preferred.

Notice of loss must be given at once to the Society, but in any event within 10 days of the actual occurrence becoming known to the assured, together with full particulars, and where possible accompanied with an affidavit or statutory declaration in support of any claim.

BAGGAGE INSURED DURING CONTINENTAL AND WORLD-WIDE TOURS.

Against risks of fire and theft, the Insurance covering such losses by sea or land.

Proposal forms and existing rates for any period can be obtained at the Travel Bureau, or will be sent by return of post.

Present rates and conditions on application.

WAREHOUSING.

The Society undertakes to warehouse goods at its Depository at Turnham Green, and all packages which may be handed to it for this purpose will be stored in accordance with the warehousing terms and conditions issued by the Society.

Should the Society not receive instructions for disposal of Customers' goods, which may not have been delivered to it for warehousing purposes within a reasonable time, they will be placed in the Society's warehouse at the expense and risk of the owner.

MEETING AND ESCORTING CUSTOMERS AND CHILDREN.

The Society undertakes to send representatives to meet Customers and their families and escort them to or from Railway Stations, Docks, Hotels, etc., at moderate rates.

This will doubtless be found very convenient in the case of Children passing through London when leaving or returning to School.

Arrangements are also made for the conveyance of luggage.

FARES, RATES AND FORMS

Fares for Passengers and Rates for Insurance and the Clearance of Outwards and Inwards Baggage, also forms in connection therewith, can be obtained on application.

RULES AND CONDITIONS REGARDING THE SALE OF STEAMSHIP, RAILWAY, INSURANCE TICKETS, Etc.

In connection with the sale of Railway Tickets, Steamship Passages, Insurance Tickets, and all Tickets of such nature, the Society does not accept any liability, such tickets being subject to the rules and regulations of the Railway, Steamship, Insurance, or other Company concerned. Any commission allowed to the Society as Agent, by the Steamship, Railway,

insurance, or other Company, is retained by the Society. A small addition is at times made when no commission is received by the Society.

RULES AND CONDITIONS UNDER WHICH PACKAGES ARE RECEIVED AND FORWARDED.

a.—The conditions and terms upon which the Society undertakes the Clearance, Insurance, [illegible] of packages are that all goods will be subject to the various [illegible] Acts of Companies over whose lines and [illegible] be carried, being governed moreover by the la[illegible] of the countries through which they may travel and for which the Society does not accept any liability.

b.—All packages must be accompanied with a declaration setting forth the exact contents and value for Customs entry. Senders will be held liable for any delays, damage, or fines that may be incurred owing to false or incorrect declarations.

c.—The Society and its Agents will not be responsible for any damage incurred through insufficient packing, nor through any delay or non-delivery that may be occasioned by incomplete addresses being furnished *with or on the packages.*

d.—The Society and its Agents will not be responsible for loss or any consequences whatever arising from accidents of the seas, or rivers, fire, water, the Act of God, the King's enemies, robbery by sea or land, loss or damage from violence, barratry, jettison, collision, the restraint of princes or rulers, pirates or robbers by sea or land, nor for leakage, or breakage, nor for anything for which exemption is claimed in any Bills of Lading or declarations or [illegible]d by any company conveying the goods, the Stores being absolved as if the same appeared herein.

e.—Articles of Glass, Marble, Objects of Art, Pictures, Porcelain, China, or of fragile or [illegible] are carried only at the sender's risk.

f.—No liability is accepted beyond that taken by the Railway, S.S. Co[illegible] any other Carrier conveying the goods, the Society's [illegible] ceasing immediately upon a package being handed to the Railways, S.S. Company, or Carrier carrying the same to destination, it then being at sole risk of owner.

g.—Should dangerous goods be handed to the Society for shipment, the senders will be held liable for all damage that may be incurred thereby, unless previous arrangements have been made for their receipt and a full declaration of contents accompanies same, and the contents are written on the package itself to enable due care to be exercised in dealing with same.

h.—All packages are to be held as a lien for the payment of charges in connection therewith.

i.—All rates are subject to fluctuations.

j.—The Society does not accept any liability for delays caused by Railway Companies, Lightermen, Steam Ship Companies, or any other Carriers that may be employed in conveying the goods to their destination. Weight, value, and contents are unknown to the Society. All packages whether in transit or in warehouse remain at owner's risk unless covered by insurance.

k.—The Society [illegible] responsibility for its charges for freight, insurance [illegible] differing from the amounts it pays; the difference, including freight rebates, insurance discounts, being retained by the Society towards defraying its export expenses

l.—The Society does not accept responsibility for loss, damage, or delay caused directly or [illegible], Strikes, Lock-outs, Labour Disputes, or Labour Disturbances of any kind whatever occurring.

m.—**INSURANCE**—for conditions, see page 1106.

Any person who may wilfully and [illegible] attempt to take on board any steamer or vessel [illegible] is, Oil of Vitriol, Gunpowder, Glonoin or Blasting Oil, Nitro-Glycerine, Prepared Tannin, Gun Cotton, Petroleum, Naphtha, Paraffine, Chloride of Lime, Ether, Camphine, Turpentine, Tar, Pitch, Resin, Lucifer Matches, or other articles [illegible] inflammable, or otherwise dangerous nature, will be liable to prosecution by the owners of such steamer or vessel under Act 17 & 18 Victoria, c. 104, s. 329, or under the Act 29 & 30 Victoria, c. 69.

EXPORT AND SHIPPING ARRANGEMENTS.

CARTAGE.—The Cartage of purchased goods to all the London Docks will be borne by the Society, unless special Cartage is incurred.

SHIPMENT.

The Society undertakes to ship goods, and will so deal with Customers' orders for export unless instructed to the contrary. This arrangement will expedite execution and decrease charges.

In the absence of instructions, the Society will use its discretion, all articles being carefully packed for export, and forwarded by the most [illegible] the Firms set forth on page 1105 [illegible]—but it must be understood that the Society's liability ceases at time of shipment or when goods are handed over to the Steamship Co., Railway Co., or others concerned in the transit, they [illegible] the sole risk of the purchasers; and all subsequent actions taken by the Steamship Co., Railway Co., or others employed, either at home or [illegible] and on account and at the risk of the purchasers. The Society, moreover, does not accept liability for fines inflicted by Foreign Governments, nor responsibility for any difficulties which may arise in connection with the importation of goods into any country.

Customers are advised to have their goods consigned to the Firms advertised, as by so doing they will generally save both in freight and shipping charges.

Freight, insurance, bills of lading, Customs entries, shipping, forwarding, etc., are charged for at moderate rates.

The Society does not accept any responsibility for its charges for freight, insurance and forwarding differing from the amounts it pays; the difference, including freight rebates, insurance discounts, being retained by the Society towards defraying its export expenses.

Goods are invariably shipped per steamer, unless orders are given to the contrary.

Transit charges will be debited to Customers' accounts, unless instructions are received to the contrary.

The Society does not accept responsibility for loss, damage, or delay caused directly or indirectly by Riots, Strikes, Lock-outs, Labour Disputes, or Labour Disturbances of any kind whatever occurring.

Also see "Rules and conditions under which packages are received and forwarded," as shown above.

FREIGHT ALLOWANCES.

Orders of £3 and under £10 in value, shipped from London, are subject to an allowance of 1½ per cent.

On orders of the same value shipped from other Ports in the United Kingdom, the rail carriage thereto, by goods train, will be paid by the Society.

On orders of £10 and upwards, in lieu of the 1½ per cent., the cartage rail carriage by goods train to any Port in the United Kingdom, and Dock dues at such Port, will be paid by the Society.

On orders of £50 and upwards, in addition to the cartage, rail carriage by goods [illegible] Port in the United Kingdom, and Dock dues [illegible] an allowance of 1½ per cent. on the value of the [illegible]

These rules only apply to goods kept at the Society, and not to explosives or goods forwarded direct from Suppliers. For carriage allowance on cartridges see Gun and Sporting Department conditions.

The Society reserves to itself the right of paying the freight or postage in lieu of allowance.

Waterage, incurred in delivering goods to vessels lying some distance from shore, is not paid by the Society.

FOREIGN EXPEDITIONS.

The Society's large experience in fitting out, in every detail, exploring, shooting, [illegible] expeditions, enables it to bring special knowledge to bear [illegible] or such. Cases of assorted provisions, and other necessaries for use on journey to and in the interior, are packed to come within the weight for head, mule, or camel loads. For particulars, application should be made by letter to the Secretary, or personally [illegible] Department.

Arrangements are made whereby intending travellers, upon making application at the Export Department, can be waited upon by a clerk who will accompany them through the various Departments and give advice when required, thereby saving time.

GOODS FOR THE CONTINENT.

Customers ordering goods for the Continent should state whether same are to be forwarded by Grande or Petite Vitesse, otherwise the Stores will use its discretion.

DAMAGED GOODS.

All packages should be carefully inspected before a receipt is given, and in all cases of damage a protest lodged immediately and the goods signed for accordingly, otherwise it is most difficult to obtain a satisfactory settlement.

If a case or package shows any signs of having been tampered with, it would be best in the interest of all concerned to check the weight with that shown on invoice and, if necessary, to open the package in the presence of the carrier or his representative, before giving any receipt for same; otherwise it is difficult to obtain compensation for damage or theft.

SPECIAL NOTICE.

As orders cannot in every case be completed by the date, or in time for shipment by a specified steamer, it is suggested that Customers give instructions with orders if they are to [illegible] In the absence of instructions the Society will use [illegible] frequently occurs that goods not mentioned in the Export List are ordered which are quite unsuitable for abroad. Customers are therefore [illegible] such goods are [illegible] at their entire risk and no after claim whatever will be entertained for supposed inferiority or deterioration.

EXPORT PACKING CASES.

Plain wood and lined cases with lid to screw, or fitted with hinged lids, lock and keys, can be obtained in the Export Department, where a few samples are on view. Prices for other sizes or for cases made to order upon application.

Painting Name and Regiment, 2/– extra.

OUTSIDE PARCELS FOR ENCLOSURE.

For the convenience of Customers, *small* packages will be received for enclosure with goods ordered from the Society, but Customers are informed that much [illegible] delay is often caused by late arrivals and by imperfect declaration of contents and value. These particulars are absolutely necessary for shipment and Customs clearing purposes. Owing to the large increase of parcels received for enclosure, it has been found necessary to meet the expense incurred in taking care of and enclosing same by making a minimum charge of 1/– per parcel, increasing in proportion to weight and bulk.

Enclosures for Export from outside firms must be securely and properly packed when delivered to the Society, so as to need no further protection, as no responsibility can be accepted.

To secure identification it is also necessary that the packages should bear on the outside the name of the sender, c/o Export Dept. A. & N. S., L., and full instructions as to disposal.

The Society will not accept any responsibility, though every care will be taken in packing, etc.

CAUTION.—The Society cannot receive any goods of a dangerous or damaging nature. If any such goods are sent in without notice, the sender will be held responsible.

INSURANCE.

1. The Society insures against Marine Risks, Theft, and Pilferage from Port to Port all goods *supplied* and shipped by itself, except baggage, unless definite instructions are given to the contrary.

Glass and china *packed* by the Society will also be insured against breakage, unless otherwise ordered.

Should insurance through to destination be required, instructions must be given to that effect.

2. Goods under 10/– in value sent by Parcel Post, Registered Letter Post, or Book Post will not be insured unless definite instructions are given to the contrary. Goods sent by Letter Post are NOT insured.

3. When the Society agrees to effect Insurance it does not undertake to supply a separate policy, but reserves the option to declare the goods upon any open policy. Any claims that may arise shall be left to the Society for settlement with the Underwriters. The Society does not undertake to pay any claim over and above the amount and risk insured nor or beyond the liability of the Underwriters, nor in any case until the value has been received from the Underwriters. Such insurance will not cover the risk of breakage, with the exception of Glass and China referred to in Clause 1.

4. It is essential that immediate notice be given of claims, supported by documentary evidence.

5. Should a package be received in externally bad condition, or show signs of having been tampered with, reservations should be made against the [illegible] Company or Carrier, who in such a case is responsible [illegible] whom the claim should be preferred. See also clause on page 1107 under the heading of "[illegible]"

*PAYMENT FOR ORDERS.

In the absence of a Deposit Account, Customers are specially requested to enclose remittances with their orders, to ensure their being executed immediately, as no order will be put in hand until the remittance is received. Any difference will be adjusted after despatch.

CASH ON DELIVERY.

Customers wishing goods sent to places where the C.O.D. system is in operation must remit with their orders 25 per cent. of the total value of same.

MAKING OUT ORDERS.

It will greatly facilitate business of Customers, when ordering, write their requirements for each department on separate papers. Order forms and carbon papers can always be supplied upon request.

GOODS ORDERED FROM BOND.

In the event of Wines and Spirits, or other goods in Bond, being required for shipment as Stores on Ships and Private Yachts, the tonnage, number of men, and destination of the vessel will be required for Customs purposes. Such transactions usually occupy a week before goods can be put on board.

*PACKING AND FREIGHT.

The charges for cases, packing, etc., may be estimated at about 5 per cent. for general orders, and this amount should be included when remitting. When the freight is to be [illegible] about 15 per cent. more should be added. Any balance will [illegible] on completion of the transaction.

BAGGAGE.

Packages to be shipped as baggage must be on board two days prior to the date of sailing. Customers are therefore requested to give their orders in sufficient time, and also to state, when purchasing, in what name the goods are to be shipped. See also page 1106.

FRAGILE ARTICLES.

Lawn Mowers, Mangles, Machinery, etc., Thermometers, and such articles of [illegible] will be packed with every care, but the Society will not be [illegible] for any breakages which may occur in transit.

EXPLOSIVES AND DANGEROUS GOODS.

As Explosives, such as Gunpowder, Cartridges, Sulphuric Acid, Methylated Spirits, Matches, etc., are not carried by all Steamship Companies, this should be taken into consideration when giving orders. Such goods are also liable to minimum freight [illegible], and should therefore be ordered in as large quantities as [illegible].

SAMPLE POST.

With the exceptions specified below, the use of the Sample Post is restricted to *bona fide* Trade Samples or Patterns of Merchandise without saleable value. Transmission at the sample rate is also accorded to printers' blocks, keys sent singly, fresh cut flowers, articles of natural history (dried or preserved animals or plants, geological specimens, etc.), tubes of serum [illegible] objects rendered innocuous by their mode of preparation [illegible] and live bees. These articles, except tubes of serum sent in the general interest by laboratories or institutions officially recognized, and live bees, may not be sent for a commercial purpose.

NO PACKET CONTAINING GOODS FOR SALE OR CONSIGNED IN EXECUTION OF AN ORDER (HOWEVER SMALL THE QUANTITY) CAN BE FORWARDED BY THE SAMPLE POST.

LETTER POST.

As it is prohibited to send coin, jewellery, or precious articles through the post to certain countries of the Postal Union (see Post Office Guide), no letters or packets addressed to those countries and containing any such articles can be accepted for registration.

PACKETS CONTAINING PLAIN PAPER AND STATIONERY.

Blank paper, note paper or envelopes (with or without printed address), and all other articles [illegible], pure and simple, are inadmissible at the rate applicable to printed papers, *i.e.*, Book Post.

CHRISTMAS CRACKERS BY FOREIGN AND COLONIAL POST.

These can now be sent to most places.

* To this clause special attention is drawn.

All prices quoted herein are subject to Market Fluctuations without notice, but Customers are notified that the prices current at the time an order is executed will be charged.

1 Corkscrew.
Plywood Case with Padlock and Key.

Flour is not included in the above, as it is best packed in separate cases. Six 7-lb. tins of flour when packed would make a 50-lb. load.

Boxes for Native and other means of transport made up to suit requirements.

CRACKERS AND TABLE DECORATIONS.

A selection always in stock which can be sent by parcel post to most places.

ARMY AND NAVY
JAMS AND MARMALADES

are manufactured in the Stores' own factory situated in the centre of the Kent Fruit-Growing District, and are prepared from the finest selected fruits and refined sugar. For Export Quotations, *see* pages 1114 and 1115.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

The Society cannot, of course, guarantee delivery; its responsibility ends when the parcel is handed to the authorities for delivery.

ALL PRICES ARE SUBJECT TO MARKET FLUCTUATIONS.

LIST OF WINES, SPIRITS AND LIQUEURS.

FOR EXPORT ONLY.

The following prices for Wines and Spirits include packing, bond charges and delivery to dock in London, unless special cartage is incurred.

Wines which appear in ordinary list, and are not quoted hereunder, will be supplied from Bond when possible and priced accordingly.

All Wines, etc., are carefully packed, and, in the absence of instructions, forwarded by the most convenient route, but the Society's liability ceases when goods are shipped or handed over to an Agent, the goods then being at the sole risk of the purchaser.

Special conditions for the supply of Wines and Spirits to Naval Messes and Canteens.

WINES AND SPIRITS.—The cartage, rail carriage by goods train to any Port in the United Kingdom, and dock dues at such Port are paid by the Society on orders of £10 and upwards.

SPIRITS.—Spirits and other dutiable stores may be shipped under bond on board all His Majesty's sea-going ships in commission, subject only to restrictions as to minimum quantities. To enable this to be done, Form No. 90 can be obtained from the Society on application.

WINES.—It is advisable when Wines under bond are being ordered for shipment to allow as much time as possible to enable the routine necessary to be completed.

STOWAGE.—It is very essential that all Wines be kept in as cool and even a temperature as possible, draughts especially being avoided.

CHAMPAGNES.—The Society does not hold itself responsible for ullages or bottles bursting through faulty stowage.

UNUSED STOCK ON H.M. SHIPS.—A reasonable quantity of unused stock will be taken back by the Society and allowed for in full, provided the goods are in sound and saleable condition when received by the Society.

Allowances for quantities will be made as follows :—

For orders of 6 dozen bottles or equivalent .. .. 1/- per dozen
" " 15 " " " .. .. 1/6 " "

By reason of a concession in clearance charges from Bond, on a minimum quantity of 6 dozen bottles of any one number or brand, an additional allowance of 1/- per dozen.

Not less than one dozen bottles or two dozen half-bottles of each can be supplied.
